BILLING CODE 9111-28-P

DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary; Published Privacy Impact Assessments on the Web

AGENCY: Privacy Office, DHS.

ACTION: Notice of Publication of Privacy
Impact Assessments.

SUMMARY: The Privacy Office of the
Department of Homeland Security is
making available four Privacy Impact
Assessments on various programs and
systems in the Department. These
assessments were approved and
published on the Privacy Office's Web
site between January 1, 2009, and March
31, 2009.

DATES: The Privacy Impact Assessments
will be available on the DHS Web site
until July 6, 2009, after which they may
be obtained by contacting the DHS
Privacy Office (contact information
below).

FOR FURTHER INFORMATION CONTACT:
Mary Ellen Callahan, Chief Privacy
Officer, Department of Homeland
Security, Washington, DC 20528, or e-
mail: pia@dhs.gov.

SUPPLEMENTARY INFORMATION: Between
January 1, 2009, and March 31, 2009,
the Chief Privacy Officer of the
Department of Homeland Security
(DHS) approved and published four
Privacy Impact Assessments (PIAs) on
the DHS Privacy Office Web site,
<http://www.dhs.gov/privacy>, under the
link for "Privacy Impact Assessments."
These PIAs cover four separate DHS
programs. Below is a short summary of
those programs, indicating the DHS
component responsible for the system,
and the date on which the PIA was
approved. Additional information can
be found on the Web site or by
contacting the Privacy Office.

System: Correspondence Handling
and Management Planning System.

Component: U.S. Citizenship and
Immigration Services.

Date of approval: January 13, 2009.

The U.S. Citizenship and Immigration
Service (USCIS), Texas Service Center
developed the Correspondence
Handling and Management Planning
System (CHAMPS). The CHAMPS
system is designed to facilitate
workflow management, production
evaluation, and time and attendance

functions. USCIS conducted this PIA
because CHAMPS collects and uses
personally identifiable information (PII).
System: Directory Services and Email
System.

Component: DHS Wide.

Date of approval: January 14, 2009.

The U.S. Coast Guard manages and
operates the Directory Services
Electronic Mail System (DSES). DSES
currently handles all e-mail traffic in,
out, and between DHS, its Components,
and the Internet, and provides a
directory of users' official contact
information. This PIA was conducted to
assess the risks associated with the
processing, storage, and transmission of
PII within the DSES system.

System: Maryland 3.

Component: Transportation Security
Administration.

Date of approval: February 20, 2009.

The Transportation Security
Administration (TSA) conducts name-
based Security Threat Assessments
(STA) and fingerprint-based Criminal
History Records Checks (CHRCs) on
pilots who operate aircraft and apply for
privileges to fly to or from the three
General Aviation airports in the
Washington, DC restricted flight zones
(Potomac Airfield, Washington
Executive/Hyde Field, and College Park
Airport), otherwise known as the
Maryland Three (MD-3) program, and
for the Airport Security Coordinator
(ASC) at a MD-3 airport. For the STA
process, TSA compares the biographical
information of these pilots and ASCs,
hereafter referred to as individuals,
against Federal terrorist, immigration,
and law enforcement databases. For the
CHRC, TSA forwards the fingerprints to
the Federal Bureau of Investigation,
which conducts fingerprint-based
CHRCs on individuals.

System: Department of Homeland
Security General Contact List.

Component: DHS Wide.

Date of approval: March 27, 2009.

Many DHS operations and projects
collect a minimal amount of contact
information in order to distribute
information and perform various other
administrative tasks. Department
Headquarters conducted this PIA
because contact lists contain PII. The
Department added the following
systems to this PIA:

- National Protection and Programs
Directorate Vehicle-Borne Explosive
Device (VBIED) Training.

- U.S. Coast Guard 2009 World
Maritime Day Parallel Event.

- Transportation Security
Administration Inquiry Management
System (IMS).

- Science and Technology Project
Execution System.

- Science and Technology Multi-
Band Radio Project.

- United States Citizenship and
Immigration Services Teachers of
English to Speakers of Other Languages
(TESOL) Conference Booth Follow Up
List.

- DHS Sunflower Asset Management
System (SAMS).

- United States Citizenship and
Immigration Services Customer Service
Portal Alert by Mail.

- United States Citizenship and
Immigration Services Customer Service
Portal Forms by Mail.

- U.S. Coast Guard Navigation
Systems Information Dissemination
Network (NSIDN).

- U.S. Coast Guard List Server
(CGLS).
