AGENCY: Bureau of Land Management, Interior; Cooperating Agencies—U.S. Fish and Wildlife Service, Interior; State of Nevada Department of Wildlife.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 *et seq.*, the Bureau of Land Management (BLM) has prepared a Final Environmental Impact Statement (FEIS) that analyzes proposed rights-of-way for groundwater development, conveyance, and utility facilities in Lincoln County, Nevada. This notice announces its availability.

SUPPLEMENTARY INFORMATION: The FEIS describes and analyzes a proposal for groundwater development and utility rights-of-way in the Clover Valley and Tule Desert hydrographic basins as submitted by the Lincoln County Water District (LCWD). The FEIS addresses the proposal as submitted by LCWD; an alternative alignment of pipelines, power lines and facilities; and a no action alternative. Under the proposed action, BLM would issue rights-of-way to LCWD for facilities to develop and convey groundwater in Tule Desert and Clover Valley hydrographic basins to private land for community development on the Lincoln County Land Act tract (identified as the Toquop Planning Area in the Lincoln County Master Plan) north of Mesquite, Nevada. The volume of water to be transported through the proposed facilities could be up to 24,000 acre-feet per year, as authorized by the State of Nevada Water Engineer for appropriation and use by LCWD.

LCWD has applied to the BLM for rights-of-way in accordance with the Lincoln County Conservation, Recreation, and Development Act of 2004, Title V of the Federal Land Policy and Management Act of 1976 and 43 CFR Part 2800 for the following features: the proposed project would be located in unincorporated portions of southeastern Lincoln County, Nevada, and consist of approximately 47 miles of a main transmission pipeline; approximately 54 miles of lateral pipelines; up to 30 production wells; water storage tanks, booster stations, and access roads; 138 kV, 22.8 kV, and 4.16 kV power lines and a power substation; a natural gas pipeline; underground telephone lines; and a telemetry system utilizing a fiber optic line.

On May 23, 2008, the BLM published the Notice of Availability for the Draft EIS for this project in the **Federal Register**. Nineteen comments were received from individuals, organizations, agencies, and a Native American tribe. Specific comment responses are provided in the FEIS, and issues and concerns raised during the review are addressed in the FEIS.

Authority: 43 CFR Part 2800.
