*Purpose of the 1890 Institution Capacity Building Grants Program*

The 1890 Capacity Building Grants Program is intended to fund projects that build teaching, research, and extension capacity in the food and agricultural sciences at colleges and universities having significant minority enrollments, and pursuant to annual appropriations made available specifically by Congress for the 1890 Institutions. The program is designed to build the institutional teaching, research, and extension capacities of the eligible institutions through cooperative programs with Federal and non-Federal entities. The program is designed to achieve three major goals:

(1) To advance cultural diversity of the food and agricultural scientific and professional work force by attracting and educating more students from underrepresented groups;

(2) To strengthen linkages among the 1890 Institutions, other colleges and universities, USDA, and private industry; and

(3) To enhance the quality of teaching, research, and extension programs at the 1890 Institutions to more readily establish them as full partners in the U.S. food and agricultural sciences higher education system.

### Implementation Plans

In developing the FY 2009 1890 Institution Capacity Building Grants Program RFA and the program-specific administrative regulations for this program as subpart L to 7 CFR part 3430, Competitive and Noncompetitive Non-Formula Federal Assistance Programs—General Award Administrative Provisions, CSREES plans to consider all stakeholder input and the written comments received in response to this notice. CSREES anticipates releasing the FY 2009 RFA by May 31, 2009.

Done at Washington, DC, this 16th day of April 2009.

#### Background

On January 12, 2009, the Federal Aviation Administration (FAA) issued Notice No. 08-07, Qualification, Service, and Use of Crewmembers and Aircraft Dispatchers (74 FR 1280).

Comments to that document were to be received on or before May 12, 2009.

By letter dated April 3, 2009, the Air Transport Association of America, Inc., Air Carrier Association of America, Regional Airline Association, and National Air Carrier Association on behalf of their members, and Airbus Americas, Inc. requested that the FAA extend the comment period for Notice No. 08-07 for 180 days. They requested the extension so the public has sufficient time to review and comment on the extensive and complex proposed rule.

While the FAA concurs with the petitioners' requests for an extension of the comment period on Notice No. 08-07, the FAA believes that a 180-day extension would be excessive. As Notice No. 08-07 is lengthy, the FAA provided a 120-day comment period. Although the FAA agrees that additional time for comments may be needed, this need must be balanced against the need to proceed expeditiously with an important rulemaking. The FAA believes an additional 90 days would be adequate for these petitioners to provide meaningful comment to Notice No. 08-07. The FAA does not anticipate any further extension of the comment period for this rulemaking.

#### Extension of Comment Period

In accordance with section 11.47(c) of title 14, Code of Federal Regulations, the FAA has reviewed the petition made by the Air Transport Association of America, Inc., Air Carrier Association of America, Regional Airline Association, and the National Air Carrier Association on behalf of their members, and Airbus Americas, Inc. for extension of the comment period to Notice No. 08-07. These petitioners have shown a substantive interest in the proposed rule and good cause for the extension. The FAA has determined that extension of the comment period is consistent with the public interest, and that good cause exists for taking this action.

Accordingly, the comment period for Notice No. 08-07 is extended until August 10, 2009.

Issued in Washington, DC, on April 15, 2009.
