[Order No. 1610]

Grant of Authority for Subzone Status; Marinette Marine Corporation (Shipbuilding); Marinette, WI

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Foreign-Trade Zones Act provides for “* * * the establishment * * * of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes,” and authorizes the Board to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs and Border Protection ports of entry;

Whereas, the Board's regulations (15 CFR Part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved, and when the activity results in a significant public benefit and is in the public interest;

Whereas, Brown County, Wisconsin, grantee of FTZ 167, has made application for authority to establish special-purpose subzone status at the shipbuilding facility of Marinette Marine Corporation (MMC), located in Marinette, Wisconsin (FTZ Docket 33-2008, filed 5-12-2008);

Whereas, notice inviting public comment was given in the **Federal Register** (73 FR 28430, 5-16-2008); and,

Whereas, the Board adopts the findings and recommendations of the

examiner's report, and finds that the requirements of the FTZ Act and Board's regulations would be satisfied, and that approval of the application would be in the public interest if approval were given subject to the standard shipyard restriction on foreign steel mill products;

Now, therefore, the Board hereby grants authority for subzone status for activity related to shipbuilding and repair at the shipyard of Marinette Marine Corporation in Marinette, Wisconsin (Subzone 167D), at the location described in the application, subject to the FTZ Act and the Board's regulations, including Section 400.28, and subject to the following special conditions:

1. Any foreign steel mill product admitted to the subzone, including plate, angles, shapes, channels, rolled steel stock, bars, pipes and tubes, not incorporated into merchandise otherwise classified, and which is used in manufacturing, shall be subject to customs duties in accordance with applicable law, unless the Executive Secretary determines that the same item is not then being produced by a domestic steel mill.

2. MMC shall meet its obligation under 15 CFR 400.28(a)(3) by annually advising the Board's Executive Secretary as to significant new contracts with appropriate information concerning foreign purchases otherwise dutiable, so that the Board may consider whether any foreign dutiable items are being imported for manufacturing in the zone primarily because of FTZ procedures and whether the Board should consider requiring customs duties to be paid on such items.

Acting Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

National Institute of Standards and Technology

National Fire Codes: Request for Comments on NFPA Technical Committee Reports

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: Since 1896, the National Fire Protection Association (NFPA) has accomplished its mission by advocating scientifically based consensus codes and standards, research, and education for safety related issues. NFPA's *National Fire Codes®*, which hold over 290 documents, are administered by

more than 238 Technical Committees comprised of approximately 7,200 volunteers and are adopted and used throughout the world. NFPA is a nonprofit membership organization with approximately 80,000 members from over 70 nations, all working together to fulfill the Association's mission.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and that take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The Code Revision Process contains five basic steps that are followed for developing new documents as well as revising existing documents: Call for Proposals; Report on Proposals (ROP); Call for Comments on the Committee's Disposition of the Proposals and publication of these Comments in the Report on Comments (ROC); the Association Technical Meeting at the NFPA Conference & Expo; and finally, the Standards Council Consideration and Issuance of documents.

Note: NFPA rules state that anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal his or her intention by submitting a Notice of Intent to Make a Motion by the Deadline of 5 p.m. EST/EDST on or before April 9, 2010. Certified motions will be posted by May 7, 2010. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the Annual 2010 Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance at its June 1, 2010 meeting.

For more information on these new rules and for up-to-date information on schedules and deadlines for processing NFPA Documents, check the NFPA Web site at www.nfpa.org, or contact NFPA Codes and Standards Administration.

The purpose of this notice is to request comments on the technical reports that will be presented at NFPA's 2010 Annual Revision Cycle. The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

DATES: Twenty-four reports are published in the 2010 Annual Cycle Report on Proposals and will be
