## **SECURITIES AND EXCHANGE COMMISSION**

**[Release No. 34-59717; File No. SR-FINRA-2009-021]**

### **Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Codify the Extended Hours Trading Risk Disclosure Obligation as New FINRA Rule 2265**

April 7, 2009.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on March 27, 2009, Financial Industry Regulatory Authority, Inc. ("FINRA") (f/k/a National Association of Securities

Dealers, Inc. ("NASD")) filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II [sic], which Items have been prepared by FINRA. FINRA has designated the proposed rule change as "constituting a stated policy, practice, or interpretation with respect to the meaning, administration, or enforcement of an existing rule" under Section 19(b)(3)(A)(i) of the Act<sup>3</sup> and Rule 19b-4(f)(1) thereunder,<sup>4</sup> which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### **I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change**

FINRA is proposing to adopt new FINRA Rule 2265 (Extended Hours Trading Risk Disclosure) to codify the existing obligation to disclose to customers the risks of extended hours trading. The text of the proposed rule change is available on FINRA's Web site at <http://www.finra.org>, at the principal office of FINRA and at the Commission's Public Reference Room.

#### **II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, FINRA included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. FINRA has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### *A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

#### 1. Purpose

On January 10, 2000, FINRA, then NASD, filed with the SEC a *Notice to Members* reminding members of their obligation under just and equitable principles of trade<sup>5</sup> and the advertising rule<sup>6</sup> to disclose to all customers the material risks of extended hours trading (*i.e.*, trading outside regular trading

<sup>2</sup> 17 CFR 240.19b-4.

hours of 9:30 a.m. to 4 p.m. Eastern Standard Time).<sup>7</sup> In its filing with the Commission, FINRA noted that, while the growth of extended hours trading provides customers with greater opportunities to trade securities and manage their portfolios, it also involves material risks that are specific to extended hours trading.

NTM 00-07 provided a model extended hours risk disclosure statement for retail and institutional customers that addressed six primary trading risks: (1) Lower liquidity; (2) higher volatility; (3) changing prices; (4) unlinked markets; (5) an exaggerated effect from news announcements; and (6) wider spreads. This disclosure statement defined certain essential terminology (e.g., “liquidity,” “volatility,” and “spread”) and explained the risks that are present during extended hours trading, specifically:

- **Risk of Lower Liquidity.** Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price for securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.

- **Risk of Higher Volatility.** Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in extended hours trading than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular market hours.

- **Risk of Changing Prices.** The prices of securities traded in extended hours trading may not reflect the prices either at the end of regular market hours, or upon the opening the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.
- **Risk of Unlinked Markets.**

Depending on the extended hours trading system or the time of day, the prices displayed on a particular

extended hours trading system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.

- **Risk of News Announcements.** Normally, issuers make news announcements that may affect the price of their securities after regular market hours. Similarly, important financial information is frequently announced outside of regular market hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.

- **Risk of Wider Spreads.** The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.

In addition, FINRA notes that certain regulatory protections are not in effect after the end of “regular trading hours” on any trading day. For example, the SEC’s Regulation NMS’s “trade-through” rules do not apply to executions after 4 p.m. EST.<sup>8</sup>

FINRA is proposing to transfer this existing disclosure obligation into new FINRA Rule 2265 (Extended Hours Trading Risk Disclosure) for administrative and ease of reference purposes. As is currently the case, members would retain a measure of flexibility in the wording of the risk disclosure (so long as, at a minimum, the above six areas are addressed). In addition to the above specific disclosures, members must include any additional disclosures as are relevant and appropriate to the member’s business consistent with their obligations under just and equitable principles of trade.

As noted in Item 2 of this filing, FINRA has filed the proposed rule change for immediate effectiveness. The effective date and the implementation date will be the date of filing, March 27, 2009.

## 2. Statutory Basis

FINRA believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,<sup>9</sup> which requires, among other things, that

FINRA rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest.

FINRA continues to believe that members that permit customers to engage in extended hours trading have an obligation to disclose to such customers the risks specific to extended hours trading. Similarly, members that advertise the opportunities and benefits of extended hours trading must also disclose the material risks. FINRA believes that this disclosure requirement is an important element in protecting investors and informing investors of the risks specific to extended hours trading.

### B. Self-Regulatory Organization’s Statement on Burden on Competition

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

### C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>10</sup> and paragraph (f)(1) of Rule 19b-4 thereunder.<sup>11</sup> At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

## IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

## SECURITIES AND EXCHANGE COMMISSION

**Release No. 34-59721; File No. SR-Phlx-2009-32**

### Self-Regulatory Organizations; NASDAQ OMX PHLX, Inc.; Notice of Filing of Proposed Rule Change Relating to the Exchange's Enhanced Electronic Trading Platform for Options, Phlx XL II

April 7, 2009.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4<sup>2</sup> thereunder, notice is hereby given that on April 3, 2009, NASDAQ OMX PHLX, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to implement several enhancements to its electronic options trading system, Phlx XL. The enhanced system will be known as Phlx XL II and will reflect enhancements to the opening, linkage and routing, quoting, and order management processes.

The text of the proposed rule change is available on the Exchange's Web site at <http://nasdaqomxphlx.cchwallstreet.com/NASDAQOMXPHLX/Filings/>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

#### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

The purpose of the proposed rule change is to implement several enhancements to the Phlx electronic options trading platform, Phlx XL.<sup>3</sup> The system that includes these enhancements will be referred to as Phlx XL II. These enhancements should improve the execution quality for its Phlx users by improving a number of processes, including the opening process, the order handling process and the execution of orders process. The changes to the opening process should provide better executions to users, more consistent prices on executions and a smoother transition from the opening to the regular trading day. The changes to the order handling process will improve routing to liquidity available at other exchanges while preventing non-exempt trade-throughs of other markets, and will provide users with increased flexibility and control in how their orders are handled. Execution of order processing will become more consistent, with greater continuity in prices as a result of these changes, because several of the changes are intended to introduce a price check to limit executions at far away prices (which are known as outliers). The Exchange believes that these changes benefit investors and users through better and more consistent system behavior and resulting prices. These modifications and enhancements are outlined below.<sup>4</sup>

##### New Opening Process

The Exchange proposes to improve its opening process for options in several ways. Currently, Exchange Rule 1017 provides that the system will open an option series for trading once certain conditions have been met. Specifically, Rule 1017(a) currently states that the system will automatically open a series in equity options when a quote or trade has been disseminated by the market for the underlying security, and there is a specialist quote or a defined number of Phlx XL participants<sup>5</sup> quoting after a certain time period has elapsed. Provided there is no order imbalance,

<sup>3</sup> See Securities Exchange Act Release No. 50100 (July 27, 2004), 69 FR 44612 [sic] (August 3, 2004) (SR-Phlx-2003-59).

<sup>4</sup> The Exchange acknowledges that the proposed Options Order Protection and Locked/Crossed Market Plan may necessitate modifications.

<sup>5</sup> Phlx XL and Phlx XL II participants are specialists, Streaming Quote Traders ("SQTs") and Remote Streaming Quote Traders ("RSQTs"), as defined in Phlx Rule 1014(b), assigned to an option.
