

Paradise”). Under the proposed consent decree, EPA has agreed to respond to the petition by June 13, 2009. If despite best efforts EPA cannot meet the June 13, 2009 deadline, the proposed decree states that the deadline may be extended by up to 30 days by stipulation of the Plaintiffs and EPA. The proposed consent decree further states that EPA shall expeditiously deliver notice of such action on the TVA Paradise permit to the Office of the Federal Register for prompt publication and, if EPA’s response contains an objection in whole or in part, transmit within 15 business days following signature the response to the Kentucky Environment and Public Protection Cabinet, Department for Environmental Protection, Division of Air Quality.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed consent decree from persons who were not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines, based on any comment submitted, that consent to this consent decree should be withdrawn, the terms of the decree will be affirmed.

II. Additional Information About Commenting on the Proposed Consent Decree

A. How Can I Get a Copy of the Consent Decree?

The official public docket for this action (identified by Docket ID No. EPA–HQ–OGC–2009–0244) contains a copy of the proposed consent decree. The official public docket is available for public viewing at the Office of Environmental Information (OEI) Docket in the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OEI Docket is (202) 566–1752.

An electronic version of the public docket is available through <http://www.regulations.gov>. You may use the <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official

public docket, and to access those documents in the public docket that are available electronically. Once in the system, select “search,” then key in the appropriate docket identification number.

It is important to note that EPA’s policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at <http://www.regulations.gov> without charge, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA’s policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA’s electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the EPA Docket Center.

B. How and to Whom Do I Submit Comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked “late.” EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment and with any disk or CD-ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA’s electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <http://www.regulations.gov> Web site to submit comments to EPA electronically is EPA’s preferred method for receiving comments. The electronic

public docket system is an “anonymous access” system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA’s electronic public docket, EPA’s electronic mail (e-mail) system is not an “anonymous access” system. If you send an e-mail comment directly to the Docket without going through <http://www.regulations.gov>, your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA’s electronic public docket.

Dated: April 8, 2009.

Richard B. Ossias,

Associate General Counsel.

BILLING CODE 6210–01–S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Notice of Non-competitive Replacement Award

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice of Non-competitive Replacement Award.

SUMMARY: The Health Resources and Services Administration (HRSA) is issuing a temporary non-competitive replacement award to the National Jewish Hospital and Research Center to avoid disruption and continue outreach, medical screening and referral services to former uranium mine workers and individuals in the states of Colorado, Wyoming and portions of Southeastern Utah exposed to radioactive fallout during prior testing of nuclear weapons.

SUPPLEMENTARY INFORMATION:

Intended Recipient of the Award: National Jewish Hospital and Research Center in Denver, Colorado.

Amount of the Award: \$120,106.00 (an 8-month supplement, January 1, 2009, through August 31, 2009) to ensure ongoing services to the target populations.

Project Period: The period of supplemental support is from January 1, 2009, to August 31, 2009.

Authority: This activity is under the authority of the Public Health Service Act, Section 417C of Public Law 106-245.

Catalogue of Federal Domestic Assistance Number: 93.257

Justification for the Exception to Competition: Critical funding for outreach, medical screening and referral services to the target populations in Colorado, Wyoming and portions of Southeastern Utah will be continued through a temporary, non-competitive replacement award to the National Jewish Hospital and Research Center (NJHRC) as the new recipient. This temporary award is needed because the former grantee, St. Mary's Hospital and Medical Center, relinquished, effective December 31, 2008, the original award (project period September 1, 2008, through August 31, 2011). NJHRC, nationally known as the "Center for Research and Treatment of Respiratory Conditions," is uniquely qualified to provide screening and diagnosis of occupationally related radiogenic diseases for the target populations. NJHRC has administered the HRSA-funded Black Lung Clinic Program (BLCP) grant for the past five years and is well suited to undertake operations of the Radiation Exposure Screening and Education Program under the previously approved scope of project. Additionally, this organization has a thorough understanding of the characteristics and needs of miners (both current and retired) as well as other workers at risk for occupational diseases. HRSA's Office of Rural Health Policy is not aware of any other organization that

could provide such treatment and services to the impacted service populations without additional time and resources being devoted to bringing that organization's service capacity up to the level needed under the project scope of this award.

This temporary non-competitive replacement award will permit the new recipient to ensure continuity of services to the affected populations. The supplemental funding will provide support for 8 months. Further funding beyond August 31, 2009, for this service area will be provided through a limited service area competition to be announced in the near future.

FOR FURTHER INFORMATION CONTACT: Tom Morris, Associate Administrator, Office of Rural Health Policy, Health Resources and Services Administration, 5600 Fishers Lane, Rockville, MD 20857; phone 301-443-0835; tmorris@hrsa.hhs.gov.

Dated: April 9, 2009.

Marcia K. Brand,

Deputy Administrator.

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institute of Environmental Health Sciences, Division of Extramural Research and Training; Proposed Collection; Comment Request Hazardous Waste Worker Training

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Institute of Environmental Health Sciences (NIEHS), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: Title: Hazardous Waste Worker Training—42 CFR part 65. *Type of Information Collection Request:* Revision of OMB No. 0925-0348 and expiration date September 30, 2009. *Need and Use of Information Collection:* This request for OMB review and approval of the information collection is required by regulation 42 CFR part 65(a)(6). The National Institute of Environmental Health Sciences (NIEHS) was given major responsibility for initiating a worker safety and health training program under Section 126 of

the Superfund Amendments and Reauthorization Act of 1986 (SARA) for hazardous waste workers and emergency responders. A network of non-profit organizations that are committed to protecting workers and their communities by delivering high-quality, peer-reviewed safety and health curricula to target populations of hazardous waste workers and emergency responders has been developed. In twenty-one years (FY 1987-2008), the NIEHS Worker Training program has successfully supported 20 primary grantees that have trained more than 2.2 million workers across the country and presented over 130,250 classroom and hands-on training courses, which have accounted for nearly 30 million contact hours of actual training. Generally, the grant will initially be for one year, and subsequent continuation awards are also for one year at a time. Grantees must submit a separate application to have the support continued for each subsequent year. Grantees are to provide information in accordance with S65.4(a), (b), (c) and 65.6(a) on the nature, duration, and purpose of the training, selection criteria for trainees' qualifications and competency of the project director and staff, cooperative agreements in the case of joint applications, the adequacy of training plans and resources, including budget and curriculum, and response to meeting training criteria in OSHA's Hazardous Waste Operations and Emergency Response Regulations (29 CFR 1910.120). As a cooperative agreement, there are additional requirements for the progress report section of the application. Grantees are to provide their information in hard copy as well as enter information into the WETP Grantee Data Management System. The information collected is used by the Director through officers, employees, experts, and consultants to evaluate applications based on technical merit to determine whether to make awards. *Frequency of Response:* Biannual. *Affected Public:* Non-profit organizations. *Type of Respondents:* Grantees. The annual reporting burden is as follows: *Estimated Number of Respondents:* 18; *Estimated Number of Responses per Respondent:* 2; *Average Burden Hours per Response:* 14; and *Estimated Total Annual Burden Hours Requested:* 504. The annualized cost to respondents is estimated at: \$16,380. There are no Capital Costs, Operating Costs and/or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies should
