Notice Pursuant to the National Cooperative Research and Production Act of 1993—Cooperative Research Group on High-Efficiency Dilute Gasoline Engine II

Notice is hereby given that, on February 19, 2009, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), Southwest Research Institute—Cooperative Research Group on High-Efficiency Dilute Gasoline Engine II

(“HEDGE II”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the identities of the parties to the venture are: Borg Warner, Auburn Hills, MI; Corning, Inc., Corning, NY; Cummins Inc., Columbus, IN; Deutz AG, Cologne, Germany; Dytech Ensa S.L., Vigo, Spain; Eaton Corporation, Southfield, MI; ExxonMobil Research and Engineering Co., Paulsboro, NJ; Guangxi Yuchai Machinery Co., Ltd., Guangxi, People’s Republic Of China; Honda R&D, Tochigi, Japan; Honeywell, Torrance, CA; Lubrizol Corporation, Wickliffe, OH; NGK Insulators, Ltd., Nagoya, Japan; Peugeot Citroen Automobiles, Velizy-Villacoublay, France; and Renault s.a.s, Billancourt, France. The general area of HEDGE II’s planned activity is to develop and demonstrate the technologies required to run gasoline engines at efficiencies that are competitive with modern diesel engines in terms of performance but significantly lower emissions levels. The focus of the program will be on efficiency at high specific power levels using elevated levels of exhaust gas recirculation or other forms of charge dilution. Technologies that will be investigated include high-energy ignition systems, high efficiency boosting, fuels and lubricants technology, high EGR operation, and high BMEP operation. Design aspects of the program will be investigated using simulation and hardware testing to examine the effects of engine architecture, EGR loop configuration, pressure charging equipment and design for high cylinder pressures.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Petroleum Environmental and Research Forum

Notice is hereby given that, on February 27, 2009, pursuant to Section

6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”) Petroleum Environmental and Research Forum (“PERF”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership. The notifications were filed for the purpose of extending the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, Pall Corporation, East Hills, NY has withdrawn as a party to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and PERF intends to file additional written notifications disclosing all changes in membership.

On February 10, 1986, PERF filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on March 14, 1986 (51 FR 8903).

The last notification was filed with the Department on November 26, 2008. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on December 31, 2008 (73 FR 80431).
