

Malheur National Forest, 431 Patterson Bridge Road, P.O. Box 909, John Day, OR 97845. The Responsible Official will decide if the proposed project will be implemented and will document the decision and reasons for the decision in a Record of Decision. That decision will be subject to Forest Service Appeal Regulations. The responsibility for preparing the DEIS and FEIS has been delegated to Brooks Smith, District Ranger, Blue Mountain Ranger District.

Preliminary Issues

Preliminary issues identified include the potential effect of the proposed action on: Soils, water quality and fish habitat, snags and down wood, disturbance to cultural resources, potential for noxious weed expansion, threatened, endangered and sensitive aquatic, terrestrial and plant species, potential loss of economic value of trees damaged by insects or wildfire, and the safety and use of the area by public and land managers.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. Public participation will be especially important at several points during the analysis, beginning with the scoping process (40 CFR 1501.7). Initial scoping began with the project listed in the 2009 Winter Edition of the Malheur National Forest's Schedule of Proposed Actions. A Public meeting has been planned for April 8, 2009 to discuss the project. Also, correspondence with tribes, government agencies, organizations, and individuals who have indicated their interest will be conducted.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. The submission of timely and specific comments can affect a reviewer's ability to participate in subsequent administrative appeal or judicial review.
