ICR Status: This ICR is scheduled to expire on April 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not

The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Agency contractors who have cost reimbursable, time and material, labor hour, or indefinite delivery/indefinite quantity fixed rate contracts will report the technical and financial progress of the contract on a monthly basis. EPA will use this information to monitor the contractors' progress under the contract. Responses to the information collection are mandatory for contractors, and are required for the contractors to receive monthly payments. Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 27 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: The majority of respondents fall into one of the following NAICS codes: 511210 for prepackaged computer software, 541511 for computer processing services, 54170 for computer-related services, and 541620 for environmental consulting services.
