

Consequently, the final rule is currently in effect (*Advocates for Highway and Auto Safety v. Federal Motor Carrier Safety Administration*, 429 F. 3d1136 (D.C.Cir. 2005)).

Title: Training Certification for Entry-Level Commercial Motor Vehicle Operators

OMB Control Number: 2126-0028.

Type of Request: Extension of an IC.

Respondents: Entry-level CDL drivers.

Estimated Number of Respondents: 45,611.

Estimated Time per Response: 10 minutes.

Expiration Date: September 30, 2009.

Frequency of Response: On occasion.

Estimated Total Annual Burden: 7,602 hours. FMCSA estimates that an entry-level driver requires approximately 10 minutes to complete the tasks necessary to comply with the regulation. Those tasks are: Photocopying the training certificate, giving the photocopy to the motor carrier employer, and placing the original of the certificate in a personal file. Therefore, the annual burden for all entry-level drivers is 7,602 hours [45,611 respondents × 10 minutes/60 minutes to complete a response = 7,601.8 hours (rounded to 7,602 hours)].

Definitions: "Commercial Motor Vehicle (CMV)": A motor vehicle operated in commerce and having a gross vehicle weight rating of 26,001 pounds or more, regardless of actual weight, or designed to transport 16 or more passengers, or used to transport placardable and dangerous hazardous materials (49 CFR 383.5). The term "CMV" is limited to this definition in this document; the term "CDL driver" is used because the operators of these CMVs are required to have a valid commercial driver's license (CDL). This rule currently applies solely to "entry-level" CDL drivers, i.e., those who have less than one year of experience operating a CMV (49 CFR 380.502(b)).

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FMCSA's performance of functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB's clearance of this information collection.

(*Waiver Petition Docket Number FRA-2009-0026*)

The Terminal Railroad Association of Saint Louis (TRRA) seeks a permanent waiver of compliance with the *Locomotive Safety Standards*, 49 CFR 229.21(a), as it pertains to the record keeping requirement for locomotive daily inspection reports. The railroad states that each employee performing the inspections would be provided a unique electronic identification which will be utilized in place of the signature. All requirements, date, time location, person conducting inspection, and any non-complying conditions will be reported electronically. TRRA utilizes an onboard record of daily inspection and will continue to do so if their request is granted.
