include the name of the individual/ organization and the time (*i.e.*, between 6 and 9 p.m.) the oral comment will be provided. Individuals/organizations may also register to provide oral comments during the open-house meeting. Individual oral comments may be limited by the time available, depending on the number of persons who register.

Please note that if special equipment or accommodations are needed to attend or present information at either public meeting, the need should be brought to Mr. Michalak's attention no later than June 5, 2009, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the scope of the Nine Mile Point 3 Nuclear Power Plant COL environmental review to the Chief, Rulemaking and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this Federal Register notice. To ensure that comments will be considered in the scoping process, written comments must be postmarked by July 20, 2009. Electronic comments may be sent by email to the NRC at

NMP3.COLEIS@nrc.gov. Electronic submissions must be sent no later than July 20, 2009. Comments will be made available electronically and will be accessible through the NRC's Electronic Reading Room link *http://www.nrc.gov/ reading-rm/adams.html*. The NRC staff may, at its discretion, consider comments submitted after the end of the comment period.

Participation in the scoping process for the EIS does not entitle participants to become parties to the proceeding to which the EIS relates. A notice of hearing and opportunity to petition for leave intervene in the proceeding on the application for the COL will be published in a future **Federal Register** notice.

At the conclusion of the scoping process, the NRC staff will prepare a concise summary of the determinations, and conclusions reached on the scope of the environmental review including the significant issues identified, and will send this summary to each participant in the scoping process for whom the staff has an address. The staff will then prepare and issue for comment the draft EIS, which will be the subject of a separate **Federal Register** notice and a separate public meeting. Copies of the draft EIS will be available for public inspection at the PDR through the above-mentioned address and one copy per request will be provided free of charge. After receipt and consideration of comments on the draft EIS, the NRC will prepare a final EIS, which will also be available to the public.

Information about the proposed action, the EIS, and the scoping process may be obtained from Mr. Paul Michalak at U.S. Nuclear Regulatory Commission, Mail Stop T6–D32, Washington, DC 20555–0001, by phone at 301–415–7612, or by e-mail at *Paul.Michalak@nrc.gov.*

Dated at Rockville, Maryland, this 14th day of May 2009.

For the Nuclear Regulatory Commission. Scott C. Flanders,

Director, Division of Site and Environmental Reviews, Office of New Reactors. [FR Doc. E9–11878 Filed 5–20–09; 8:45 am] BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-04; NRC-2008-0333]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for the Renewal of U.S. Nuclear Regulatory Commission License No. SNM–2503 for Oconee Nuclear Station Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT: Haimanot Yilma, Environmental Project Manager, Environmental Review Branch, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Rockville, Maryland 20852. Telephone: (301) 415–8029; fax number: (301) 415– 3502; e-mail: haimanot.yilma@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering an application dated January 30, 2008, from Duke Power Company LLC d/b/a Duke Energy Carolinas, LLC, (Duke) for the renewal of its Special Nuclear Material (SNM) License SNM–2503, under the provisions of 10 CFR part 72, for the receipt, possession, storage and transfer of spent fuel and other radioactive materials associated with spent fuel storage at the Oconee Nuclear Station (ONS) Independent Spent Fuel Storage Installation (ISFSI), located at

the ONS site in Oconee County, South Carolina. If granted, the renewed license will authorize Duke to continue to store spent fuel in a dry cask storage system at the ISFSI. Pursuant to the provisions of 10 CFR 72.42, the renewal term of the license for an ISFSI is limited to 20 vears. Duke, however, has also submitted an exemption request with its license renewal application, pursuant to 10 CFR 72.7, seeking a license renewal term of 40 years. In accordance with 10 CFR 72.34, Duke's renewal application included an Environmental Report (which is attached as Enclosure 3, Appendix E of Duke's application).

SNM–2503 expires on January 31, 2010. This renewal and exemption request, if granted, will extend the term of SNM–2503 to January 31, 2050.

The NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has determined that a Finding of No Significant Impact (FONSI) is appropriate. If Duke's request is approved, the NRC will issue the renewed license following the publication of this EA and FONSI.

II. EA Summary

Description of the Proposed Action

Duke requests approval to renew SNM–2503 for an additional 40 years at the ONS, South Carolina facility. If approved, Duke will be allowed to receive, possess, store and transfer the power reactor spent fuel and other radioactive materials associated with spent fuel storage at the ISFSI until January 31, 2050.

Need for the Proposed Action

Duke owns and operates three nuclear power reactor units on the ONS site, Oconee Units 1, 2, and 3, which began commercial operation on July 15, 1973, September 9, 1974, and December 16, 1974, respectively. The current Facility Operating licenses (FOLs) for Oconee Units 1, 2, and 3 will expire on February 6, 2033; October 6, 2033; and July 19, 2034, respectively. The ONS ISFSI is needed to provide continued spent fuel storage capacity so that the ONS can continue to generate electricity. SNM-2503, if renewed for only the 20 year term provided by the applicable regulation, 10 CFR 72.42, will expire on January 31, 2030, which is approximately 4 years before the FOLs expire. During that time, Duke anticipates that the ISFSI will continue to be required for spent fuel storage in concert with the ONS spent fuel pools and the additional independent spent

fuel installation on the ONS site, constructed and operated under the 10 CFR part 72 general license (10 CFR 72.210).

It is unclear when DOE will begin to accept spent nuclear fuel at the Federal geological repository mandated by the Nuclear Waste Policy Act of 1982. Development of the repository continues to experience delays and it is not projected to commence operation until 2017, at the earliest. Even if DOE does begin taking spent fuel in 2017, it is unlikely that the ISFSI could be emptied of spent fuel before 2030. Duke's most recent decommissioning analyses, which assume DOE accepts ONS spent fuel beginning in 2015, project operation of the ISFSI licensed under SNM-2503, the subject of this proposed action, and the ISFSI operated under the general license, through 2044.

Offsite shipment of the spent fuel from the ISFSI prior to a 2030 expiration of the renewed license would not be practical for a variety of reasons. Currently, there are no commercial or federal facilities available to accept spent fuel. If such a facility becomes available, shipment would require repackaging of the spent fuel since the ISFSI canisters are not licensed for transport. Spent fuel shipping containers would have to be either leased or purchased. Also, this would result in considerable occupational exposure for both ONS personnel and personnel at the receiving facility. Finally, the spent fuel would still have to be shipped to the repository once it becomes available.

Transfer of the spent fuel from the SNM–2503 ISFSI into the ONS general license ISFSI, prior to a 2030 expiration of SNM–2503, would also not be practical. As the ISFSI storage units are not approved for use under the general license, this would require repackaging the spent fuel assemblies from the ISFSI into general license storage units. The cost of an additional 40 storage units coupled with the additional occupational exposure and the potential for fuel handling incidents, render this option impractical.

Therefore, Duke, under 10 CFR 72.7, requests an exemption from the 20 year renewal term specified in 10 CFR 72.42, and seeks a 40 year renewal term for SNM–2503, which would allow the ISFSI to continue to store spent fuel until January 31, 2050.

Environmental Impacts of the Proposed Action

The NRC has prepared an EA that analyzed the impact of renewing SNM– 2503 on 12 environmental categories: land use; transportation;

socioeconomics; air quality; water quality; geology and soils; endangered and threatened species; noise; historic and cultural; scenic and visual; public and occupational health; and waste management as a result of the proposed action. Based on this assessment, the NRC staff has determined that no significant radiological or nonradiological impact from normal operations of the ISFSI during the 40 year renewal period are expected. The ISFSI is a passive facility that produces no liquid or gaseous effluents and requires no power or regular maintenance. The license renewal request does not require altering the site footprint nor does it change the operating processes of the existing facility; therefore there are no anticipated impacts in any of the above listed environmental categories.

The radiological dose rates from the ISFSI will be limited by the design of the horizontal storage module. Occupational dose estimates from routine monitoring activities and transfer of spent fuel for disposal must be maintained "as low as is reasonably achievable" (ALARA) and must be within the limits of 10 CFR 20.1201 per the ONS radiation protection program. The annual dose to the nearest potential member of the public from ISFSI activities remains significantly below the annual dose limits specified in10 CFR 72.104 and 10 CFR 20.1301(a). The cumulative dose to an individual offsite from all site activities will be less than the limits specified in 10 CFR 72.104 and 10 CFR 20.1301. These doses are also a small fraction of the doses resulting from naturally occurring terrestrial and cosmic radiation of about 300 mrem/yr in the vicinity of the ONS ISFSI.

Therefore, the NRC staff concludes that the proposed action will not result in a significant impact to human health or the environment.

Agencies and Persons Contacted

NRC staff consulted with other agencies regarding the proposed action, including the U.S. Fish and Wildlife Service, the South Carolina State Historic Preservation Office. the Economic Development Commission of Oconee County, the Oconee County Planning Office, the Oconee Soil and Water Conservation District Office, the Oconee County Park, Recreation and Tourism office, and the School District of Oconee County. The consultations ensured that the requirements of Section 7 of the Endangered Species Act and Section 106 of the National Historic Preservation Act were met and provided the designated liaison agency the

opportunity to comment on the proposed action. The conclusions by all agencies consulted were consistent with the staff's conclusions.

III. Finding of No Significant Impact

On the basis of the EA, the NRC staff concludes that there are no significant radiological or non-radiological impacts associated with the proposed action and that issuance of renewal of the license for the interim storage of spent nuclear fuel at the ONS ISFSI for a renewal term of 40 years will have no significant impact on the quality of the human environment. Therefore, pursuant to 10 CFR 51.31 and 51.32, a finding of no significant impact is appropriate and an EIS need not be prepared for the renewal of SNM-2503.

IV. Further Information

Documents related to this action, including the application for renewal of SNM–2503 and supporting documentation, are available electronically at the NRC's Electronic Reading Room at *http://www.nrc.gov/ reading-rm/adams.html*. From this site, you can access the NRC's Agency-wide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. SMALL BUSINESS ADMINISTRATION

[Disaster Declaration #11707 and #11708]

North Dakota Disaster Number ND-00016

AGENCY: U.S. Small Business Administration.

ACTION: Amendment 2.

SUMMARY: This is an amendment of the Presidential declaration of a major disaster for the State of North Dakota (FEMA–1829–DR), dated 04/10/2009.

Incident: Severe Storms and Flooding. *Incident Period:* 03/13/2009 and continuing.

Effective Date: 05/13/2009.

Physical Loan Application Deadline Date: 06/09/2009.

EIDL Loan Application Deadline Date: 01/11/2010.

ADDRESSES: Submit completed loan applications to: U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

FOR FURTHER INFORMATION CONTACT: A. Escobar, Office of Disaster Assistance, U.S. Small Business Administration, 409 3rd Street, SW., Suite 6050, Washington, DC 20416.

SUPPLEMENTARY INFORMATION: The notice of the Presidential disaster declaration for the State of North Dakota, dated 04/10/2009 is hereby amended to include the following areas as adversely affected by the disaster:

Primary Counties: (Physical Damage and Economic Injury Loans): Ramsey, The Turtle Mountain Band of Chippewa Indian Reservation.

All other counties contiguous to the above named primary counties have previously been declared.

All other information in the original declaration remains unchanged.

(Catalog of Federal Domestic Assistance Numbers 59002 and 59008)

James E. Rivera,

Acting Associate Administrator for Disaster Assistance.

SMALL BUSINESS ADMINISTRATION

[Disaster Declaration #11746 and #11747]

Mississippi Disaster #MS-00030

AGENCY: U.S. Small Business Administration. **ACTION:** Notice. **SUMMARY:** This is a Notice of the Presidential declaration of a major disaster for Public Assistance Only for the State of Mississippi (FEMA–1837– DR), dated 05/12/2009.

Incident: Severe Storms, Flooding, and Tornadoes.

Incident Period: 03/25/2009 through 03/28/2009.

DATES: *Effective Date:* 05/12/2009.

Physical Loan Application Deadline Date: 07/13/2009.

Economic Injury (EIDL) Loan Application Deadline Date: 02/12/2010.

ADDRESSES: Submit completed loan applications to : U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

FOR FURTHER INFORMATION CONTACT: A. Escobar, Office of Disaster Assistance, U.S. Small Business Administration, 409 3rd Street, SW., Suite 6050, Washington, DC 20416.

SUPPLEMENTARY INFORMATION: Notice is hereby given that as a result of the President's major disaster declaration on 05/12/2009, Private Non-Profit organizations that provide essential services of governmental nature may file disaster loan applications at the address listed above or other locally announced locations.

The following areas have been determined to be adversely affected by the disaster:

Primary Counties: Amite, Greene, Jackson, Lawrence, Lincoln, Simpson, Stone, Walthall, Wayne, Wilkinson.

The Interest Rates are:

	Percent
Other (Including Non-Profit Orga- nizations) With Credit Available Elsewhere	4.500
Businesses and Non-Profit Orga- nizations Without Credit Avail-	1.000
able Elsewhere	4.000

The number assigned to this disaster for physical damage is 11746B and for economic injury is 11747B.

(Catalog of Federal Domestic Assistance Numbers 59002 and 59008)

James E. Rivera,

Acting Associate Administrator for Disaster Assistance.
