DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XL85

Notice of Availability of a Final Environmental Impact Statement/ Environmental Impact Report for the Proposed Replacement of the National Oceanic and Atmospheric Administration's Southwest Fisheries Science Center Located in La Jolla, CA

AGENCY: National Marine Fisheries Service, National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Availability.

SUMMARY: In accordance with provisions of the National Environmental Policy Act of 1969 (NEPA), NOAA announces the availability of the joint Final EIS/EIR analyzing the environmental impacts of replacing the Southwest Fisheries Science Center (SWFSC). This Final EIS/EIR is prepared pursuant to NEPA to assess the environmental impacts of replacing the existing SWFSC buildings with a new facility located on campus of the Scripps Institution of Oceanography (SIO) within the University of California at San Diego (UCSD) campus in La Jolla, California. The Final EIS/EIR includes consideration of all comments received during the official comment period for the Draft EIS/EIR. The Final EIS/EIR has been distributed to interested parties and responsible government agencies.

DATES: Any written comments on the Final EIS/EIR must be postmarked or

transmitted to the responsible official below by June 19, 2009.

FOR FURTHER INFORMATION CONTACT: Paul N. Doremus, Ph.D, NOAA, 301 713–3372 x180, or Anne Elston, Environmental Research Analyst, 333 Ravenswood Avenue, G 234, Menlo Park, CA 94025–3493, SRI International (650) 859–2693; e-mail *Anne.Elston@sri.com*. NOAA is not required to respond to comments received as a result of issuance of the Final EIS/EIR; however comments will be reviewed and considered for their impact on issuance of the Record of Decision (ROD).

SUPPLEMENTARY INFORMATION: The National Marine Fisheries Services (NMFS) is responsible for the management, conservation, and protection of living marine resources within the U.S. Exclusive Economic Zone. The SWFSC in La Jolla, California, manages and conducts research involving Pacific fisheries and marine mammal research for the protection and management of these resources throughout Western Pacific and Antarctica. The existing SWFSC facility, built in 1964, is currently adjacent to a coastal bluff that is undergoing severe erosion and retreat. NOAA proposes to construct a new SWFSC building to replace its existing NMFS administrative and marine research facilities currently located in La Jolla, California. A minimum of two existing at-risk SWFSC structures would be removed and the property currently used by NOAA would be returned to UCSD for other appropriate uses.

NOAA is the lead Federal agency for implementation of the NEPA. The University of California is the lead agency under the CEQA. The existing and preferred sites for the SWFSC headquarters are at the UCSD campus. The NMFS, SIO and other marine research organizations conduct independent and joint research at the SWFSC and its salt water laboratory facilities.

The proposed action would require construction of a new facility to support SWFSC administrative and marine research operations. The preferred site will enable NMFS, SIO, and others to continue collaboration within a wide range of programmatic marine research disciplines.

Alternative actions analyzed in the Final EIS/EIR include:

- Bluff stabilization
- On-site redevelopment
- On- and near-site redevelopment
- Off-site development at SIO Deep Sea Drilling Site
- Off-site development at UCSD Hillside Neighborhood Site

- Leased office and research space
- Collocation of SWFSC with other existing NOAA facilities
- No Action

This joint Final EIS/EIR analyzes environmental impacts that may result from implementation of the proposed and alternative actions and identifies measures to avoid or reduce the intensity of environmental impacts.

Decision Process

The government decision as to how to proceed will be announced in a Record of Decision (ROD) to be issued no earlier than 30 days after publication of this NOA.

Dated: May 13, 2009.

William F. Broglie,

Chief Administrative Officer, National Oceanic and Atmospheric Administration.

BILLING CODE 3510–12–S

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 1621]

Grant of Authority for Subzone Status; Michelin North America, Inc. (Tire Warehousing and Distribution); San Bernardino, CA

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Foreign-Trade Zones Act provides for “* * * the establishment * * * of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes,” and authorizes the Foreign-Trade Zones Board to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs and Border Protection ports of entry;

Whereas, the Board's regulations (15 CFR Part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved, and when the activity results in a significant public benefit and is in the public interest;

Whereas, the Board of Harbor Commissioners of the Port of Long Beach, grantee of FTZ 50, has made application to the Board for authority to establish special-purpose subzone status at the tire and tire accessories warehousing and distribution facility of Michelin North America, Inc., located in San Bernardino, California (FTZ Docket 38–2008, filed 5/28/2008);

Whereas, notice inviting public comment has been given in the **Federal Register** (73 FR 31812, 6/4/2008); and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations are satisfied, and that approval of the application is in the public interest;

Now, therefore, the Board hereby grants authority for subzone status for activity related to tire warehousing and distribution at the Michelin North America, Inc. facility located in San Bernardino, California (Subzone 50L), as described in the application and **Federal Register** notice, and subject to the FTZ Act and the Board's regulations, including Section 400.28.

Signed at Washington, DC, this 7th day of May 2009.

Ronald K. Lorentzen,

Acting Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Attest: Andrew McGilvray, Executive Secretary.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XP33

Marine Mammals; File No. 14352

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Dr. Gregory Bossart, Georgia Aquarium, 225 Baker Street, NW, Atlanta, Georgia 30313, has applied in due form for a permit to conduct research on bottlenose dolphins (*Tursiops truncatus*).

DATES: Written, telefaxed, or e-mail comments must be received on or before June 19, 2009.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the *Features* box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 14352 from the list of available applications.

These documents are also available upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 713-2289; fax (301) 427-2521;

Southeast Region, NMFS, 263 13th Avenue South, Saint Petersburg, Florida 33701; phone (727) 824-5312; fax (727) 824-5309.

Written comments on this application should be submitted to the Chief, Permits, Conservation and Education Division, at the address listed above. Comments may also be submitted by facsimile to (301) 427-2521, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits, Conservation and Education Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Carrie Hubbard or Kristy Beard, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant proposes to conduct health assessments of bottlenose dolphins in Florida's Indian River Lagoon system by capturing, sampling, and releasing up to 40 dolphins per year. Females with calves less than one year old would not be captured. Captured dolphins would receive a complete clinical workup including: measurements, weight, photographs, sample collection, freeze brand, and ultrasound. All captured animals would receive a roto tag. Up to ten animals per year would also receive a VHF tag. An experienced veterinarian would be on site during captures and the dolphins' vital signs would be closely monitored. Processing would take about forty minutes. Individual dolphins would only be sampled once per year. Samples would be analyzed to examine a variety of health topics such as: infectious diseases, immune status, contaminant exposure, antibiotic resistance, and genetics. An additional 400 dolphins per year may be harassed during pre- and post-capture surveys. Specific goals of the research are to: (1) evaluate dolphin health from individual, population, and comparative perspectives, (2) apply classical and novel methods and diagnostic tools to

detect and assess anthropogenic and environmental factors that affect dolphins, and (3) develop predictive models to evaluate conservation and management strategies. The permit would be valid for a period of five years.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: May 15, 2009.

P. Michael Payne,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: U.S. Department of Energy.

ACTION: Submission of Office of Management and Budget (OMB) review; comment request.

SUMMARY: The Department of Energy (DOE) has submitted an information request to the OMB for extension under the provisions of the Paperwork Reduction Act of 1995. The information collection requests a three-year extension of its Environment, Safety and Health reporting requirements, OMB Control Number 1910-0300. This information collection request covers information necessary to exercise management oversight and control over Management and Operating (M&O) contractors of DOE's Government-Owned Contractor-Operated (GOCO) facilities, and offsite contractors. The contractor management oversight and control function concerns the ways in which DOE contractors provide goods and services for DOE organizations and activities in accordance with the terms of their contract; the applicable statutory, regulatory and mission support requirements of the Department; and regulations in the functional area covered in this request. The basic authority for these collections is the statute establishing the Department of Energy ("Department of Energy Organization Act," Pub. L. 95-91, of August 4, 1977).

DATES: Comments regarding this proposed information collection must be received on or before June 19, 2009. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of
