

when there are few synergies to be captured by combining licenses.

38. For Auction 86, it is not possible to combine licenses across multiple frequency blocks in a given geographic area, and opportunities for combining licenses in adjacent areas are somewhat limited, so there is likely to be little need to use withdrawals to protect against incomplete aggregations. Therefore, the Bureau proposes to establish the percentage of the withdrawn bid to be assessed as an interim bid withdrawal payment at fifteen percent for this auction. The Bureau seeks comment on this proposal.

ii. Establishing the Additional Default Payment Percentage

39. Any winning bidder that, after the close of an auction, defaults—by, for example, failing to remit the required down payment within the prescribed period of time, to submit a timely long-form application, or to make full payment—or is otherwise disqualified is liable for a default payment under 47 CFR 1.2104(g)(2). This payment consists of a deficiency payment, equal to the difference between the amount of the bidder's bid and the amount of the winning bid the next time a license covering the same spectrum is won in an auction, plus an additional payment equal to a percentage of the defaulter's bid or of the subsequent winning bid, whichever is less.

40. As previously noted by the Commission, defaults weaken the integrity of the auctions process and impede the deployment of service to the public. Given the nature of the service and the inventory of the licenses being offered in Auction 86, the Bureau believes that an additional default payment percentage of fifteen percent will provide a sufficient deterrent to defaults. Accordingly, the Bureau proposes an additional default payment of fifteen percent of the relevant bid for Auction 86 and seeks comment on this proposal.

III. Commission *ex parte* Rules

41. This proceeding has been designated as a permit-but-disclose proceeding in accordance with the Commission's *ex parte* rules. Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentations must contain summaries of the substance of the presentations and not merely a listing of the subjects discussed. More than a one or two sentence description of the views and arguments presented is generally required. Other rules pertaining to oral and written *ex parte* presentations in

permit-but-disclose proceedings are set forth in 47 CFR 1.1206(b).

Individuals may also nominate themselves to make a 3-minute statement before the Coordinating Council. In addition, individuals may submit written statements for the Coordinating Council's consideration, regardless of whether individuals are chosen to give an oral statement. The Coordinating Council does request that individuals nominating themselves to make an oral statement make every effort to be present to give their statement in person. However, to facilitate hearing as many different viewpoints as possible, consideration will be given to individuals who would make their oral statements via audioconference.

Oral statements, as well as written statements submitted for the Coordinating Council's consideration, should address the following kinds of questions:

- How can the Coordinating Council best foster integration of these activities across the programs managed by the Departments of Health and Human Services, Defense, and Veterans Affairs?
- What steps should the Coordinating Council consider to help ensure that public- and private-sector efforts in the area of comparative effectiveness research are mutually supportive?
- What information on the Coordinating Council's activities would be most useful?

The Office of the Secretary requests that interested persons register to participate and indicate (a) whether they will attend in person, view the Coordinating Council's meeting over the Internet, or listen by audioconference; (b) whether they are nominating themselves to give a 3-minute oral statement; and/or, (c) if they intend to submit a written statement for the Coordinating Council to consider.
