**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Administration on Aging**

**Agency Information Collection Activities; Submission for OMB Review; Comment Request; State Annual Long-Term Care Ombudsman Report and Instructions**

**AGENCY:** Administration on Aging, HHS.  
**ACTION:** Notice.

**SUMMARY:** The Administration on Aging (AoA) is announcing that the proposed collection of information listed below has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

**DATES:** Submit written comments on the collection of information by June 4, 2009.

**ADDRESSES:** Submit written comments on the collection of information by fax 202-395-6974 to the OMB Desk Officer for AoA, Office of Information and Regulatory Affairs, OMB.

**FOR FURTHER INFORMATION CONTACT:** Sue Wheaton, telephone: (202) 357-3587; e-mail: sue.wheaton@aoa.gov.

**SUPPLEMENTARY INFORMATION:** In compliance with 44 U.S.C. 3507, AoA has submitted the following proposed collection of information to OMB for review and clearance.

States provide the following data and narrative information in the report:

1. Numbers and descriptions of cases filed and complaints made on behalf of long-term care facility residents to the statewide ombudsman program;

2. Major issues identified impacting on the quality of care and life of long-term care facility residents;

3. Statewide program operations; and

4. Ombudsman activities in addition to complaint investigation.  
The report form and instructions have been in continuous use, with minor modifications, since they were first approved by OMB for the FY 1995 reporting period. This request is for approval to extend use of the current form and instructions, with no modifications, for three years, covering the FY 2009-2011 reporting periods.

The data collected on complaints filed with ombudsman programs and narrative on long-term care issues provide information to Centers for Medicare and Medicaid Services and others on patterns of concerns and major long-term care issues affecting residents of long-term care facilities. Both the complaint and program data collected assist the states and local ombudsman programs in planning strategies and activities, providing training and technical assistance and developing performance measures.

A reporting form and instructions may be viewed in the ombudsman section of the AoA Web site, <http://www.aoa.gov>.

AoA estimates the burden of this collection and entering the report information as follows: Approximately 10,310 hours, with 52 State Agencies on Aging responding annually.

Dated: April 28, 2009.

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Administration for Children and Families**

**Submission for OMB Review; Comment Request**

*Title:* Mentoring Children of Prisoners Relationship Quality Survey.

*OMB No.:* 0970-0308.

*Description:* The Promoting Safe and Stable Families Amendments of 2001 (Pub. L. 107-133) amended Title IV-B of the Social Security Act (42 U.S.C. 629-629e) to provide funding for nonprofit agencies that recruit, screen, train, and support mentors for children with an incarcerated parent or parents. The Family and Youth Services Bureau (FYSB) of the Administration for Children and Families, United States Department of Health and Human Services, administers the Monitoring Children of Prisoners (MCP) program. The MCP program creates lasting, high-quality one-to-one mentoring relationships that provide young people with caring adult role models. The quality of these relationships is an important indicator of success in mentoring programs. Previous research has shown an association between high-quality mentoring relationships and positive changes in youth behavior associated with positive youth benefits, such as improved school attendance,

reductions in risk behavior, and other benefits.

The Relationship Quality Instrument consists of 15 rigorously field-tested questions about the relationship, plus several questions that establish context (age, gender, duration of relationship and frequency of contacts, etc.). The answers to the questions help assess how satisfied the youth (mentee) is with the relationship; whether the mentee is happy in the relationship; whether the mentee trusts the mentor; and whether the mentor has helped the mentee to

cope with problems. Researchers in the field of mentoring have tested and validated the questions.

FYSB requires grantees receiving funding to provide information that can be used to evaluate outcomes for participating children. FYSB will use the information provided by the instrument to assure effective service delivery and program management and to guide the development of national monitoring and technical assistance systems. Finally, FYSB will use data from this collection for reporting

program outcomes to Congress in the FY 2006 Performance Report during the budget process and as the basis for outcome evaluation of the program over the long term.

Rhodes J., Reddy, R., Roffman, J., and Grossman J.B. (March, 2005). Promoting Successful Youth Mentoring Relationships: A Preliminary Screening Questionnaire. *The Journal of Primary Prevention*, 26:2, 147–167.

*Respondents:* Public, community- and faith-based organizations receiving funding to implement the MCP program.

**ANNUAL BURDEN ESTIMATES**

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Relationship Quality Instrument for Mentoring Children of Prisoners Program .....	215	1	116	24,940

*Estimated Total Annual Burden Hours: 24,940.*

**Additional Information**

Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Administration, Office of Information Services, 370 L'Enfant Promenade, SW., Washington, DC 20447, *Attn:* ACF Reports Clearance Officer. All requests should be identified by the title of the information collection. *E-mail address:* [infocollection@acf.hhs.gov](mailto:infocollection@acf.hhs.gov).

**OMB Comment**

OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project. *Fax:* 202–395–7245. *Attn:* Desk Officer for the Administration for Children and Families.

Dated: April 29, 2009.

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**National Institutes of Health**

**Master Plan for Rocky Mountain Laboratories Record of Decision**

**ACTION:** Notice.

**SUMMARY:** The National Institutes of Health (NIH), an operating division of the Department of Health and Human Services (HHS), has decided, after completion of a Final Environmental Impact Statement (FEIS) and a thorough consideration of the public comments on the Draft EIS and the Final EIS, to implement the Proposed Action, which is identified as the Preferred Alternative in the FEIS. This action involves the establishment of a long-range physical Master Plan for Rocky Mountain Laboratories (RML) in Hamilton, Montana to guide future development of the campus. This alternative accounts for potential growth in RML personnel, possible land acquisitions, and consequent construction of new administrative and research-related space over the 20-year planning period.

**FOR FURTHER INFORMATION CONTACT:** Valerie Nottingham, Chief of the Environmental Quality Branch, Division of Environmental Protection, Office of Research Facilities Development and Operations, NIH, Building 13, Room 2S11, 9000 Rockville Pike, Bethesda, MD 20892, Fax 301–480–8056, e-mail [nihnepa@mail.nih.gov](mailto:nihnepa@mail.nih.gov).

**SUPPLEMENTARY INFORMATION:**

**Decision**

After careful review of the environmental consequences in the FEIS for the Master Plan, Rocky Mountain Laboratories, and consideration of public comment throughout the NEPA process, the NIH has decided to implement the Proposed Action, described below as the Selected Alternative.

**Selected Alternative**

The Selected Alternative is intended to be a strategic tool for the efficient allocation of campus resources, the orderly accommodation of future growth, and the creation of an environment, which is both functionally and aesthetically conducive to accomplishing the RML mission. The Selected Alternative will provide a guide for the reasoned and orderly development of the RML campus, one that values and builds on existing resources, corrects current deficiencies and meets changing needs through new construction or renovations. The plan sets forth implementation priorities and a logical sequencing of planned development.

The Selected Alternative involves the establishment of a long-range physical Master Plan for RML. This alternative covers a 20-year planning period, with reviews every 5 years to ensure that the plan continues to address planning and development related issues affecting the campus. The alternative addresses the future development of the RML site, including placement of future construction; vehicular and pedestrian circulation on and off-campus; parking within the property boundaries; open
