Changes Since the Preliminary Results

Based on the comments received from the interested parties, we have made changes to the margin calculations used in the *Preliminary Results*. Specifically, for the final results, we have revised the calculations to use the invoice date as the date of sale for all of Essar's U.S. sales. As a result of the date of sales change, the margin increased from the *Preliminary Results*.

The adjustments are discussed in detail in the Decision Memorandum.

Final Results of Review

We determine that the following weighted average antidumping margin exists:

Producer/Manufacturer	Weighted-Average Margin
Essar	5.01%

Assessment Rates

The Department will determine, and U.S. Customs and Border Protection ("CBP") shall assess, antidumping duties on all appropriate entries, pursuant to section 751(a)(1) of the Tariff Act of 1930, as amended ("the Act") and 19 CFR 351.212(b). The Department calculated an assessment rate for each importer of the subject merchandise covered by the review. Where the assessment rate is above *de minimis*, we will instruct CBP to assess duties on all entries of subject merchandise by that importer. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

The Department clarified its "automatic assessment" regulation on May 6, 2003. See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003). This clarification will apply to entries of subject merchandise during the POR produced by Essar for which Essar did not know the merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no company-specific rate for an intermediary involved in the transaction. See *id.*, for a full discussion of this clarification.

Cash-Deposit Requirements

The following deposit requirements will be effective upon publication of this notice of final results of administrative review for all shipments of hot-rolled carbon steel flat products from India entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results, as provided by sections 751(a)(1) and (a)(2)(C) of the Act: (1) for companies covered by this review, the cash deposit rate will be the rate listed above; (2) for previously reviewed or investigated companies other than those covered by this review, the cash deposit rate will be the company-specific rate established for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the producer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if neither the exporter nor the manufacturer has its own rate, the cash deposit rate will be 38.72 percent, the all-others rate published in the *Notice of Amended Final Antidumping Duty Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Certain Hot-Rolled Carbon Steel Flat Products From India*, 66 FR 60194 (December 3, 2001).¹ These deposit requirements shall remain in effect until further notice.

Notification to Interested Parties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of doubled antidumping and/or countervailing duties.

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment

¹ The all-others cash deposit rate, applied by CBP, is reduced to account for the export subsidy rate found in the countervailing duty investigation. See *Final Affirmative Countervailing Duty Determination: Certain Hot-Rolled Carbon Steel Flat Products From India*, 66 FR 49635 (September 28, 2001). The adjusted all-others rate is 23.87 percent.

of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 13, 2009.

Ronald K. Lorentzen,
Acting Assistant Secretary for Import Administration.
