BILLING CODE 4910-13-P

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

[Docket No. NHTSA-2009-0086]

Technical Report on the Maintenance and Repair Expenses to the ABS and Underride Guard on Heavy Tractors and Trailers

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Request for comments on technical report.

SUMMARY: This notice announces the publication by NHTSA of an analysis of the costs to repair and maintain the Anti-Lock Brake System (ABS) and Underride Guard (URG) on heavy tractors and trailers. Federal Motor Vehicle Safety Standards 121 and 105 mandate antilock braking systems (ABS) on all air-braked vehicles and hydraulic-braked trucks and buses with a GVWR of 10,000 pounds or greater. FMVSS Nos. 223 and 224 require underride guards (URG) meeting a strength test on trailers with a GVWR of 10,000 pounds or greater.

DATES: Comments must be received no later than August 20, 2009.

ADDRESSES: *Report:* The technical report is available on the Internet for viewing in PDF format at <http://www-nrd.nhtsa.dot.gov/Pubs/811109.PDF>.

SUPPLEMENTARY INFORMATION: Federal Motor Vehicle Safety Standards mandate antilock braking systems (ABS) on heavy vehicles and underride guards (URG) on heavy trailers. Repair receipts from in-service vehicles were analyzed to estimate the maintenance and repair expenses to the ABS and URG. The average ABS expenses per month of operation were \$0.85 for tractors and \$0.25 for trailers. The presence of ABS did not increase expenses to other parts of the brake system. The estimated lifetime maintenance and repair expenses were notably smaller than the cost of equipping new vehicles with ABS. Repairs to the trailer URG averaged \$0.16 per month of service. (All values are in 2007 dollars.)

Procedural Matters

How can I influence NHTSA's thinking on this subject?

NHTSA welcomes public review of the technical report. The agency is interested in learning of any additional data that may be useful in the evaluations. The availability of data on later model year tractors and trailers is especially relevant because ABS-equipped vehicles in this analysis could have been at most six years old. NHTSA will submit to the Docket a response to the comments and, if appropriate, will supplement or revise the report.

How do I prepare and submit comments?

Your comments must be written and in English. To ensure that your comments are correctly filed in the Docket, please include the Docket number of this document (NHTSA-2009-0086) in your comments.

Your primary comments must not be more than 15 pages long (49 CFR 553.21). However, you may attach additional documents to your primary

Please send two paper copies of your comments to Docket Management, fax them, or use the Federal eRulemaking Portal. He can check if your comments have been received at the Docket and he can expedite their review by NHTSA.

How can I be sure that my comments were received?

How do I submit confidential business information?
