

products for the ACS 5-year estimates. We are especially interested in data users' specific feedback on the following four dimensions of these plans:

Block Group Level Geography—As detailed in the proposal at http://www.census.gov/acs/www/Downloads/proposal_acs5yearproducts.pdf, some geographic summary levels, such as block groups, will receive only a subset of the full set of data products. However, the Census Bureau acknowledges the value of block group data for users, especially those in rural areas, to create their own geographies. The Census Bureau also recognizes that the small sample sizes associated with block groups means that many of the estimates at the block group level will not be reliable. To address these concerns, the Census Bureau is considering alternative dissemination options for block group data. Please comment on the option of releasing block group data but not releasing data products for this summary level with the other data products.

Types of Data Products—We propose to release 5-year estimates in detailed tables, summary files, subject tables, data profiles, narrative profiles, selected population profiles, thematic maps, and geographic comparison tables. A 5-year PUMS files is also proposed. Narrative profiles and selected population profiles are not proposed for specific geographic summary levels, such as block groups.

Restrictions Required for Disclosure Avoidance or Statistical Reliability—We propose that restrictions on the release of 5-year estimates be based solely on disclosure avoidance requirements. These are summarized in the proposal at http://www.census.gov/acs/www/Downloads/proposal_acs5yearproducts.pdf. As is true for all Census Bureau data products, standards defined to ensure the publication of high-quality estimates must be met. These standards are based on estimates of survey coverage, survey (unit) nonresponse, and item nonresponse. The ACS 1-year and 3-year estimates were subjected to restrictions based on the reliability of the estimates. The Census Bureau does not propose that these restrictions be applied to the 5-year estimates. Please comment if you believe that the standards used to determine which 1- and 3-year estimates are published should also be applied to the 5-year estimates. In addition, if such limitations are implemented, tell us if you suggest that the full set of estimates be made available to users through some other means.

Periodicity of Data Release—We propose that, as is the case for 1-year

estimates and 3-year estimates, ACS 5-year estimates be released annually.

Paperwork Reduction Act

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to requirements of the Paperwork Reduction Act (PRA), unless that collection of information displays a current, valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 United States Code, Chapter 35, the OMB approved the ACS under OMB Control Number 0607-0810. We will furnish report forms to organizations included in the survey, and additional copies will be available upon written request to the Director, U.S. Census Bureau, Washington, DC 20233-0001.

Dated: February 26, 2009.

Thomas L. Mesenbourg,

Acting Director, U.S. Census Bureau.

Brake Rotors From the People's Republic of China: Extension of Time Limit for Preliminary Results of the Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: March 2, 2009

FOR FURTHER INFORMATION CONTACT:

Brian Smith or Terre Keaton Stefanova, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230; telephone: (202) 482-1766 or (202) 482-1280, respectively.

Background

On June 4, 2008, the Department of Commerce (the Department) published in the **Federal Register** a notice of initiation of the administrative review of the antidumping duty order on brake rotors from the People's Republic of China (PRC) covering the period April 1, 2007, through March 31, 2008. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 73 FR 31813 (June 4, 2008).

On December 18, 2008, we extended the preliminary results deadline from December 31, 2008, to March 2, 2009. See *Brake Rotors From the People's Republic of China: Notice of Extension of Time Limit for Preliminary Results of the Antidumping Duty Administrative Review*, 73 FR 77004 (December 18, 2008).

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination in an administrative review within 245 days after the last day of the anniversary month of an order or finding for which a review is requested. If it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend this deadline to a maximum of 365 days after the last day of the anniversary month.

Extension of Time Limit for Preliminary Results

We determine that it is not practicable to complete the preliminary results of this review within the original time limit because the Department requires additional time to examine separate rate issues in this administrative review.

Therefore, the Department is extending the time limit for completion of the preliminary results from 306 days to 320 days, in accordance with section 751(a)(3)(A) of the Act. The preliminary results are now due no later than March 16, 2009. The final results continue to be due 120 days after the publication of the preliminary results.

We are issuing and publishing this notice in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: March 2, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
