Animal and Plant Health Inspection Service

Title: Veterinary Accreditation Program.

OMB Control Number: 0579–0032.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Animal and Plant Health Inspection

Service (APHIS) of the U.S. Department of Agriculture is the agency charged with carrying out this disease prevention mission. To help accomplish this mission, APHIS’ Veterinary Services administers the National Veterinary Accreditation Program. This program certifies private veterinary practitioners to work cooperatively with Federal veterinarians, as well as with State animal health officials, to conduct certain activities for APHIS. Regulations governing the Veterinary Accreditation Program are found in Title 9 of the Code of Federal Regulations, parts 160, 161, and 162.

Need and Use of the Information: APHIS will collect information to determine that a veterinarian has met the requirements for being accredited, or for obtaining re-accreditation. APHIS will also collect information to ensure that accredited veterinarians are knowledgeable of current Federal and State animal health regulations, objectives and programs and are competent in their application. If information is not collected it would significantly destroy APHIS’ ability to operate the Veterinary Accreditation Program.

Title: Specialty Crop Block Grant Program.

OMB Number: 0581-0239.

Abstract: The information collection requirements in this request are applied only to those State departments of agriculture who voluntarily participate in the Specialty Crop Block Grant Program (SCBGP). The information collected is needed to certify that grant participants are complying with applicable program regulations. Data collected is the minimum information necessary to effectively carry out the requirements of the program, and to fulfill the intent of Section 101 of the Specialty Crops Competitiveness Act of 2004, Public Law 108-465 (Dec. 21, 2004).

The Specialty Crops Competitiveness Act of 2004 authorized the Secretary of Agriculture to make grants to States (at the time, defined to mean the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico) for each of the fiscal years 2005 through 2009 to be used by State departments of agriculture solely to enhance the competitiveness of specialty crops. The program was appropriated funding in fiscal years 2006 through 2008. These grant funds were previously applied for and awarded to eligible State departments of agriculture. Therefore, State departments of agriculture can no longer apply for grants under the program. However, the program is still in effect because grant periods can be up to three years in length and currently, State departments of agriculture are reporting on previously awarded grants. This program, SCBGP, is separate from the Specialty Crop Block Grant Program-Farm Bill (SCBGP-FB), program.

A State department of agriculture participating in the SCBGP would have to submit a Request for Grant Amendment to AMS if there is a change in key personnel, scope or objectives of the grant, budget changes that exceed more than 20% of a project's total budget, and/or or an extension of the grant period not to exceed three calendar years.
