Approval and Promulgation of Implementation Plans; South Carolina; NO_x SIP Call Phase II

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a source-specific State Implementation Plan (SIP) revision submitted by the South Carolina Department of Health and Environmental Control on April 14, 2005. This revision responds to EPA's regulation entitled, "Interstate Ozone Transport: Response to Court Decisions on the Nitrogen Oxides (NO_x) SIP Call, NO_x SIP Call Technical Amendments, and Section 126 Rules," otherwise known as the "NO_x SIP Call Phase II." This revision meets the requirements of the NO_x SIP Call Phase II, which requires South Carolina to submit NO_x SIP Call Phase II revisions necessary to achieve applicable, incremental reductions of NO_x, including emission reductions from large internal combustion engines. Transcontinental Gas Pipeline Corporation Station 140 (Transco) is the only facility in South Carolina affected by the NO_x SIP Call Phase II. The intended effect of this SIP revision is to reduce emissions of NO_x originating in the State of South

Carolina to help attain and maintain the national ambient air quality standard for ozone. This action is being taken pursuant to section 110 of the Clean Air Act.

In the Final Rules Section of this **Federal Register**, EPA is approving the State's source-specific SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before May 26, 2009.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R04-OAR-2005-SC-0002, by one of the following methods:

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; Michigan; Redesignation of the Detroit-Ann Arbor Area to Attainment for Ozone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to make a determination under the Clean Air Act (CAA) that the Detroit-Ann Arbor nonattainment area has attained the 8-hour ozone National Ambient Air Quality Standard (NAAQS). The Detroit-Ann Arbor area includes Lenawee, Livingston, Macomb, Monroe, Oakland, St. Clair, Washtenaw, and Wayne Counties. This determination is based on quality-assured ambient air quality monitoring data for the 2006-2008 ozone seasons that demonstrate that the 8-hour ozone NAAQS has been attained in the area.

EPA is proposing to approve a request from the State of Michigan to redesignate the Detroit-Ann Arbor area to attainment of the 8-hour ozone NAAQS. The Michigan Department of Environmental Quality (MDEQ) submitted this request on March 6, 2009. In proposing to approve this request EPA is also proposing to approve, as a revision to the Michigan State Implementation Plan (SIP), the State's plan for maintaining the 8-hour ozone NAAQS through 2020 in the area. EPA is proposing to approve the 2005 base year emissions inventory for the Detroit-Ann Arbor area as meeting the requirements of section 182(a)(1) of the CAA. EPA also finds adequate and is proposing to approve the State's 2020
