DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Part C Early Intervention Services Grant

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice of Noncompetitive Replacement Award to Joseph P. Addabbo Family Health Center.

SUMMARY: The Health Resources and Services Administration (HRSA) will be transferring Ryan White HIV/AIDS Part C Early Intervention Services Grant funds (authorized by Title XXVI of the Public Health Service Act) originally awarded to Caritas Health Care, Inc., to the Joseph P. Addabbo Family Health Center in order to ensure continuity of critical HIV medical care and treatment services to clients in Jamaica/Southeast Queens, Borough of Queens, New York City, New York.

SUPPLEMENTARY INFORMATION:

Former Grantee of Record: Caritas Health Care, Inc.

Original Period of Grant Support: July 1, 2006, to June 30, 2011.

Replacement Awardee: Joseph P. Addabbo Family Health Center.

Amount of Replacement Award: \$388,253.

Period of Replacement Award: The period of support for the replacement award is March 1, 2009, to March 31, 2010.

Authority: Section 2651 of the Public Health Service Act, 42 U.S.C. 300ff-51.

CFDA Number: 93.918.

Justification for the Exception to Competition: The former grantee, Caritas Health Care, Inc., notified HRSA that it would not continue providing services after February 28, 2009, as it is ceasing operations. It is critical that there be continuity in the medical care and treatment of approximately 430 low-income patients with HIV/AIDS in the original service area, Jamaica/Southeast Queens, Borough of Queens, New York City, in New York. The Joseph P. Addabbo Family Health Center is located in the same geographical area previously served by Caritas Health Care, Inc., is a current Part C grantee with an established record of providing critical HIV/AIDS care and treatment, and has purchased the St. Dominic's Family Health Center facility, one of the sites where the Ryan White services for Caritas Health Care, Inc., were provided. This temporary replacement award will ensure that there is no disruption of critical care and services to the service population while the service area is re-competed.

This service area will be included in the upcoming competition for the Part C HIV Early Intervention Services competing application process for project periods starting April 1, 2010.

Information Collection Requirement

Background

TSA has the primary Federal responsibility for security in all modes of transportation based primarily upon the authorities provided to it in the Aviation and Transportation Security Act (ATSA) (Pub. L. 107-71, November 19, 2001), the authorities provided to the DHS Secretary in the Implementing Recommendations of the 9/11 Commission Act of 2007 (9/11 Act) (Pub. L. 110-53, August 3, 2007), and delegations to TSA from the DHS Secretary.

As part of this responsibility, TSA has the programmatic lead within DHS for several transportation security grant programs. Specifically, TSA provides transit system subject matter expertise within DHS and determines the primary security architecture for the TSGP program. TSA's subject matter experts have the lead in crafting all selection criteria associated with the grant application review process.

The Federal Emergency Management Agency (FEMA) has the lead for designing and operating the administrative mechanisms needed to manage DHS's core grant programs, including the TSGP. Specifically, FEMA is responsible for ensuring compliance with all relevant Federal grant management requirements and delivering the appropriate grant management tools, financial controls, audits, and program management discipline needed to support the TSGP.

TSA and FEMA serve as *ex officio* members of the RTSWGs and meet with each of the RTSWGs throughout the application process to collaboratively develop project concepts, determine how projects will be selected for funding, and develop detailed cost estimates and investment justifications. TSA, FEMA, and their TSGP security partners (*e.g.*, transit agencies and local law enforcement) work closely at the RTSWGs to establish cooperative agreements in which projects to be funded with grant dollars are selected and refined based on regional risk and security priorities.

TSA employs this collaborative partnership process to assist in ensuring that DHS grant dollars are spent effectively. This includes maximizing the risk reduction to the transit system, while also maintaining a collaborative process. An important part of the collaborative process is how closely a partnership comes to achieving its mission, vision, and goals.
