Needs and Uses: Commercial television broadcast stations and Class A television broadcast stations are both required to file FCC Form 398. FCC Form 398 is a standardized form that provides a consistent format for reporting by all licensees, and facilitates efforts by the public and the FCC to monitor compliance with the Children's Television Act.

These commercial television broadcast station licensees and the Class A television broadcast station licensees both use FCC Form 398 to identify the individual station, and to identify the children's educational and informational programs, which the station broadcasts on both the regularly scheduled and preempted core programming, to meet the station's obligation under the Children's Television Act of 1990 (CTA).

Each quarter, the licensee is required to place in its public inspection file a

"Children's Television Programming Report" and to file the FCC Form 398 each quarter with the Commission. The licensee must also complete a "Preemption Report" for each preempted core program during the quarter. This "Preemption Report" requests information on the date of each preemption, if the program was rescheduled, the date and time the program was aired, and the reason for the preemption.
