

Pursuant to Court Remand to interested parties on January 16, 2009. Corus and ArcelorMittal USA, Inc. (ArcelorMittal), domestic interested party, submitted comments on January 23, 2009. Corus and domestic producer U.S. Steel Corporation (U.S. Steel) submitted rebuttal comments on January 28, 2009.

On February 20, 2009, the Department filed its final results of redetermination pursuant to *Corus Staal* with the CIT. See Final Results of Redetermination Pursuant to Court Remand, *Corus Staal BV v. United States Court No. 07-00221*, Slip Op. 08-144 (CIT December 29, 2008) (Final Redetermination). In the Final Redetermination, the Department amended the final results of the 2004-2005 administrative review to rescind our duty absorption finding with respect to *Corus Staal BV* (Corus), "consistent with the Federal Circuit's interpretation of 19 U.S.C. 1675(a)(4) in *Agro Dutch Indus. Ltd. v. United States*, 508 F.3d 1024, 1028 (Fed. Cir. 2007) (*Agro Dutch*)." See *Corus Staal* at 26. Specifically, we no longer found that Corus absorbed antidumping duties during the period of review since Corus was, itself, the importer of record. This redetermination did not affect either the weighted-average margin or assessment rate calculated for Corus for the relevant period of review.

On March 24, 2009, the Court sustained all aspects of the remand redetermination. The Court reaffirmed the Department's calculation of Corus Staal's dumping margin during the administrative review and affirmed the Department's reversal of its duty absorption finding. Further, the Court also affirmed the Department's authority to issue instructions to U.S. Customs and Border Protection (CBP) to levy antidumping duties on entries.

In *Timken*, 893 F.2d at 341, the Federal Circuit held that, pursuant to section 516A(e) of the Tariff Act of 1930, as amended (the Act), the Department must publish a notice of a court decision that is "not in harmony" with a Department determination, and must suspend liquidation of entries pending a "conclusive" court decision. The Court's decision in *Corus Staal Judgment* on March 24, 2009, constitutes a final decision of the court that is not in harmony with the Department's *Final Results* and *Amended Final Results*. This notice is published in fulfillment of the publication requirements of *Timken*. Accordingly, the Department will continue the suspension of liquidation of the subject merchandise pending the expiration of the period of appeal or, if appealed, pending a final and conclusive court decision. In the event

the Court's ruling is not appealed or, if appealed, upheld by the Federal Circuit the Department will instruct CBP to assess antidumping duties on entries of the subject merchandise during the POR based on the *Amended Final Results*.

This notice is issued and published in accordance with section 516A(c)(1) of the Act.

Dated: March 27, 2009.

Ronald K. Lorentzen,

Acting Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

I. Abstract

Section 4(d) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*) requires the National Marine Fisheries Service (NMFS) to adopt such regulations as it "deems necessary and advisable to provide for the conservation of" threatened species. Those regulations may include any or all of the prohibitions provided in section 9(a)(1) of the ESA, which specifically prohibits "take" of any

endangered species ("take" includes actions that harass, harm, pursue, kill, or capture). The first salmonid species listed by NMFS as threatened were protected by virtually blanket application of the section 9 take prohibitions. There are now 22 separate Distinct Population Segments (DPS) of west coast salmonids listed as threatened, covering a large percentage of the land base in California, Oregon, Washington and Idaho. NMFS is obligated to enact necessary and advisable protective regulations. NMFS makes section 9 prohibitions generally applicable to many of those threatened DPS, but also seeks to respond to requests from States and others to both provide more guidance on how to protect threatened salmonids and avoid take, and to limit the application of take prohibitions wherever warranted (See 70 FR 37160, June 28, 2005; 71 FR 834, January 5, 2006; and 73 FR 55451, September 25, 2008). The regulations describe programs or circumstances that contribute to the conservation of, or are being conducted in a way that limits impacts on, listed salmonids. Because we have determined that such programs/circumstances adequately protect listed salmonids, the regulations do not apply the "take" prohibitions to them. Some of these limits on the take prohibitions entail voluntary submission of a plan to NMFS and/or annual or occasional reports by entities wishing to take advantage of these limits, or continue within them.
