Notice Pursuant to the National Cooperative Research and Production Act of 1993—Cooperative Research Group on High-Efficiency Dilute Gasoline Engine II

Notice is hereby given that, on February 19, 2009, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), Southwest Research Institute—Cooperative Research Group on High-Efficiency Dilute Gasoline Engine II

(“HEDGE II”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the identities of the parties to the venture are: Borg Warner, Auburn Hills, MI; Corning, Inc., Corning, NY; Cummins Inc., Columbus, IN; Deutz AG, Cologne, Germany; Dytech Ensa S.L., Vigo, Spain; Eaton Corporation, Southfield, MI; ExxonMobil Research and Engineering Co., Paulsboro, NJ; Guangxi Yuchai Machinery Co., Ltd., Guangxi, People’s Republic Of China; Honda R&D, Tochigi, Japan; Honeywell, Torrance, CA; Lubrizol Corporation, Wickliffe, OH; NGK Insulators, Ltd., Nagoya, Japan; Peugeot Citroen Automobiles, Velizy-Villacoublay, France; and Renault s.a.s, Billancourt, France. The general area of HEDGE II’s planned activity is to develop and demonstrate the technologies required to run gasoline engines at efficiencies that are competitive with modern diesel engines in terms of performance but significantly lower emissions levels. The focus of the program will be on efficiency at high specific power levels using elevated levels of exhaust gas recirculation or other forms of charge dilution. Technologies that will be investigated include high-energy ignition systems, high efficiency boosting, fuels and lubricants technology, high EGR operation, and high BMEP operation. Design aspects of the program will be investigated using simulation and hardware testing to examine the effects of engine architecture, EGR loop configuration, pressure charging equipment and design for high cylinder pressures.

DEPARTMENT OF LABOR

Employment Standards Administration

Proposed Extension of the Approval of Information Collection Requirements

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation

program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning its proposal to extend the Office of Management and Budget (OMB) approval of the Information Collection: Overpayment Recovery Questionnaire (OWCP-20). A copy of the proposed information collection request can be obtained by contacting the office listed below in the **ADDRESSES** section of this Notice.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before June 1, 2009.

ADDRESSES: Mr. Steven D. Lawrence, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0292, fax (202) 693-1451, e-mail Lawrence.Steven@dol.gov. Please use only one method of transmission for comments (mail, fax, or e-mail).

SUPPLEMENTARY INFORMATION:

I. Background

This information collection is necessary to determine whether the recovery of any Black Lung, Energy Employees Occupational Illness Compensation Program Act (EEOICPA) or Federal Employees' Compensation Act (FECA) overpayment, may be waived, compromised, terminated, or collected in full. Standards for Federal agency collection of government debts are regulated under the Federal Claims Collection Acts of 1966 and 1982 and the Debt Collection Improvement Act of 1996. In the Office of Workers' Compensation Programs, collection information pertaining to the collection of accounts receivable is authorized under the Federal Coal Mine Health and Safety Act of 1969, as amended, 30 U.S.C. 923(b) and 20 CFR 725.544(c), the EEOICPA, 42 U.S.C. 7385j-2 and 20 CFR 30.510-30.520, and the Federal Employees' Compensation Act, 5 U.S.C. 8129(b) and 20 CFR 10.430-10.441. The information will be used by OWCP examiners to ascertain the financial condition of the beneficiary to see if the

overpayment or any part can be recovered; to identify the possible concealment or improper transfer of assets; and to identify and consider present and potential income and current assets for enforced collection proceedings. The questionnaire provides a means for the beneficiary to explain why he/she is without fault in an overpayment matter. If this information were not collected Black Lung, EEOICPA and FECA would have little basis to decide on collection proceedings. This information collection is currently approved for use through October 31, 2009.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * Enhance the quality, utility and clarity of the information to be collected; and

- * Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks the approval of the extension of this information collection in order to carry out its responsibility to assure payment of compensation benefits to injured workers at the proper rate.
