

**Nature of Decision To Be Made**

The Forest Supervisor will use the EIS process to develop the necessary information to make an informed decision on whether or not to approve the proposed Plan as submitted, or to decide what additional mitigations are needed to protect other resources as provided for in 36 CFR 228.8.

**Scoping Process**

Scoping will include this NOI, listing in the Quarterly Schedule of Proposed Actions, letters to interested and affected individuals, agencies, and organizations, and legal notices, and the open houses in Grants and Gallup, New Mexico. Additional information about the project, schedule, permits and approvals, and opportunities for public involvement will be available at the open houses. The intent of scoping is to solicit comments on issues and alternatives that agencies and the public feel should be addressed in the EIS.

**Preliminary Issues**

One preliminary issue has been identified: the development of the La Jara Mesa Mine may affect the characteristics that make the Mount Taylor Traditional Cultural Property eligible for the National Register of Historic Places. Other issues may include groundwater contamination, natural resources, economics and health and safety issues.

**Permits or Licenses Required**

The approved Plan of Operations authorizes mining. Operations must be consistent with Forest Service Conditions of Approval, and other applicable laws and regulations, including state permits for mining in New Mexico.

**Comment Requested**

This notice of intent initiates the scoping process which guides the development of the environmental impact statement. Comments are solicited and are welcome for the 30 day comment period initiating on the publication date of this notice.

It is important that reviewers provide their comments at such times and in such a way that they are useful to the Agency's preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. The submission of timely and specific comments can affect a reviewer's ability to participate in subsequent administrative review or judicial review.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the respondent with standing to participate in subsequent administrative review or judicial review.
