

shall remain in effect for the life of those Vehicles.

B. The stay shall apply only to the following types of original equipment parts for Youth Motorized Recreational Vehicles: battery terminals containing up to 100 percent lead, and components made with metal alloys, including steel containing up to 0.35 percent lead, aluminum with up to 0.4 percent lead, and copper with up to 4.0 percent lead.

C. The stay shall also apply to any metal part sold separately as a replacement for one of the parts described above, provided that the lead content in the replacement part is less than or equal to the lead content in the part originally installed on the Vehicles.

D. Each manufacturer (which can include a distributor where appropriate) who is covered by the stay shall file with the Secretary of the Commission, not later than 60 days after the publication of this stay in the Federal Register, a report identifying each model of Youth Motorized Recreational Vehicles it has produced between March 1, 2008 and March 1, 2009. For each such model, the manufacturer shall give the production volume by calendar month and shall list each component part that is made of metal and that is accessible to children, the material specification for each part, and a measurement of the lead content of representative samples of each part in parts per million (ppm). The lead content measurement may be by x-ray fluorescence or the method posted on the Commission Web site to test for lead in metal for certification purposes.

E. No later than November 1, 2009, each manufacturer covered by the stay shall present a comprehensive plan to the Commission describing how and when it intends to reduce the lead exposure from each part described in paragraph D above whose measured lead content exceeds 300 parts per million. The plan shall set forth the steps the manufacturer intends to take to limit children's lead exposure in future production and an estimated schedule for achieving such reductions. The manufacturer should include a discussion of any adverse safety impacts that could result from accelerating the estimated schedule. If some Vehicles have been modified after January 27, 2009, to reduce the lead content of certain parts or to make certain parts inaccessible, the manufacturer should outline those changes in general terms and the dates such changes were made.

F. Manufacturers who have timely submitted both the report in paragraph D and the plan in paragraph E above, who need additional time to complete their plan prior to the expiration of the

stay may seek an extension of the stay. They shall, no later than December 1, 2010, file a request with the Secretary of the Commission for an extension containing all of the information described in paragraph D above, including an update of the production volume by month for each previously listed model and for any new youth model introduced after the date of the prior report, lead content measurements taken within 90 days of the report submission for each part to be subject to the stay extension and a revised timetable for the reduction of lead exposure from those parts. The report shall detail the manufacturer's progress in reducing children's exposure to lead from each part containing more than 300 ppm, specifying what actions have been taken with regard to each affected part. The report will also explain why any parts that remain above 300 ppm have not able to be made inaccessible, substituted with another material, or made with a complying level of lead.

G. Any report submitted under paragraph F shall also identify the Youth Motorized Recreational Vehicles by model that the manufacturer intends to produce on or after May 1, 2011. The manufacturer shall provide a listing of each component part that is expected to be used in the production Vehicles if its lead content is expected to exceed 100 ppm and will be accessible to children. For each such part the manufacturer shall explain why it is not feasible to make the part inaccessible or why it is not technologically feasible to reduce the lead content to 100 ppm or lower.

H. While the stay is in effect for particular Vehicles, the Office of Compliance shall not prosecute any person for any violation of laws administered by the Commission based on the lead content of any part of, or replacement part for, those Vehicles to which the stay applies, including provisions relating to certification of compliance, reporting of noncompliances, or the sale, offering for sale, importation or exportation.

I. While the stay is in effect for particular Vehicles, the Commission will not refuse admission into the United States of such Vehicles based on the lead content of any part of such Vehicles to which the stay applies or any replacement part for such Vehicles as described in paragraph C.

J. This stay does not apply to Vehicles that are stockpiled by the manufacturer. Stockpiling shall be determined on a model-by-model basis. Vehicles shall be deemed to be stockpiled if their production in the six-month period ending on April 30, 2011 exceeds by more than fifteen percent the

production of that model or its predecessor during the six-month period ending on April 30, 2010. The production of new models must not exceed by more than fifteen percent the production of similar models by the same manufacturer.

K. The Commission hereby delegates to the Assistant Executive Director, Office of Compliance and Field Operations, authority to implement the stay of enforcement as specified here and the authority to modify provisions in individual cases where necessary due to unique or unforeseen circumstances.

The stay in no way limits the Commission's ability to take action with regard to Youth Motorized Recreational Vehicles for other safety-related issues including, but not limited to, failure to comply with the ban on lead-containing paint or with the American National Standard for Four Wheel All-Terrain Vehicles Equipment Configuration, and Performance Requirements developed by the Specialty Vehicle Institute of America effective on April 13, 2009 and the requirement to comply in all respects with an action plan on file with the Commission as set forth in the CPSIA.

Dated: May 1, 2009.

Todd A. Stevenson,
Secretary, Consumer Product Safety Commission.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before July 13, 2009.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or

Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: May 7, 2009.

Angela C. Arrington,
Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management.

Institute of Education Sciences

Type of Review: Revision.

Title: Evaluation of Moving High-Performing Teachers to Low-Performing Schools.

Frequency: On occasion.

Affected Public: Individuals or household; Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 494.

Burden Hours: 825.

Abstract: This is the second submission of a two-stage clearance request for approval of data collection activities that will be used to support An Impact Evaluation of Moving High-Performing Teachers to Low-Performing Schools. The evaluation aims to estimate the impact of a program, labeled the Talent Transfer Initiative (TTI) program, on student achievement. This program identifies teachers with consistently high performance using value-added student learning gains and offers them monetary incentives to

transfer to schools identified as low-performing based on average student test scores.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 4024. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., LBJ, Washington, DC 20202-4537. Requests may also be electronically mailed to ICDocketMgr@ed.gov or faxed to 202-401-0920. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Burden Hours: 53.

Abstract: The What Works Clearinghouse (WWC) Registry of Randomized Controlled Trials (RCTs) allows members of the public to review and submit information relating to Randomized Controlled Trials in the field of education. Primary members of the affected public include individuals or households. Data from the submissions will be used to further populate the Registry of RCTs for the WWC.
