

specified in the FEMA–State Agreement for the disaster.

(iv) Expenses incurred by the local government which are reimbursed on the applicant’s project application.

(c) *Cancellation application.* A local government which has drawn loan funds from the U.S. Treasury may request cancellation of the principal and related interest by submitting an Application for Loan Cancellation through the Governor’s Authorized Representative to the Regional Administrator prior to the expiration date of the loan.

(1) Financial information submitted with the application shall include the following:

(i) Annual Operating Budgets for the fiscal year of the disaster and the 3 subsequent fiscal years;

(ii) Annual Financial Reports (Revenue and Expense and Balance Sheet) for each of the above fiscal years. Such financial records must include copies of the local government’s annual financial reports, including operating statements balance sheets and related consolidated and individual presentations for each fund account. In addition, the local government must include an explanatory statement when figures in the Application for Loan Cancellation form differ from those in the supporting financial reports.

(iii) The following additional information concerning annual real estate property taxes pertaining to the community for each of the above fiscal years:

- (A) The market value of the tax base (dollars);
- (B) The assessment ratio (percent);
- (C) The assessed valuation (dollars);
- (D) The tax levy rate (mils);
- (E) Taxes levied and collected (dollars).

(iv) Audit reports for each of the above fiscal years certifying to the validity of the Operating Statements. The financial statements of the local government shall be examined in accordance with generally accepted auditing standards by independent certified public accountants. The report should not include recommendations concerning loan cancellation or repayment.

(v) Other financial information specified in the Application for Loan Cancellation.

(2) *Narrative justification.* The application may include a narrative presentation to supplement the financial material accompanying the application and to present any extenuating circumstances which the local government wants the Assistant Administrator for the Disaster

Assistance Directorate to consider in rendering a decision on the cancellation request.

(d) *Determination.* (1) If, based on a review of the Application for Loan Cancellation and FEMA audit, the Assistant Administrator for the Disaster Assistance Directorate or a designee determines that all or part of the Special Community Disaster Loan funds should be canceled, the amount of principal canceled and the related interest will be forgiven. The Assistant Administrator for the Disaster Assistance Directorate, or a designee’s determination concerning loan cancellation will specify that any uncanceled principal and related interest must be repaid in accordance with the terms and conditions of the Promissory Note, and that, if repayment will constitute a financial hardship, the local government must submit for FEMA review and approval, a repayment schedule for settling the indebtedness on timely basis. Such repayments must be made to the Treasurer of the United States and be sent to FEMA, Attention: Office of the Chief Financial Officer.

(2) A loan or cancellation of a loan does not reduce or affect other disaster-related grants or other disaster assistance. However, no cancellation may be made that would result in a duplication of benefits to the applicant.

(3) The uncanceled portion of the loan must be repaid in accordance with § 206.377.

(4) *Appeals.* If an Application for Loan Cancellation is disapproved, in whole or in part, by the Assistant Administrator for the Disaster Assistance Directorate or designee, the local government may submit any additional information in support of the application within 60 days of the date of disapproval. The decision by the Assistant Administrator for the Disaster Assistance Directorate or designee on the additional information is final.

7. Amend § 206.377 by revising the first sentence of paragraph (b) introductory text, the last sentence of paragraph (b)(2), paragraph (b)(4) and (c)(2) to read as follows:

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 36

[CC Docket No. 80–286; FCC 09–24]

Jurisdictional Separations and Referral to the Federal-State Joint Board

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Jurisdictional separations is the process by which incumbent local exchange carriers (incumbent LECs) apportion regulated costs between the intrastate and interstate jurisdictions. In this document, the Commission seeks comment on extending until June 30, 2010 the current freeze of part 36 category relationships and jurisdictional cost allocation factors used in jurisdictional separations, which freeze would otherwise expire on June 30, 2009. Extending the freeze would allow the Commission to provide stability for, and avoid imposing undue burdens on, carriers that must comply with the Commission’s separations rules while the Commission considers issues relating to comprehensive reform of the jurisdictional separations process.

DATES: Comments are due on or before April 17, 2009. Reply comments are due on or before April 24, 2009.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rulemaking (NPRM) in CC Docket No. 80-286, FCC 09-24, released on March 27, 2009. The full text of this document is available for public inspection during regular business hours in the FCC Reference Center, Room CY-A257, 445 12th Street, SW., Washington, DC 20554.

Background

1. Jurisdictional separations is the process by which incumbent LECs apportion regulated costs between the intrastate and interstate jurisdictions. The NPRM proposes extending the current freeze of part 36 category relationships and jurisdictional cost allocation factors used in jurisdictional separations, which freeze would otherwise expire on June 30, 2009, until June 30, 2010. Extending the freeze will allow the Commission to provide stability for, and avoid imposing undue burdens on, carriers that must comply with the Commission's separations rules while the Commission considers issues relating to comprehensive separations reform.

2. The 2001 Separations Freeze Order, 66 FR 33202, June 21, 2001, froze all part 36 category relationships and allocation factors for price cap carriers and all allocation factors for rate-of-return carriers. Rate-of-return carriers had the option to freeze their category relationships at the outset of the freeze. The freeze was originally established July 1, 2001 for a period of five years, or until the Commission completed separations reform, whichever occurred first. The 2006 Separations Freeze

Extension Order, 71 FR 29843, May 24, 2006, extended the freeze for three years or until the Commission completed separations reform, whichever occurred first.

3. In this NPRM the Commission seeks comment on extending the freeze for one year, until June 30, 2010. The proposed extension would allow the Commission to work with the Federal-State Joint Board on Separations to achieve comprehensive separations reform. Pending comprehensive reform, the Commission tentatively concludes that the existing freeze should be extended on an interim basis to avoid the imposition of undue administrative burdens on incumbent LECs. The Commission asks commenters to consider how costly and burdensome an extension of the freeze, or a reversion to the pre-freeze part 36 rules, would be for small incumbent LECs, and whether an extension would disproportionately affect specific types of carriers or ratepayers. Incumbent LECs have not been required to utilize the programs and expertise necessary to prepare separations information since the inception of the freeze almost eight years ago. If the Commission does not extend the separations freeze, and instead allows the earlier separations rules to return to force, incumbent LECs would be required to reinstitute their separations processes, and they may no longer have the necessary employees and systems in place to do so. Given the imminent expiration of the current separations freeze, it is unlikely that incumbent LECs would have sufficient time to reinstitute the separations processes necessary to comply with the earlier separations rules.

4. The extended freeze would be implemented as described in the 2001 Separations Freeze Order. Specifically, price-cap carriers would use the same relationships between categories of investment and expenses within part 32 accounts and the same jurisdictional allocation factors that have been in place since the inception of the current freeze on July 1, 2001. Rate-of-return carriers would use the same frozen jurisdictional allocation factors, and would use the same frozen category relationships if they had opted previously to freeze those as well.

Ex Parte Requirements

This matter shall be treated as a “permit-but-disclose” proceeding in accordance with the Commission’s ex parte rules. See 47 CFR 1.1200, 1.1206. Persons making oral ex parte presentations are reminded that memoranda summarizing the presentations must contain summaries of the substance of the presentations and not merely a listing of the subjects discussed. More than a one or two sentence description of the views and arguments presented generally is required. See 47 CFR 1.1206(b). Other rules pertaining to oral and written ex parte presentations in permit-but-disclose proceedings are set forth in section 1.1206(b) of the Commission’s rules. 47 CFR 1.1206(b).

Initial Regulatory Flexibility Analysis

As required by the Regulatory Flexibility Act of 1980, as amended (RFA), the Commission has prepared this Initial Regulatory Flexibility Analysis (IRFA) of the possible significant economic impact on a substantial number of small entities by the policies and rules proposed in this NPRM. Written public comments are requested on this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments on the NPRM. The Commission will send a copy of the NPRM, including this IRFA, to the Chief Counsel for Advocacy of the Small Business Administration (SBA). See 5 U.S.C. 603(a).

Need for, and Objectives of, the Proposed Rules

In the 1997 *Separations NPRM*, the Commission noted that the network infrastructure by that time had become vastly different from the network and services used to define the cost categories appearing in the Commission’s part 36 jurisdictional separations rules, and that the separations process codified in part 36 was developed during a time when common carrier regulation presumed that interstate and intrastate telecommunications service must be provided through a regulated monopoly. Thus, the Commission initiated a proceeding with the goal of reviewing comprehensively the Commission’s part

36 procedures to ensure that they meet the objectives of the 1996 Act. The Commission sought comment on the extent to which legislative changes, technological changes, and market changes might warrant comprehensive reform of the separations process. Because over eleven years have elapsed since the closing of the comment cycle on the 1997 *Separations NPRM*, and over seven years have elapsed since the imposition of the freeze, and because the industry has experienced myriad changes during that time, we ask that commenters, in their comments on the present NPRM, comment on the impact of a further extension of the freeze.

The purpose of proposed extension of the freeze is to ensure that the Commission’s separations rules meet the objectives of the 1996 Act, and to allow the Commission additional time to consider changes that may need to be made to the separations process in light of changes in the law, technology, and market structure of the telecommunications industry.

Legal Basis

The legal basis for the NPRM is contained in sections 1, 2, 4, 201–205, 215, 218, 220, 229, 254, and 410 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154, 201–205, 215, 218, 220, 229, 254 and 410, and 1.1200–1.1216 of the Commission’s rules, 47 CFR 1.1, 1.411–1.429, 1.1200–1.1216.

Description and Estimate of the Number of Small Entities to Which Rules May Apply

The RFA directs agencies to provide a description of, and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted. The RFA generally defines the term “small entity” as having the same meaning as the terms “small business,” “small organization,” and “small governmental jurisdiction.” In addition, the term “small business” has the same meaning as the term “small business concern” under section 3 of the Small Business Act. Under the Small Business Act, a “small business concern” is one that: (1) Is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).

We have included small incumbent LECs in this RFA analysis. As noted above, a “small business” under the RFA is one that, inter alia, meets the pertinent small business size standard established by the SBA, and is not dominant in its field of operation.

Section 121.201 of the SBA regulations defines a small wireline telecommunications business as one with 1,500 or fewer employees. In addition, the SBA’s Office of Advocacy contends that, for RFA purposes, small incumbent LECs are not dominant in their field of operation because any such dominance is not “national” in scope. Because our proposals concerning the part 36 separations process will affect all incumbent LECs providing interstate services, some entities employing 1,500 or fewer employees may be affected by the proposals made in this NPRM. We therefore have included small incumbent LECs in this RFA analysis, although we emphasize that this RFA action has no effect on the Commission’s analyses and determinations in other, non-RFA contexts. Neither the Commission nor the SBA has developed a small business size standard specifically for providers of incumbent local exchange services. The closest applicable size standard under the SBA rules is for Wired Telecommunications Carriers. Under the SBA definition, a carrier is small if it has 1,500 or fewer employees. According to the FCC’s Telephone Trends Report data, 1,311 incumbent LECs reported that they were engaged in the provision of local exchange services. Of these 1,311 carriers, an estimated 1,024 have 1,500 or fewer employees and 287 have more than 1,500 employees. Consequently, the Commission estimates that most incumbent LECs are small entities that may be affected by the rules and policies adopted herein.

Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements

None.

Steps Taken To Minimize Significant Economic Impact on Small Entities, and Significant Alternatives Considered

The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): (1) The establishment of differing compliance and reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for small entities; (3) the use of performance, rather than design, standards; and (4) an exemption from coverage of the rule, or part thereof, for small entities.

As described above, seven years have elapsed since the imposition of the freeze, thus, we ask commenters, in their comments on the present NPRM, to address the impact of a further extension of the freeze. We seek comment on the effects our proposals would have on small entities, and whether any rules that we adopt should apply differently to small entities. We direct commenters to consider the costs and burdens of an extension on small incumbent LECs and whether the extension would disproportionately affect specific types of carriers or ratepayers.

Implementation of the proposed freeze extension would ease the administrative burden of regulatory compliance for LECs, including small incumbent LECs. The freeze has eliminated the need for all incumbent LECs, including incumbent LECs with 1500 employees or fewer, to complete certain annual studies formerly required by the Commission's rules. If an extension of the freeze can be said to have any effect under the RFA, it is to reduce a regulatory compliance burden for small incumbent LECs, by abating the aforementioned separations studies and providing these carriers with greater regulatory certainty.

Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

None.

Paperwork Reduction Act

The NPRM does not propose any new or modified information collections subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. In addition, therefore, it does not contain any new, modified, or proposed "information collection burden for small business concerns with fewer than 25 employees," pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, 44 U.S.C. 3506(c)(4).
