information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology; and (e) whether small businesses are affected by this collection. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Önline Reproduction Orders for National Archives Records.

OMB Number: 3095–0064.
Agency Form Number: N/A.
Type of Review: Regular.
Affected Public: Individuals or
households.

Estimated Number of Respondents: 45,524.

Estimated Time per Response: 10 minutes.

Frequency of Response: On occasion. Estimated Total Annual Burden Hours: 7,587 hours.

Abstract: NARA's Internet-based ordering system (Order Online!), has made accessible Online certain reproduction order forms (replicas of the NATF Series 80 Forms and the NATF 36). Also available are custom orders for the remaining types of reproduction services, to allow researchers to submit reproduction orders and remit payment electronically.

The information that NARA collects for quoted reproduction orders includes the descriptive information (information necessary to search for the records), payment information (e.g., credit card type, credit card number, and expiration date), customer name, shipping and billing address, and phone number. NARA offers customers the option of submitting their e-mail address as a means of facilitating communication such as order confirmation, status updates, and issue handling.

Dated: March 30, 2009.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Advisory Committee on the Electronic Records Archives

AGENCY: National Archives and Records Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), the National Archives and Records Administration (NARA) announces a

meeting of the Advisory Committee on the Electronic Records Archives (ACERA). The committee serves as a deliberative body to advise the Archivist of the United States, on technical, mission, and service issues related to the Electronic Records Archives (ERA). This includes, but is not limited to, advising and making recommendations to the Archivist on issues related to the development, implementation and use of the ERA system.

Date of Meeting: April 29–30, 2009. Time of Meeting: 9 a.m.–4 p.m. Place of Meeting: 700 Pennsylvania Avenue, NW., Washington, DC 20408– 0001.

This meeting will be open to the public. However, due to space limitations and access procedures, the name and telephone number of individuals planning to attend must be submitted to the Electronic Records Archives Program at era.program@nara.gov.

SUPPLEMENTARY INFORMATION:

Agenda

- Opening Remarks.
- Approval of Minutes.
- Committee Updates.
- Activities Reports.
- Adjournment.

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-29462; NRC-2009-0024]

Notice of Consideration of Amendment Request for Decommissioning of The Department of the Navy, Hypervelocity Gun Facility, Naval Research Laboratory, Chesapeake Beach, MD and Opportunity To Request a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of amendment request and opportunity to request a hearing.

DATES: A request for a hearing must be filed by June 2, 2009.

FOR FURTHER INFORMATION CONTACT:

Orysia Masnyk Bailey, Health Physicist, Decommissioning Branch, Division of Nuclear Materials Safety, Region I, U.S. Nuclear Regulatory Commission, King of Prussia, PA 19406. Telephone: (864) 427–1032; fax number: (610) 680–3497; or e-mail:

Orysia.MasnykBailey@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering issuance of a license amendment to Materials License No. 45–23645–01NA. This license is held by the Department of the Navy (Navy or Licensee). This is a Master Materials License and covers many sites around the country. The proposed action pertains to The Hypervelocity Gun Facility at the Naval Research Laboratory in Chesapeake Beach, Maryland (the Facility). The amendment would authorize the decommissioning of the Facility under the Licensee's Decommissioning Plan.

An NRC administrative review found the Decommissioning Plan acceptable to begin a technical review. If the NRC approves the Decommissioning Plan, the approval will be documented in an amendment to NRC License No. 45-23645-01NA. However, before approving the proposed amendment, the NRC will need to make the safety findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report. The NRC's evaluation of environmental issues will be documented in a separate report. Following completion of decommissioning activities and verification by the NRC that the radiological criteria for license termination have been met, the NRC will amend the license to authorize release of the Facility for unrestricted

II. Opportunity To Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application for a license amendment regarding the decommissioning of the Facility. Any person whose interest may be affected by this proceeding and who desires to participate as a party must file a request for a hearing and a specification of the contentions, which the person seeks to have litigated in the hearing, in accordance with the NRC E-Filing rule (promulgated in August 28, 2007; 72 FR 49139). The E-Filing rule requires participants to submit and serve documents over the Internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek a waiver in accordance with the procedures described below.

In order to comply with the procedural requirements of E-Filing, at

least ten days prior to the filing deadline, the petitioner/requester must contact the Office of the Secretary by email at HEARINGDOCKET@NRC.GOV, or by calling (301) 415–1677, to request (1) a digital ID certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and/or (2) creation of an electronic docket for the proceeding (even in instances in which the petitioner/requester (or its counsel or representative) already holds an NRCissued digital ID certificate). Each petitioner/requester will need to download the Workplace Forms ViewerTM to access the Electronic Information Exchange, a component of the E-Filing system. The Workplace Forms ViewerTM is free and is available at http://www.nrc.gov/site-help/esubmittals/install-viewer.html. Information about applying for a digital ID certificate is available on NRC's public Web site at http://www.nrc.gov/ site-help/e-submittals/applycertificates.html.

Once a petitioner/requester has obtained a digital ID certificate, had an electronic docket created, and downloaded the Electronic Information Exchange viewer, the individual can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format in accordance with NRC guidance available on the NRC public Web site at http://www.nrc.gov/ *site-help/e-submittals.html.* A filing is considered complete at the time the filer submits its documents through the Electronic Information Exchange. To be timely, an electronic filing must be submitted to the Electronic Information Exchange system no later than 11:59 p.m. Eastern Standard Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The Electronic Information Exchange system also distributes an email notice that provides access to the document to the NRC Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer does not need to serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/ petition to intervene is filed so that they

can obtain access to the document via the E-Filing system.

A person filing electronically may seek assistance through the "Contact Us" link located on the NRC Web site at http://www.nrc.gov/site-help/e-submittals.html or by calling the NRC electronic filing Help Desk, which is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays. The help electronic filing Help Desk can be contacted by telephone at 1–866–672–7640 or by e-mail at

MSHD.Resource@nrc.gov.

Participants who believe that they have a good cause for not submitting documents electronically must file a motion, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by firstclass mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service.

Non-timely requests and/or petitions and contentions will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition and/or request should be granted and/or the contentions should be admitted based on a balancing of the factors specified in 10 CFR 2.309(c)(1)(i)–(viii). In order to be considered timely, filings must be submitted no later than 11:59 p.m. Eastern Standard Time on the due date.

Documents submitted in adjudicatory proceedings will appear in NRC's electronic hearing docket, which is available to the public at http://ehd.nrc.gov/ehd_proceeding/home.asp unless excluded pursuant to an Order of the Commission, an Atomic Safety and Licensing Board, or a Presiding Officer. Participants are requested not to include Social Security numbers in their filings. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings

and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

The formal requirements for documents contained in 10 CFR 2.304(c)–(e) must be met. If the NRC grants an electronic document exemption in accordance with 10 CFR 2.302(g)(3), then the requirements for paper documents, set forth in 10 CFR 2.304(b) must be met.

In accordance with 10 CFR 2.309(b), a request for a hearing must be filed by June 2, 2009.

In addition to meeting other applicable requirements of 10 CFR 2.309, the general requirements involving a request for a hearing filed by a person other than an applicant must state:

- 1. The name, address, and telephone number of the requester;
- 2. The nature of the requester's right under the Act to be made a party to the proceeding;
- 3. The nature and extent of the requester's property, financial, or other interest in the proceeding;
- 4. The possible effect of any decision or order that may be issued in the proceeding on the requester's interest; and
- 5. The circumstances establishing that the request for a hearing is timely in accordance with 10 CFR 2.309(b).

In accordance with 10 CFR 2.309(f)(1), a request for hearing or petitions for leave to intervene must set forth with particularity the contentions sought to be raised. For each contention, the request or petition must:

- 1. Provide a specific statement of the issue of law or fact to be raised or controverted:
- 2. Provide a brief explanation of the basis for the contention;
- 3. Demonstrate that the issue raised in the contention is within the scope of the proceeding;
- 4. Demonstrate that the issue raised in the contention is material to the findings that the NRC must make to support the action that is involved in the proceeding;
- 5. Provide a concise statement of the alleged facts or expert opinions that support the requester's/petitioner's position on the issue and on which the requester/petitioner intends to rely to support its position on the issue; and
- 6. Provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact.

Requesters/petitioners should, when possible, consult with each other in preparing contentions and combine similar subject matter concerns into a joint contention, for which one of the co-sponsoring requesters/petitioners is designated the lead representative. Further, in accordance with 10 CFR 2.309(f)(3), any requester/petitioner that wishes to adopt a contention proposed by another requester/petitioner must do so, in accordance with the E-Filing rule, within ten days of the date that the contention is filed, and designate a representative who shall have the authority to act for the requester/petitioner.

In accordance with 10 CFR 2.309(g), a request for hearing and/or petition for leave to intervene may also address the selection of the hearing procedures, taking into account the provisions of 10 CFR 2.310.

III. Further Information

Documents related to this action, including the application for amendment and supporting documentation, are available electronically at the NRC's Electronic Reading Room at http://www.nrc.gov/reading-rm/adams.html. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The documents related to this action are listed below, along with their ADAMS accession numbers:

- 1. Hypervelocity Gun Facility Decommissioning Assessment, ADAMS Accession No. ML070330468 and
- 2. Hypervelocity Gun Facility Decommissioning Plan, ADAMS Accession No. ML081640631.

If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1–800–397–4209, 301–415–4737, or by e-mail to pdr.resource@nrc.gov. These documents may also be viewed electronically on the public computers located at the NRC's PDR, O 1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The Public Document Room reproduction contractor will copy documents for a fee.

Dated at Region I, 475 Allendale Road, King of Prussia, PA, this 27th day of March, 2009.

For the Nuclear Regulatory Commission. Randolph H. Ragland, Jr.,

Chief, Decommissioning Branch, Division of Nuclear Materials Safety, Region I. [FR Doc. E9–7491 Filed 4–2–09; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-1257; NRC-2009-0147]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for AREVA NP, Inc., Richland, WA

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

Gloria Kulesa, Senior Environmental Project Manager, Environmental Review Branch, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Rockville, Maryland 20852. Telephone: (301) 415–5308; fax number: (301) 415– 5369; e-mail: Gloria.Kulesa@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering the renewal of Special Nuclear Material License SNM-1227 for the continued operation of the AREVA NP, Inc. Fuel Fabrication Facility located in Richland, Washington. This renewal authorizes the licensee to receive and possess nuclear materials at the Richland facility to fabricate and assemble nuclear fuel components under the provisions of 10 CFR part 70, Domestic Licensing of Special Nuclear Material. If NRC approves the renewal of the license, the term would cover 40 years. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. If approved, NRC will issue the renewed license following the publication of this notice.

II. EA Summary

The licensee requests approval to renew SNM–1227 for an additional 40 years at the Richland, Washington facility. Specifically, this would allow AREVA NP to continue manufacturing and assembling nuclear fuel components for use in commercial lightwater-cooled nuclear reactors. On October 24, 2006, AREVA NP requested that NRC approve the proposed amendment. AREVA NP's request for the proposed change was previously noticed in the **Federal Register** on March 15, 2007 (72 FR 12202), with a

Notice of an Opportunity to Request a Hearing.

The staff has prepared the EA in support of the proposed license renewal. Staff considered 12 environmental impacts in their evaluation, including: Land use; transportation; socioeconomics; air quality; water quality; geology and soils; ecology; noise; historic and cultural; scenic and visual; public and occupational health; and waste management. All of the environmental impacts were small, with the exception of transportation. NRC staff considered the transportation long-term and cumulative impacts as small-tomoderate based on projected population growth estimates and anticipated development of residential communities and commercial lands. The regional government and industry collaboratively plan the area's future transportation system to minimize traffic impacts. NRC considers that the proactive planning efforts will keep the impact small. A brief summary of the other environmental resources follows. The license renewal request does not require altering the site footprint nor does it change the operating processes of the existing facility, therefore there are no anticipated impacts in land use, noise, historic and cultural, scenic and visual, and site ecology resources. The proposed action will not adversely affect federal or state-listed threatened or endangered species nor flora and fauna in the site vicinity. AREVA NP is a major business that contributes a positive benefit towards the region's socioeconomics. Airborne and liquid effluent monitoring indicates readings below regulatory 10 CFR part 20 limits for non-radiological and radiological contaminants. Public and occupational exposures are below the limit established in 10 CFR part 20. AREVA NP maintains acceptable waste management practices and procedures. The staff concluded that the proposed 40 year renewal of license SNM-1227 will not result in a significant impact to the environment.

NRC staff consulted with other agencies regarding the proposed action, including the U.S. Fish and Wildlife Service (USFWS), the Washington Department of Ecology, Washington Department of Archaeology and Historic Preservation [i.e. the State Historic Preservation Office], the Confederated Tribes and Bands of the Yakama Nation [i.e., one of the two local Tribal Historic Preservation Offices], and the Confederated Tribes of the Umatilla Indian Reservation. The consultations ensured that the requirements of Section 7 of the Endangered Species Act and
