If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: At the end of your project period, you must submit a final performance report, including financial

information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. Performance Measures: Under the Government Performance and Results Act of 1993 (GPRA), the Department has established three performance measures for the Vocational Rehabilitation Services Projects for American Indians with Disabilities program. The measures are (1) the percentage of individuals who leave the program with an employment outcome, (2) the percentage of projects that demonstrate an average annual cost per employment outcome of no more than \$35,000, and (3) the percentage of projects that demonstrate an average annual cost per participant of no more than \$10,000. Each grantee must annually report its performance on these measures through the Annual Progress Reporting Form for the American Indian Vocational Rehabilitation Services program (APR Form).

Job Training and Employment Common Measures

In addition, this program is part of the job training and employment common measures initiative. The common measures for job training and employment programs targeting adults are (1) entered employment (percentage employed in the first quarter after program exit); (2) retention in employment (percentage of those employed in the first quarter after exit that were still employed in the second and third quarter after program exit); (3) average weekly earnings (average earnings of those participants who are employed in the first, second, and third quarters after the exit quarter); and (4) the annual cost per participant.

The AIVRS Annual Progress Reporting Form, approved by the Office of Management and Budget (OMB) on September 5, 2008, has been revised to collect data needed to assess the Vocational Rehabilitation Services Projects for American Indians with Disabilities program's performance on supplemental measures that are comparable to the job training and employment common measures. Each grantee will be required to collect the report data for these supplemental measures as part of the annual

performance report requirement, including information on: (1) The number of individuals whose case record has not been closed, but have not received project services for 90 consecutive calendar days, (2) the number of eligible individuals who were employed three months after achieving the employment outcome, (3) the number of eligible individuals who were employed six months after achieving an employment outcome, (4) the average weekly earnings at entry, and (5) the average weekly earnings of the individuals whose employment outcomes resulted in earnings.

Note: For purposes of this section VI. 4., the term "employment outcome" has the meaning provided in 34 CFR 369.4.

DEPARTMENT OF ENERGY

Western Area Power Administration

Transmission Infrastructure Program

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Program.

SUMMARY: The Western Area Power Administration (Western) hereby announces its Transmission Infrastructure Program (Program). The Program implements section 402 of the American Recovery and Reinvestment Act of 2009 (Recovery Act) for the purpose of constructing, financing, facilitating, planning, operating, maintaining, or studying construction of new or upgraded electric power transmission lines and related facilities with at least one terminus within the area served by Western, and for delivering or facilitating the delivery of power generated by renewable energy resources constructed or reasonably expected to be constructed after the date this section was enacted. The Program will use authority granted under this section to borrow funds from the U.S. Treasury Department to accomplish these purposes.

DATES: The Program is effective upon May 14, 2009.

FOR FURTHER INFORMATION CONTACT:

Please contact Transmission Infrastructure Program, Western Area Power Administration, P.O. Box 281213, Lakewood, CO 80228-8213, e-mail txprogram@wapa.gov. The Program is also available on Western's Web site at <http://www.wapa.gov/recovery>.

SUPPLEMENTARY INFORMATION:

Background

Western markets and transmits wholesale hydroelectric power generated at Federal dams across the western United States. This power is sold to customers in accordance with Federal law. Western's transmission system was developed to deliver the Federal hydro-power to those

customers. Western owns and operates an integrated 17,000 circuit-mile, high-voltage transmission system and markets power across 15 western states and a 1.3 million square-mile service area. Western's service area encompasses all of the following states: Arizona, California, Colorado, Nebraska, Nevada, New Mexico, North Dakota, South Dakota, Utah, and Wyoming; as well as parts of Iowa, Kansas, Montana, Minnesota, and Texas. Today, Western makes capacity on its transmission system excess to that needed to serve its preference customers available through the policies and procedures outlined in its Open Access Transmission Tariff (OATT). Western offers nondiscriminatory access to its transmission system, including requests to interconnect new generating resources to that transmission system under its OATT on file with the Federal Energy Regulatory Commission (FERC).

Western sought public comment on the proposed principles, policies and practices it will use to implement its new Recovery Act authority in a 30-day consultation and comment period as announced in a March 4, 2009, **Federal Register** notice (74 FR 9391). A formal public comment forum was held in Lakewood, Colorado, on March 23, 2009, and a transcript and meeting video were made available through Western's external Web site at <http://www.wapa.gov/recovery>. Western received comments from 40 customers and other stakeholders. All comments were reviewed and, where appropriate, incorporated into the Program. The Discussion of Comments section provides Western's response to the comments. Where possible, comments and related responses were consolidated. In defining the proposed Program, Western identified a series of principles to provide overarching guidance. Western further identified a series of policies and practices it will follow in implementing the Program. Those principles, policies and practices are set forth in this notice.

With this notice, Western is making its Program effective upon publication in the **Federal Register**. The procedures and statements of policies set forth in Western's Program are consistent with the Recovery Act and other statutes, and the Program does not include additional substantive requirements. Therefore, Western's program is not subject to the Administrative Procedure Act's delayed effective date provision (5 U.S.C. 553(d)).

Discussion of Comments

Western received 40 submittals related to its proposed Program. To
