

**SUMMARY:** The National Science Foundation is announcing plans to request renewal of an annual Web-based collection for the Informal Science Education (ISE) Program. In accordance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting OMB Clearance of this collection for no longer than 3 years.

Comments: Comments are invited on (a) Whether the proposed collection on information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments should be received by July 6, 2009, to be assured of consideration. Comments received after that date would be considered to the extent practicable.

**ADDRESSES:** Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to [splimpto@nsf.gov](mailto:splimpto@nsf.gov).

**FOR FURTHER INFORMATION CONTACT:** Suzanne Plimpton on (703) 292-7556 or send e-mail to [splimpto@nsf.gov](mailto:splimpto@nsf.gov).

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

**SUPPLEMENTARY INFORMATION:**

*Title of Collection:* Informal Science Education (ISE). Project Monitoring System.

*OMB Control No.:* 3145-0158.

*Expiration Date of Approval:* July 31, 2009.

**1. Abstract**

This document has been prepared to support the clearance of a Management Information System for the Informal

Science Education (ISE) program. The goals for the program are to encourage and support projects that (1) Engage the interest of children and adults in science, technology, engineering, and mathematics (STEM) in daily life so that they develop capabilities; scientific and technological literacy, mathematical competence, problem-solving skills, and the desire to learn; (2) bring together individuals and organizations from the informal and formal education communities, as well as from the private and public sectors, to strengthen STEM education in all settings; and (3) develop and implement innovative strategies that support the development of a socially responsible and informed public, and demonstrate promise of increasing participation of all citizens in STEM.

The ISE Management Information System will be comprised of three Web-based surveys, an initial survey that obtains background information about the ISE project, an annual survey, and a final survey. The survey that obtains background information would be completed soon after project grants are awarded (i.e., within 45 days), the annual would be completed at the end of each program year, and the final would be completed soon after the ISE grant period has ended (i.e., within 45 days). Through the use of these three surveys, the system will collect data from each ISE-funded project about the project, its grant recipient and partner organizations, participants, activities, deliverables, and impacts. Information from the system will be used by ISE program officers to evaluate the collective impact of the ISE portfolio of funded projects, to monitor project-related activities and projects' progress over time, and to obtain information that can inform the design of future ISE projects.

**2. Expected Respondents**

The expected respondents are principal investigators of any ISE projects that have been funded since 2004.

**3. Burden on the Public**

The average annual reporting burden for the baseline and final reports is approximately 40 hours, and the reporting burden for the annual report is approximately 24 hours. The total elements will be 4,560 burden hours for an average number of 150 respondents per year. The burden on the public is negligible because the collection is limited to project participants that have received funding from the ISE program.

Dated: April 29, 2009.

**NATIONAL SCIENCE FOUNDATION**

**Advisory Committee for Cyberinfrastructure; Notice of Meeting**

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

*Name:* Advisory Committee for Cyberinfrastructure (25150).

*Date and Time:* June 2, 2009, 10 a.m.—5 p.m.; June 3, 2009, 8:30 a.m.—1 p.m.

*Place:* National Science Foundation, 4201 Wilson Blvd., Room 1235, Arlington, VA 22230.

*Type of Meeting:* Open.

*Contact Person:* Kristen Oberright, Office of the Director, Office of Cyberinfrastructure (OD/OCI) National Science Foundation, 4201 Wilson Blvd., Suite 1145, Arlington, VA 22230, *Telephone:* 703-292-8970.

*Minutes:* May be obtained from the contact person listed above.

*Purpose of Meeting:* To advise NSF on the impact of its policies, programs and activities on the CI community. To provide advice to the Director/NSF on issues related to long-range planning, and to form ad hoc subcommittees to carry out needed studies and tasks.

*Agenda:* Report from the Director. Discussion of CI research initiatives, education, diversity, workforce issues in CI and long-range funding outlook.

Dated: April 29, 2009.
