use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection:

- (1) Type of Information Collection: Extension of a currently approved collection.
- (2) Title of the Form/Collection: National Corrections Reporting Program. The collection includes the forms: Prisoner Admission Report, Prisoner Release Report, Parole Release Report, Prisoner in Custody at Year-end.
- (3) Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: Form number(s): NCRP-1A, NCRP-1B, NCRP-1C, and NCRP-1D. Corrections Statistics Unit, Bureau of Justice Statistics, Office of Justice Programs, United States Department of Justice.
- (4) Affected public who will be asked or required to respond, as well as a brief abstract: The National Corrections Reporting Program (NCRP) is the only national data collection furnishing annual individual-level information for State prisoners admitted or released during the year, those in custody at year-end, and persons discharged from parole supervision. The NCRP collects data on sentencing, time served in prison and on parole, offense, admission/release type, and demographic information. BJS, the Congress, researchers, and criminal justice practitioners use these data to describe annual movements of adult offenders through State correctional systems. Providers of the data are personnel in the State Departments of Corrections and Parole.
- (5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: BJS anticipates 41 respondents for report year 2009 with a total annual burden of 1,666 hours. Magnetic media or other electronic formats are expected from all 41 respondents. Each respondent will require an estimated 24 hours of time to supply the information for their annual caseload and an additional 2 hours documenting or explaining the data. The estimate of respondent burden for these States includes time required for modifying computer programs, preparing input data, and documenting the tape format and record layout.
- (6) An estimate of the total public burden (in hours) associated with the collection: There are an estimated 1,066

total burden hours associated with this collection.

If additional information is required contact: Lynn Bryant, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Patrick Henry Building, Suite 1600, 601 D Street, NW., Washington, DC 20530.

Dated: April 23, 2009.

Lynn Bryant,

Department Clearance Officer, PRA, United States Department of Justice.

DEPARTMENT OF JUSTICE

Federal Bureau of Investigation

[OMB Number 1110-0015]

Agency Information Collection Activities: Proposed Collection, Comments Requested

ACTION: 60-day Notice of Information Collection Under Review: Extension of current collection: Hate Crime Incident Report; Quarterly Hate Crime Report.

The Department of Justice, Federal Bureau of Investigation, Criminal Justice Information Services Division will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with established review procedures of the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. Comments are encouraged and will be accepted until June 29, 2009. This process is conducted in accordance with 5 CFR 1320.10.

All comments and suggestions, or questions regarding additional information, to include obtaining a copy of the proposed information collection instrument with instructions, should be directed to Gregory E. Scarbro, Unit Chief, Federal Bureau of Investigation, Criminal Justice Information Services Division (CJIS), Module E–3, 1000 Custer Hollow Road, Clarksburg, West Virginia 26306, or facsimile to (304) 625–3566.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Comments should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the

- functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected: and
- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection:

- (1) Type of information collection: Revision of a currently approved collection.
- (2) The title of the form/collection: Hate Crime Incident Report and the Quarterly Hate Crime Report.
- (3) The agency form number, if any, and the applicable component of the department sponsoring the collection: Forms 1–699 and 1–700; Criminal Justice Information Services Division, Federal Bureau of Investigation, Department of Justice.
- (4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: City, county, state, federal, and tribal law enforcement agencies.

This collection is needed to collect information on hate crime incidents committed throughout the United States. Data are tabulated and published in the annual Crime in the United States and Hate Crime Statistics.

- (5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: There are approximately 13,242 law enforcement agency respondents with an estimated response time of 9 minutes.
- (6) An estimate of the total public burden (in hours) associated with this collection: There are approximately 7,945 hours, annual burden, associated with this information collection.

If additional information is required contact: Ms. Lynn Bryant, Department Clearance Officer, Policy and Planning Staff, Justice Management Division, United States Department of Justice, Patrick Henry Building, Suite 1600, 601 D Street, NW., Washington, DC 20530.

Dated: April 23, 2009.

Lynn Bryant,

Department Clearance Officer, PRA, United States Department of Justice.

kenneth.kalman@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering issuance of a license amendment to Sequoyah Fuels Corporation (SFC or licensee) for License No. SUB-1010. This action will approve the licensee's Reclamation Plan for its Gore, Oklahoma site, thereby authorizing (1) the excavation of contaminated soil and buried waste located there; and (2) the construction of an onsite disposal cell to isolate these wastes from the environment. In cooperation with the Environmental Protection Agency, the NRC in May 2008 published NUREG-1888, an Environmental Impact Statement (EIS) in support of this site reclamation action.

II. Proposed Action

Approval of the Reclamation Plan will facilitate decommissioning and the eventual termination of License No. SUB-1010. Remediation of existing ground water contamination is not part of the proposed action. SFC has submitted a ground water corrective action plan that is still under NRC staff review. However, implementation of the Reclamation Plan will facilitate the subsequent clean-up of the site's ground water.

As identified by SFC, the proposed reclamation consists of the following elements:

- Construction of an above-grade, engineered disposal cell on the SFC site for permanent disposition of the SFC decommissioning and reclamation wastes;
- Removal of sludges and sediments from the ponds and lagoons, excavation of buried low-level wastes, removal of stored soils and debris, and placement of these materials into the disposal cell;
- Dismantlement of process equipment, followed by recovery of gross quantities of contained uranium;
- Size reduction/compaction of process equipment, piping, and structural materials (including scrap metal, empty drums, and packaged wastes that will accumulate before decommissioning) to satisfy disposal requirements for maximum void volume;
- Dismantlement/demolition of structures except for the new SFC administrative office building and the storm water impoundment;
- Demolition of concrete floors, foundations, and storage pads and asphalt or concrete paved roadways outside the footprint of the cell;
- Removal of clay liners and/or contaminated soils from under impoundments;
- Excavation of underground utilities, contaminated sand backfill from utility trenches and building foundation areas, and more highly contaminated soils under the cell footprint;
- Excavation of contaminated soils lying outside the footprint of the disposal cell that exceed site-specific radiological cleanup criteria;
- Handling and treatment of produced ground water and storm water during cell construction;
- Placement of all SFC decommissioning wastes into the onsite disposal cell, followed by capping and closure of the cell; and
- Regrading of the site, backfilling of excavations to the finished grade, and revegetation.

III. NRC Review

The NRC staff reviewed the licensee's reclamation plan in accordance with NUREG–1620, "Standard Review Plan for the Review of a Reclamation Plan for Mill Tailings Sites Under Title II of the Uranium Mill Tailings Radiation Control Act of 1978," Final Revision 1, issued June 2003. The review is a comprehensive assessment of SFC's reclamation plan. Most of the contaminated material is classified under Appendix A to 10 CFR part 40 as Section 11e.(2) byproduct material.

Appendix A to 10 CFR part 40 contains the technical requirements for disposition of Section 11e.(2) byproduct material. Following the guidance provided in NUREG-1620, the NRC staff's review of SFC's reclamation plan was organized by the technical disciplines involved in the assessment of the reclamation plan to ensure compliance with Appendix A. The staff's review covered such considerations as geologic, seismic, geotechnical, and surface erosional aspects of long-term stability, the compliance with ground water standards, radiation protection including radon emanation controls, and SFC's proposal to include placing the onsite radioactive waste that cannot be classified as 11e.(2) byproduct material in the disposal cell

SFC's request for the proposed amendment was previously noticed in the **Federal Register** on May 28, 2008 (73 FR 30646–30647) with a Notice of an Opportunity to Request a Hearing. No comments or request for a hearing were received.

The EIS documented the NRC staff's determination that all steps in the proposed reclamation could be accomplished in compliance with the NRC public and occupational dose limits, effluent release limits, and residual radioactive material limits. In addition, the EIS concluded that approval of the proposed action, in accordance with the commitments in NRC License SUB–1010 and the final reclamation plan, would not result in a significant adverse impact on the environment.

The safety findings (required by the Atomic Energy Act of 1954, as amended) necessary to support the approval of the Reclamation Plan are documented in a Safety Evaluation Report (SER) that will be issued in connection with this license amendment.

IV. Further Information

Documents related to this action. including the application for amendment and supporting documentation, are available electronically at the NRC's Electronic Reading Room at http://www.nrc.gov/ reading-rm/adams.html. From this site, you can access the NRC's Agencywide Documents Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession numbers for the documents related to this notice are: SFC's letter to NRC dated January 4, 2008, ML080220345; Final EIS prepared for this action, ML081300103; Federal Register Notice
