### Agricultural Marketing Service

*Title:* Farmers Market Questionnaire.  
*OMB Control Number:* 0581-0169.

*Summary of Collection:* The Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627) authorizes the Transportation and Marketing (T&M) Program, Agricultural Marketing Service (AMS) to conduct research to find better designs, development techniques, and operating methods for modern farmer's markets under the Agency's Marketing Service Branch. Individual studies are conducted in close cooperation with local interested parties. Recommendations are made available to local decision makers interested in constructing modern farmer's markets to serve area producers and consumers. T&M researchers will survey by mail, with telephone follow-up, the managers of farmer's markets. These markets represent a varied range of sizes, geographical locations, types, ownership, and structure and will provide a valid overview of farmer's markets in the United States.

*Need and Use of the Information:* The form, TM-6 "Farmer's Market Questionnaire," is used to collect information and will serve as a survey instrument to obtain a clearer picture of existing farmer's market structure as well as provide a measure of growth. Information such as the size of markets, operating times and days, retail and wholesale sales, management structure, and rules and regulations governing the markets are all important questions that need to be answered in the design of a new market. The information developed by this survey will support better designs, development techniques, and operating methods for modern farmers markets and outline improvements that can be applied to revitalize existing markets. If this information is not collected, the ongoing research to develop new farmers' markets must rely on limited and often anecdotal information. This narrow focus will limit the ability of researchers to provide effective designs and development plans for new markets where such information is not immediately available.

*Description of Respondents:* Not-for-profit institutions.

*Number of Respondents:* 4,685.

*Frequency of Responses:* Reporting: Biennially.

*Total Burden Hours:* 356.
