The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

*Total Estimated Annual Costs Burden:* \$0.

*Description:* The American Recovery and Reinvestment Act of 2009 (ARRA) outlines the public workforce system's important role in helping workers prepare for and find employment, and providing work experience for youth. The Act contains many provisions for ensuring a successful implementation of effective workforce interventions. To ensure success, Federal, State and local workforce systems must be guided by four overriding principles: (1) Transparency and accountability in the use of funds; (2) timely spending of the funds and implementation of quality activities; (3) expanded workforce system capacity and service levels; and, (4) increased training leading to increased employment opportunities. The first step in the process is to accurately assess workforce system

readiness across key administrative and program areas and to identify Technical Assistance (TA) needs. To do this, ETA Regional Offices will conduct an assessment of states and many local areas, compile those assessment responses, and provide recommendations on technical assistance actions ETA should take to support state and local implementation of the ARRA.

#### Why Are We Requesting Emergency Processing?

If DOL were to comply with standard PRA clearance procedures, it would not be able to properly comply with the ARRA-mandated requirement to assess and mitigate risk associated with the allocation of ARRA funds. The Department will take all necessary steps in consulting with state workforce agencies to minimize the burden of collecting the readiness information.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Employment and Training Administration is soliciting comments regarding an extension of an approved Information Collection Request (ICR) for the Impact Evaluation of the Trade Adjustment Assistance (TAA) Program. The ICR was approved by the Office of Management and Budget (OMB) in a Notice of Action (NOA) (ICR Reference Number 200606-1205-009) on November 15, 2006. The NOA identified November 30, 2009 as the expiration date for the ICR. An extension of the ICR is now needed in order to complete data collection activities for the impact analysis and process study of the TAA evaluation.

The TAA program provides training, income support, and other reemployment and supportive services to workers who lose their jobs or have their work hours or salary reduced because of increased imports or shifts in production to foreign countries. The evaluation is intended to generate information that will be useful in developing administrative guidance, technical assistance, and legislative or budgetary proposals.

The evaluation will estimate impacts of the TAA program on the employment and earnings of participants by comparing the outcomes of TAA participants to statistically matched comparison groups of Unemployment Insurance (UI) recipients. This quasi-experimental approach requires extensive information on demographic and personal characteristics as well as on programmatic experiences of both TAA participants and comparison group members. Such information will be gleaned from state TAA and UI administrative records and from baseline and follow-up surveys of individuals in the treatment and comparison groups.

The process study undertaken as part of the evaluation is designed to
