[Docket No. 070720390-9588-04]

RIN 0648-AV28

Fisheries in the Western Pacific; Bottomfish and Seamount Groundfish; Management Measures for the Northern Mariana Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; effectiveness of collection-of-information requirements.

SUMMARY: NMFS announces approval by the Office of Management and Budget (OMB) of collection-of-information requirements contained in regulations implementing Amendment 10 to the Fishery Management Plan for Bottomfish and Seamount Groundfish Fisheries of the Western Pacific Region. The intent of this final rule is to inform the public that the associated permitting, reporting, and vessel monitoring system (VMS) requirements for vessels in the Commonwealth of the Northern Mariana Islands (CNMI) have been approved by OMB.

DATES: The amendments to §§ 665.14, 665.16, 665.19, and 665.61, published at 73 FR 75615 (December 12, 2008) have been approved by OMB and are effective on May 6, 2009.

ADDRESSES: Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in this final rule may be submitted to William L. Robinson, Administrator, NMFS Pacific Islands Region (PIR), 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI 96814-4700, and to David Rostker, OMB, by e-mail to David_Rostker@omb.eop.gov, or fax to 202-395-7285.

FOR FURTHER INFORMATION CONTACT: Brett Wiedoff, Sustainable Fisheries Division, NMFS PIR, 808-944-2272.

SUPPLEMENTARY INFORMATION: This Federal Register document is also accessible at www.gpoaccess.gov/fr/.

A final rule for Amendment 10 was published in the **Federal Register** on December 12, 2008 (73 FR 75615). The requirements of that final rule, other than the collection-of-information requirements, were effective on January 12, 2009. Because OMB approval of the collection-of-information requirements

had not been received by the date the final rule was published, the effective date of the associated permitting, reporting, and VMS requirements in that rule was delayed. OMB approved the collection-of-information requirements on March 9, 2009.

Classification

This final rule has been determined to be not significant for purposes of Executive Order 12866.

Notwithstanding any other provision of the law, no person is required to respond to, and no person shall be subject to penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA), unless that collection of information displays a currently valid OMB control number.

This final rule contains new collection-of-information requirements subject to the PRA under OMB Control Numbers 0648-0584 (CNMI bottomfish fishing permits, vessel identification, and VMS requirements) and 0648-0214 (CNMI bottomfish fishing logs and sales reports). The public reporting burden for these requirements is estimated to be 0.5 hr per permit applicant, with renewals requiring an additional 0.5 hr annually, 20 min for completing a fishing logbook each day, and approximately 35 min per vessel per fishing trip for completing Federal sales reports. For the purpose of this rule only, vessels larger than 40 ft (12.2 m) in length are required to submit Federal sales reports. These estimates include time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding these burden estimates or any other aspect of this data collection, including suggestions for reducing the burden, to William L. Robinson (see ADDRESSES), or by e-mail to *David_Rostker@omb.eop.gov*, or fax to 202-395-7285.

Issued March 30, 2009.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Order on Requests for Waiver.

SUMMARY: The Federal Energy Regulatory Commission grants in part, and denies in part, requests for waiver of certain North American Electric

Standards Board (NAESB) business practice standards incorporated into Part 38 of the Commission’s regulations.

SUPPLEMENTARY INFORMATION:

Before Commissioners: Jon Wellinghoff, Chairman; Suedeen G. Kelly, Marc Spitzer, and Philip D. Moeller.

1. On January 6, 2009, the Edison Electric Institute (EEI) submitted in Docket No. RM05-5-000 a request on behalf of electric transmission providers that the Commission issue a blanket waiver of certain North American Electric Standards Board (NAESB) business practice standards incorporated into the Commission’s regulations. EEI states that the NAESB business practices require the posting of information that is inconsistent with the Commission’s posting requirements under Part 358 of its regulations, as amended in Order No. 717.¹ The Commission grants in part, and denies in part, the requested waiver, as discussed below.

2. On January 16, 2009, Duke Energy Carolinas, LLC (Duke) renewed EEI’s request for waiver in Docket No. OA08-50-002 as part of a compliance filing proposing to incorporate the latest version of NAESB’s business practice standards into Duke’s Open Access Transmission Tariff (OATT).² Duke proposed incorporating a reference to the pending request for waiver into certain provisions of its OATT. The Commission directs Duke to submit a further compliance filing, described below, to reflect the Commission’s decision to grant in part, and deny in part, the requested waiver.

I. Background

3. NAESB is a non-profit standards development organization established in January 2002 that serves as an industry forum for the development of standards that promote a seamless marketplace for wholesale and retail natural gas and electricity.
