

approve the revisions pursuant to section 110 of the Clean Air Act. On March 12, 2008, EPA issued a revised ozone standard. This action, however, is being taken to address requirements under the 1997 ozone standard. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
