ACTION: Notice.

SUMMARY: Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture (defined by statute to include import) a new chemical (i.e., a chemical not on the TSCA Inventory) to notify EPA and comply with the statutory provisions pertaining to the manufacture of new chemicals. Under sections 5(d)(2) and 5(d)(3) of TSCA, EPA is required to publish a notice of receipt of a premanufacture notice (PMN) or an application for a test marketing exemption (TME), and to publish periodic status reports on the chemicals under review and the receipt of notices of commencement to manufacture those chemicals. This status report, which

covers the period from April 13, 2009 through April 24, 2009, consists of the PMNs and pending or expired, and the notices of commencement to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

DATES: Comments identified by the specific PMN number or TME number, must be received on or before June 19, 2009.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; extension of comment period.

SUMMARY: The U.S. Environmental Protection Agency ("EPA"), in response to many requests from the public, is extending the public comment period on the waiver application to increase the allowable ethanol content of gasoline to 15 percent ("E15") which was submitted by Growth Energy and 54 ethanol manufacturers on March 6, 2009. EPA published notice of receipt and request for comment in the **Federal Register** for Growth Energy's application on April 21, 2009 (74 FR 18228). The public comment period was to end on May 21, 2009. The purpose of this document is to extend the comment period an additional 60 days until July 20, 2009. This extension of the comment period is provided to allow the public additional time to respond to the legal and technical issues raised in the application. This action does not extend the 270-day statutory deadline for the Administrator to grant or deny the E15 waiver request, which ends on December 1, 2009.

SUPPLEMENTARY INFORMATION:**Background**

On March 6, 2009, Growth Energy and 54 ethanol manufacturers submitted an application to the U.S. Environmental Protection Agency for a waiver of the prohibition of the introduction into commerce of certain fuels and fuel additives set forth in section 211(f) of the Clean Air Act ("the Act"). This application seeks a waiver for ethanol-gasoline blends of up to 15 percent by volume ethanol ("E15"). On April 21, 2009, EPA published notice for the receipt of the application, and, as required by section 211(f)(4) of the Act, EPA requested public comment on all aspects of the waiver application that will assist the Administrator in determining whether the statutory basis for granting the waiver request for ethanol-gasoline blends containing up to E15 has been met (See 74 FR 18228). EPA originally provided a 30-day period for the public to respond. The deadline for public comment was May 21, 2009.

In a letter dated April 17, 2009, the National Corn Growers Association requested a 60-day extension to the comment period. On April 27, 2009, EPA received a request from 36 national organizations who stated they represent a diverse cross-section of interests and who requested a 60-day extension to the comment window. Also on April 27, 2009, the Alliance of Automobile Manufacturers requested a 45-day extension. Finally, on May 6, 2009, AllSAFE—a group of national consumer, manufacturing, and gasoline retailer associations that utilize gasoline and ethanol fuel blends—requested a minimum 30-day extension to the comment period. In general, these parties stated that additional time would be needed in order to allow
