#### **SUPPLEMENTARY INFORMATION:**

##### **A. Purpose**

The FAR clause at 52.236-13, Accident Prevention requires Federal construction contractors to keep records of accidents incident to work performed under the contract that result in death, traumatic injury, occupational disease or damage to property, materials, supplies or equipment. Records of personal inquiries are required by OSHA (OMB Control No. 1220-0029). The records maintained by the contractor are used to evaluate compliance and may be used in workmen's compensation cases. The FAR requires records of damage to property, materials, supplies or equipment to provide background information when claims are brought against the Government.

If the contract involves work of a long duration, the contractor must submit a written proposed plan for implementing

the clause. The Accident Prevention Plan, for projects that are hazardous or of long duration, is analyzed by the contracting officer along with the agency safety representatives to determine if the proposed plan will meet the requirements of safety regulations and applicable statutes. The Accident Prevention Plan is placed in the official contract file by the contracting officer for reference.
