Title: RUS Form 675, Certification of Authority.

OMB Control Number: 0572-0074.

Type of Request: Revision of a currently approved information collection.

Abstract: The Rural Utilities Service (RUS) manages loan programs in accordance with the Rural Electrification Act of 1936, as amended (7 U.S.C. 901 *et seq.*) (RE Act). A major factor in managing loan programs is controlling the advance of funds. One reason to control funds is so that the actual borrowers get their money. The use of RUS Form 675 allows this control to be achieved by providing a list of authorized signatures against which signatures requesting funds are compared. RUS Form 675 provides an effective control against the unauthorized release of funds by providing a list of authorized signatures. OMB Circular A-123, Management Accountability and Control, states that information should be maintained on a current basis and that cash should be protected from unauthorized use. Form 675 allows borrowers to keep RUS up-to-date of any changes in signature authority and controls the release of funds only to authorized borrower representatives.

DEPARTMENT OF AGRICULTURE

Forest Service

Willow Creek Pass Fuel Reduction Project

AGENCY: Forest Service, USDA—Medicine Bow-Routt National Forests; Hahns Peak-Bears Ears Ranger District, Steamboat Springs, Colorado.

PROJECT: Willow Creek Pass Fuel Reduction Project.

ACTION: Notice of intent to prepare an environmental impact statement (EIS).

SUMMARY: The mountain pine beetle epidemic is continuing to cause large areas of mortality to lodgepole pine throughout the Medicine Bow-Routt National Forests. Adjacent private lands are experiencing mortality along shared boundaries and an increasing number of homeowner associations are taking preventive steps to provide defensible space around their properties and reduce overhead hazard trees.

The Willow Creek Pass Village Homeowners Association (WCPV-HOA) has requested assistance with increasing defensible space and removal of hazard trees on Forest lands (east) adjacent to their private boundary.

This project is an "authorized and covered project" under Title I of the Healthy Forests Restoration Act (HFRA). We will be using expedited procedures authorized by this Act to complete project planning and decision-making. Use of this authority requires an emphasis on collaboration with local communities and a determination that an epidemic exists by consulting with forest health specialists.

DATES: The draft environmental impact statement is expected to be filed with the Environmental Protection Agency (EPA) and available for public review during April 2009. At that time, the EPA will publish a Notice of Availability (NOA) of the draft EIS in the **Federal Register**. The comment period on the draft EIS will be for a period of not less than 45 days from the date the EPA publishes the NOA in the **Federal Register**. It is important that those

interested in the management of this area comment at that time.

The final EIS is expected to be available in June 2009. In the final EIS, the Forest Service will respond to any comments received during the public comment period that pertain to the environmental analysis. Those comments and the Forest Service responses will be disclosed and discussed in the final EIS and will be considered when the final decision about this proposal is made.

ADDRESSES: Send written comments to Jamie Kingsbury, District Ranger, 925 Weiss Drive, Steamboat Springs, Colorado 80487. Comments may also be sent via e-mail or facsimile. E-mail to: comments-rocky-mountain-medicine-bow-routt-hahns-peak-bears-ears@fs.fed.us, include "Willow Creek Pass" in the subject line of the e-mail message, or via facsimile to 970-870-2284.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the respondent with standing to appeal the subsequent decision.

FOR FURTHER INFORMATION CONTACT:

Brian Waugh—Environmental Coordinator (970-870-2185) or Andy Cadenhead—Supervisory Forester (970-870-2220), Medicine Bow-Routt National Forests, 925 Weiss Drive, Steamboat Springs, Colorado 80487.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose of the Willow Creek Pass Project is to provide defensible space along the boundary shared with the U.S. Forest Service and reduce fuel and overhead hazards adjacent to the private properties in the WCPV-HOA. This would include reducing hazard fuels in close proximity to private in-holdings and adjacent properties of the WCPV-HOA, creating defensible space to provide increased protection from wildland fire events, and removing hazard trees that could fall on private residences and other improvements in the Willow Creek Pass Village Homeowners Association.

There is a need to:

- Reduce the development of continuous high hazard fuel conditions.
