BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Office of International Regimes and Agreements; Proposed Subsequent Arrangement

AGENCY: Department of Energy.

ACTION: Notice of proposed subsequent arrangement.

SUMMARY: This notice has been issued under the authority of Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160). The Department is providing notice of a proposed "subsequent arrangement" under the Agreement for Cooperation Between the United States of America and the Government of the Argentine Republic Concerning Peaceful Uses of Nuclear Energy and the Agreement Between the United States of America and Australia Concerning Peaceful Uses of Nuclear Energy.

This subsequent arrangement concerns the retransfer of 1.84 grams of uranium, 1.64 grams of which is in the isotope U-235, from the Comision Nacional De Energia Atomica (CNEA), Ezeiza, Argentina, to the Australian Nuclear Science and Technology Organization (ANSTO) in Lucas Heights, Australia. The material, which is currently in the form uranium ore concentrates (U3O8) and is located at CNEA's Instrumentation and Control Department, will be transferred to ANSTO for use at the Australian Replacement Research Reactor as internal sensitive material of five fission counters. CNEA originally obtained the material from the United States under a general license.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, we have determined that this subsequent arrangement is not inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: March 12, 2009.

For the Department of Energy.

Richard Goorevich,

Director, Office of International Regimes and Agreements.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP09-68-000]

Texas Eastern Transmission, LP; Notice of Application

March 11, 2009.

Take notice that on February 27, 2009, Texas Eastern Transmission, LP (Texas Eastern) 5400 Westheimer Court, Houston, Texas 77056-5310, filed an application in Docket No. CP09-68-000, pursuant to section 7(c) and 7(b) of the Natural Gas Act (NGA) and part 157 of the Commission's regulations, requesting a certificate of public convenience and necessity to construct and operate facilities to expand the capacity of its system by 395,000 dekatherms per day (Dth) from a supply point in Clarington, Ohio and by 60,000 Dth per day from the Oakford storage facility in Westmoreland County, Pennsylvania (TEMAX and TIME III Projects, respectively) to a proposed interconnect with Transcontinental Gas Pipe Line Company, LLC in York County, Pennsylvania via a proposed lateral from Texas Eastern's system in Lancaster County, Pennsylvania (Marietta Extension).

Specifically, Texas Eastern proposes a net increase of 84,433 horsepower (hp) at its existing Holbrook, Uniontown, Chambersburg, and Heidlersburg Compressor Stations through the addition of new compressor units, and uprating of certain units at two of the stations and abandoning certain units at two of the stations. Texas Eastern also proposes to replace 25.9 miles of various diameter pipeline with 36-inch diameter pipeline, construct 9.6 miles of new 36-inch pipeline, and construct 26.5 miles of new 30-inch pipeline. Texas Eastern further proposes to uprate the maximum allowable operating pressure of its Lines 1 and 2 from 1,000 pounds per square inch gauge (psig) to 1,112 psig for 268 miles between its Uniontown and Marietta Compressor Stations (Capacity Restoration Project). The subject facilities will cost approximately \$646.6 million and are located in Greene, Bedford, Franklin, Adams, Lancaster and York Counties, Pennsylvania. Texas Eastern requests authorization to charge individual

initial incremental rates for TEMA, TIME III, and Marietta Extension services.

Any questions regarding this application should be directed to Garth Johnson, General Manager for Rates and Certificates, Texas Eastern Transmission, LP, P.O. Box 1642, Houston, Texas 77251-1642, telephone no. (713) 627-5415, and FAX (713) 627-5947.

On July 25, 2008, the Commission staff granted Texas Eastern's request to utilize the FERC Pre-Filing Process and assigned Docket No. PF08-27-000 to staff activities involved in the TEMA and TIME III Projects. Now as of the filing of Texas Eastern's application on February 27, 2009, the Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP09-68-000, as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and State agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit

14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call

(866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: April 1, 2009.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RM96-1-029]

Standards for Business Practices for Interstate Natural Gas Pipelines; Notice Clarifying Implementation Date and Compliance Date

March 11, 2009.

On February 24, 2009, the Commission issued a final rule in the above-captioned proceeding, Order No. 587-T, that incorporated by reference into the Commission's regulations, revisions adopted by the North American Energy Standards Board to the business practices standards for natural gas pipelines. *Standards of Business Practices for Interstate Natural Gas Pipelines*, 126 FERC ¶ 61,129 (2009). The final rule was published in the **Federal Register** on March 3, 2009, (74 FR 9162) and became effective April 2, 2009. Under the implementation schedule established in the rule, natural gas pipelines are required to implement the standards on August 1, 2009, and file tariff sheets to reflect the changed standards on June 1, 2009.

Kimberly D. Bose,

Secretary.

[Project No. 2582-027]

Rochester Gas and Electric Corp.; Notice of Availability of Final Environmental Assessment

March 11, 2009.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff has reviewed the application for amendment of license for the Station 2 Project (FERC No. 2582) and has prepared a final environmental assessment (final EA).

The project is located on the Genesee River in Monroe County, New York.

The final EA contains the Commission staff's analysis of the potential environmental effects of the proposed addition of new generating capacity and concludes that authorizing the amendment, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

Copies of the final EA are available for review in the Public Reference Room 2-A of the Commission's offices at 888 First Street, NE., Washington, DC 20426. The final EA may also be viewed on the Commission's Internet Web site (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. Additional information about the project is available from the Commission's Office of External Affairs, at (202) 502-6088, or on the Commission's Web site using the eLibrary link. For assistance with eLibrary, contact FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676; for TTY contact (202) 502-8659.

[Docket No. PR09-16-000]

Enogex, LLC; Notice of Filing

March 11, 2009.

Take notice that on February 27, 2009, Enogex, LLC (Enogex) filed pursuant to section 284.123(e) of the Commission's regulations, a revised Statement of Operating Conditions (SOC) proposing to implement a new firm transportation service on its East Zone effective April 1, 2009. Enogex states that it is making the revisions to its SOC in advance of a rate petition which will seek to establish new firm section 311 transportation rates on its East Zone and to revise its existing interruptible rates on its East and West Zones.

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in
