

proposed rule with USDA officials and with one another. The issue-focused meeting(s) will be open to the public and announced in advance in the **Federal Register**. The proceedings will be transcribed, and the transcripts will be made part of the rulemaking record. The meeting(s) is intended to provide a forum for all interested parties to attend and participate in all the discussions to foster focused, substantive dialogue on the key issues.

Tentatively identified agenda items for consideration at the April issue meeting(s) include the four issues outlined above from the January 16, 2009 **Federal Register** notice.

Extension of Comment Period

APHIS is extending the comment period for the proposed rule, which currently closes on March 17, 2009, until 60 days following the April meeting(s) in order to include in the administrative record the transcripts of the scoping session and public meeting(s), written comments submitted by persons unable to attend the meeting(s), and other written comments submitted by interested parties on the matters addressed at the public meeting(s). Persons wishing to submit written comments on the proposed rule may continue to do so until 60 days after the April public meeting(s) through the Regulations.gov Web site (see footnote 1). The new date for the close of the comment period will be provided in our notice announcing the date and other details of the April 2009 issue meeting(s). We will accept all comments we receive between March 18, 2009 (the day after the close of the current comment period) and the date of the notice that we will publish to announce the date(s) of April 2009 issue meeting(s) and formally reopen the comment period.

- viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

What Action Is the Agency Taking?

EPA's Office of Pesticide Programs (OPP) has developed a commodity

vocabulary database entitled *Food and Feed Commodity Vocabulary*. The database was developed to consolidate all the major OPP commodity vocabularies into one standardized vocabulary. As a result, all future pesticide tolerances issued under 40 CFR part 180 will use the "preferred commodity term" as listed in the aforementioned database. This is the ninth in a series of documents revising the terminology of commodity terms listed under 40 CFR part 180. Eight final rules, revising pesticide tolerance nomenclature, have published in the **Federal Register**: June 19, 2002 (67 FR 41802) (FRL-6835-2); June 21, 2002 (67 FR 42392) (FRL-7180-1); July 1, 2003 (68 FR 39428) (FRL-7308-9) and (68 FR 39435) (FRL-7316-9); December 13, 2006 (71 FR 74802) (FRL-8064-3); September 18, 2007 (72 FR 53134) (FRL-8126-5) corrected on October 31, 2007 (72 FR 61535) (FRL-8151-4); and October 10, 2008, (73 FR 60151) (FRL-8376-1). This revision process will establish a uniform presentation of existing commodity terms under 40 CFR part 180.

This document proposes many revisions to the commodity terms in 40 CFR part 180, subpart D. These proposed revisions, if adopted, would replace certain commodity terms that are no longer used by EPA with the appropriate matching term in the "Food and Feed Vocabulary." The sections affected are listed in the Table.

III. Statutory and Executive Order Reviews

This document proposes technical amendments to the Code of Federal Regulations which have no substantive impact on the underlying regulations, and does not otherwise impose or

amend any requirements. As such, the Office of Management and Budget (OMB) has determined that a technical amendment is not a "significant regulatory action" subject to review by OMB under Executive Order 12866, entitled *Regulatory Planning and*

Review (58 FR 51735, October 4, 1993). Because this proposed rule has been exempted from review under Executive Order 12866 due to its lack of significance, this proposed rule is not subject to Executive Order 13211, *Actions Concerning Regulations That*

Significantly Affect Energy Supply, Distribution, or Use (66 FR 28355, May 22, 2001). This proposed rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, or impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104–4). Nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994); or OMB review or any Agency action under Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104–113, section 12(d) (15 U.S.C. 272 note). The Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedure Act or any other statute unless the agency certifies that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental organizations. After considering the economic impacts of today’s proposed rule on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. This action proposes technical amendments to the Code of Federal Regulations which have no substantive impact on the underlying regulations. These technical amendments will not have any negative economic impact on any entities, including small entities. In addition, the Agency has determined that this action will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Executive Order 13132 requires EPA to develop an accountable process to ensure “meaningful and timely input by State and local officials in the

development of regulatory policies that have federalism implications.” “Policies that have federalism implications” is defined in the Executive Order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.” This proposed rule directly regulates growers, food processors, food handlers and food retailers, not States. This action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of the FFDCA. For these same reasons, the Agency has determined that this proposed rule does not have any “tribal implications” as described in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000). Executive Order 13175, requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” “Policies that have tribal implications” is defined in the Executive Order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and the Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.” This proposed rule will not have substantial direct effects on tribal governments, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this proposed rule.
