Procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 6, 2008, (73 FR 58268–58269). In accordance with those procedures, oral or written views may be presented by members of the public, including representatives of the nuclear industry. Electronic recordings will be permitted only during the open portions of the meeting. Persons desiring to make oral statements should notify the Cognizant ACRS staff named below five days before the meeting, if possible, so that appropriate arrangements can be made to allow necessary time during the meeting for such statements. Use of still, motion picture, and television cameras during the meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by contacting the Cognizant ACRS staff prior to the meeting. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the Cognizant ACRS staff if such rescheduling would result in major inconvenience.

In accordance with Subsection 10(d) Public Law 92–463, I have determined

that it may be necessary to close a portion of this meeting noted above to discuss organizational and personnel matters that relate solely to internal personnel rules and practices of ACRS, and information the release of which constitute a clearly unwarranted invasion of personal privacy pursuant to 5 U.S.C. 552b(c)(2) and (6).

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, as well as the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting Girija Shukla, Cognizant ACRS staff (301–415–6855), between 7:15 a.m. and 5 p.m. (ET). ACRS meeting agenda, meeting transcripts, and letter reports are available through the NRC Public Document Room at pdr.resource@nrc.gov, or by calling the PDR at 1–800–397–4209, or from the Publicly Available Records System (PARS) component of NRC's document system (ADAMS) which is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> or <http://www.nrc.gov/reading-rm/doc-collections/ACRS/>.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–315; License No. DPR–58; NRC–2009–0111]

Indiana Michigan Power Company; Receipt of Request for Action Under 10 CFR 2.206

Notice is hereby given that by petition dated December 16, 2008, Mr. David Lochbaum (petitioner) has requested

that the U.S. Nuclear Regulatory Commission (NRC) take action with regard to the licensee for the Donald C. Cook Nuclear Power Plant, Unit 1. The petitioner requests that the NRC issue a demand for information requiring the licensee to docket information regarding the following four issues at least 30 days before restarting the reactor from the current outage:

(1) The vibration levels experienced in the control room, turbine building, and other structures during the September 20, 2008, event;

(2) The vibration levels assumed in these locations during the safe-shutdown earthquake (SSE);

(3) In locations where the vibration levels during the September 20, 2008, event exceeded the vibration levels assumed for an SSE, the extent to which piping and pipe supports were replaced or repaired because of potential stress damage and the bases for not replacing other structures, systems, and components exposed to greater than SSE loading; and

(4) In locations where the vibration levels during the September 20, 2008, event did not exceed the vibration levels assumed for an SSE, the extent of the measures taken to protect against spurious equipment operation and the bases for concluding that the as-left configuration will not pose a public health hazard in event of an SSE.

As the basis for this request, the petitioner states that the event caused significant vibration levels that caused spurious operation of standby equipment and may have contributed to a breach that seriously impaired the fire protection system. The petitioner further states that the information being sought in the petition is needed to apply the proper lessons from the event to the future operation of the Donald C. Cook Nuclear Plant, Unit 1. The petitioner states that without this information, the NRC cannot be assured of, and the public is therefore not adequately protected from, significant adverse safety implications of an SSE causing spurious actuation of equipment.

The NRC is treating the request pursuant to Title 10, Section 2.206, "Requests for Action under This Subpart," of the *Code of Federal Regulations* (10 CFR 2.206). The request has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by 10 CFR 2.206, the NRC will take appropriate action on this petition within a reasonable time. A copy of the petition is available for inspection at the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville,

MD. Publicly available records will be accessible from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to PDR.Resource@nrc.gov.

Dated at Rockville, Maryland, this 6th day of March 2009.

For the Nuclear Regulatory Commission.

Eric J. Leeds,

Director, Office of Nuclear Reactor Regulation.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Determinations Under the African Growth and Opportunity Act; Correction

AGENCY: Office of the United States Trade Representative.

ACTION: Notice; correction.

SUMMARY: The United States Trade Representative (USTR) published a document in the **Federal Register** of August 4, 2006, concerning a determination under the African Growth and Opportunity Act (AGOA) in respect of Burkina Faso. The document did not expressly include a modification to list Burkina Faso in note 2(d) to Subchapter XIX of chapter 98 of the Harmonized Tariff Schedule of the United States (HTSUS).

FOR FURTHER INFORMATION CONTACT: Elizabeth Baltzan, Office of the General Counsel, Office of the United States Trade Representative, (202) 395-3582.

Correction

In the **Federal Register** Notice of August 4, 2006, the USTR determined that Burkina Faso had met certain customs requirements under the AGOA. President Bush had by Proclamation 7853 previously designated Burkina Faso as a lesser developed beneficiary country for purposes of what was then Section 112(b)(3)(B) of the AGOA. U.S. Note 2(d) to Subchapter XIX of chapter 98 of the HTSUS provides that countries qualifying for designation as a lesser developed beneficiary country shall be enumerated therein. The **Federal Register** notice reflecting the USTR's

determination in respect of Burkina Faso did not expressly modify that Note to include Burkina Faso. Accordingly, Note 2(d) to subchapter XIX of chapter 98 of the HTSUS is modified by inserting "Burkina Faso" in alphabetical sequence in the list of countries.

Peter F. Allgeier,

Acting United States Trade Representative.
