

were released approximately 20 mi off the coast of Cape Sand Blas. No marine mammals were seen during the boat sweep or at release. No evidence of injury or death to marine mammals was noted.

The Small Diameter Bomb (SDB) releases over the GOM for 2008 were as follows: two Guided Test Vehicle (GTV) releases on February 2, 2008, and March 21, 2008 and three Separation Test Vehicle (STV) releases on November 20, 2008, November 25, 2008, and December 8, 2008. The GTVs have an inert fuse. The warhead is filled with telemetry hardware and has no explosives. The STVs were also completely inert. For all SDB releases, no marine mammals were seen during the boat sweep or at release. No evidence of injury or death to marine mammals was noted.

Authorization

The U.S. Air Force complied with the requirements of the 2008 LOA, and NMFS has determined that there was no take of marine mammals by the U.S. Air Force in 2008. Accordingly, NMFS has issued an LOA to Eglin AFB authorizing the take by harassment of marine mammals incidental to PSW testing and training in the EGTTR in the GOM. Issuance of this LOA is based on findings described in the preamble to the final rule (71 FR 67810, November 24, 2006) and supported by information contained in Eglin's December, 2008 request for a new LOA that the activities described under this LOA will not result in more than the incidental harassment of certain marine mammal species and will have a negligible impact on the affected species or stocks. The provision requiring that the activity not have an unmitigable adverse impact on the availability of the affected species or stock for subsistence uses does not apply for this action.

Department of the Navy

Notice of Revised Record of Decision for Hawaii Range Complex

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: The Department of the Navy (Navy) announces its decision to revise the Record of Decision (ROD) issued on June 26, 2008, and published on July 7, 2008 (73 FR 38424) on the Final Environmental Impact Statement (EIS)/Overseas Environmental Impact Statement (OEIS) for the Hawaii Range Complex (HRC). These revisions address the authorizations recently issued by the National Marine Fisheries Service (NMFS) in December 2008 and January 2009 under the Marine Mammal Protection Act (MMPA) and the Endangered Species Act (ESA) for the incidental harassment of marine mammals resulting from Navy training and Department of Defense (DoD) research, development, testing, and evaluation (RDT&E) activities conducted within the HRC for the proposed action presented in Alternative 3.

The Revised ROD is effective February 26, 2009. Except as discussed in the Revised ROD, all other provisions of the June 26, 2008 ROD remain in full force and effect. Implementation of the preferred alternative, initiated in June 2008 will continue. Because the Navy is required by section 5062 of Title 10 of the United States Code to organize, train, equip, and maintain combat-ready forces, ongoing training and RDT&E activities within the HRC will continue at current levels in the event that the proposed action is not implemented.

SUPPLEMENTARY INFORMATION: The Revised ROD has been distributed to all those individuals who requested a copy of the Final EIS/OEIS and agencies and organizations that received a copy of the Final EIS/OEIS. The full text of the Revised ROD is available for public viewing at <http://www.govsupport.us/navynepahawaii/downloads.aspx>. Single copies of the Revised ROD will be made available upon request by contacting the Public Affairs Officer, Pacific Missile Range Facility, *Attn:* HRC EIS/OEIS REVISED ROD, P.O. Box 128, Kekaha, Hawaii 96752-0128; *e-mail:* feis_hrc@govsupport.us; or calling the Public Affairs Officer at *telephone:* 866-767-3347.
