AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The Title of the Information Collection:* 10 CFR Part 60—"Disposal of High-Level Radioactive Wastes in Geologic Repositories."

2. *Current OMB Approval Number:* 3150-0127.

3. *How Often the Collection is Required:* The information need only be submitted one time.

4. *Who is Required or Asked to Report:* State or Indian Tribes, or their representatives, requesting consultation with the NRC staff regarding review of a potential high-level radioactive waste geologic repository site, or wishing to participate in a license application review for a potential geologic

repository (other than a potential geologic repository site at Yucca Mountain, Nevada, currently under investigation by the U.S. Department of Energy, which is now regulated under 10 CFR Part 63).

5. *The Number of Annual Respondents:* 1; however none are expected in the next three years.

6. *The Number of Hours Needed Annually to Complete the Requirement or Request:* 1; however, none are expected in the next three years.

7. *Abstract:* Part 60 requires States and Indian Tribes to submit certain information to the NRC if they request consultation with the NRC staff concerning the review of a potential repository site, or wish to participate in a license application review for a potential repository (other than the Yucca Mountain, Nevada site proposed by the U.S. Department of Energy). Representatives of States or Indian Tribes must submit a statement of their authority to act in such a representative capacity. The information submitted by the States and Indian Tribes is used by the Director of the Office of Nuclear Material Safety and Safeguards as a basis for decisions about the commitment of NRC staff resources to the consultation and participation efforts. As provided in § 60.1, the regulations in 10 CFR Part 60 no longer apply to the licensing of a geologic repository at Yucca Mountain. All of the information collection requirements pertaining to Yucca Mountain were included in 10 CFR Part 63, and were approved by the Office of Management and Budget under control number 3150-0199. The Yucca Mountain site is regulated under 10 CFR Part 63 (66 FR 55792, November 2, 2001).

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
