SUPPLEMENTARY INFORMATION:

Title: Disaster Supplemental Nutrition Assistance Program (D-SNAP).

OMB Number: 0584-0336.

Expiration Date: June 30, 2009.

Type of Request: Extension of a previously approved collection.

Abstract: Pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Pub. L. 100-707, and Section 5(h) of the Food and Nutrition Act of 2008, 7 U.S.C. 2014(h), the Secretary of Agriculture has the authority to develop a Disaster Supplemental Nutrition Assistance Program (D-SNAP) to address the temporary food needs of families following a disaster. The information collection under this notice is required to be provided by State agencies in order to receive approval from the Food and Nutrition Service (FNS) to operate a D-SNAP in response to a disaster.

The number of disasters that occur annually and the average number of households affected by the disasters cannot be predicted. During the period from calendar year 2003 through calendar year 2008, the number of State requests to operate disaster programs has ranged from a low of five in calendar year 2006 to a high of 26 in calendar year 2005, which included

program modifications requested by some States to accommodate evacuees from disasters which did not directly affect the States themselves. The information collection under this reporting burden is limited to the burden experienced by State agencies in preparing their requests to operate D-SNAPs. The burden associated with the actual operation of D-SNAPs, including the processing of applications from households affected by disasters, is included under OMB docket #0584-0064 rather than this information collection. FNS estimates that approximately 10 hours of State agency personnel time are required to prepare such requests. The burden associated with preparing requests to operate D-SNAPs does not vary significantly from disaster to disaster and is relatively independent of the scope of the disaster. Major disasters require little additional document preparation time than relatively minor disasters. Based on an estimate of 14 State agency requests per year to operate D-SNAPs and 10 hours of State agency personnel time to prepare each application, FNS has calculated an estimated burden of 140 hours per year in an average year. This represents a significant increase from our previous estimate, which was based on an annual average of eight disaster programs.

Affected Public: State and local governments.

Estimated Number of Responses: 14.

Estimated Number of Respondents: 14.

Estimated Number of Responses per Recipient: 1.

Estimated Time per Response: 10 hours.

Estimated Total Annual Burden: 140 hours.

Dated: March 3, 2009.

E. Enrique Gomez,

Acting Administrator, Food and Nutrition Service.
