

What approaches to expanding available resources are most promising? What objectives could be met and in what time frame if additional resources were available?

*B. Experiences of Persons Within the United States With Respect To Accessing Foreign Works or Sharing Accessible Copies of U.S. Works With Foreign Persons*

Please comment on the experiences of the blind or persons with other disabilities with respect to accessing foreign works within the United States, or sharing accessible copies of U.S. works with similarly-situated persons outside the United States. What kinds of specific policies, practices and projects exist or are emerging in the education, library and business sectors? How do existing laws create incentives or constrain efforts? Please describe the ways in which technology has influenced or could assist in providing access to foreign works or the sharing of accessible copies. What are the legal or practical impediments to transnational access and how are they interrelated?

*C. Other Comments on Facilitating and Enhancing Access to Copyrighted Works*

Please comment on the likely success of measures identified above under the subsection entitled "Possible Actions" under **SUPPLEMENTARY INFORMATION**. How might the measures best be leveraged, alone or in combination, to enhance access for the blind or other persons with disabilities? Are there additional governmental or private sector actions that might serve the objective of enhancing access to copyrighted works for the blind or persons with other disabilities?

**SUPPLEMENTARY INFORMATION:**

*Title of Collection:* DUE Project Data Form.

*OMB Control No.:* 3145-0201.

*Expiration Date of Approval:* August 31, 2009.

*Abstract:* The Division of Undergraduate Education (DUE) Project Data Form is a component of all grant proposals submitted to NSF's Division of Undergraduate Education. This form collects information needed to direct proposals to appropriate reviewers and to report the estimated collective impact of proposed projects on institutions, students, and faculty members. Requested information includes the discipline of the proposed project, collaborating organizations involved in the project, the academic level on which the project focuses (e.g., lower-level undergraduate courses, upper-level undergraduate courses), characteristics of the organization submitting the proposal, special audiences (if any) that the project would target (e.g., women, minorities, persons with disabilities), strategic foci (if any) of the project (e.g., research on teaching and learning, international activities, integration of research and education), and the number of students and faculty at different educational levels who would benefit from the project.

*Respondents:* Investigators who submit proposals to NSF's Division of Undergraduate Education.

*Estimated Number of Annual Respondents:* 2,500.

*Burden on the Public:* 20 minutes (per response) for an annual total of 833 hours.

Dated: March 23, 2009.
