

AFM, as applicable. When Learjet 60 TFCM 2009-03 has been included in general revisions of the applicable AFM, the general revisions may be inserted in the applicable AFM, provided the relevant information in the general revision is identical to that in Learjet 60 TFCM 2009-03.

Alternative Methods of Compliance (AMOCs)

(i)(1) The Manager, Wichita Aircraft Certification Office, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. Send information to ATTN: Don Ristow, Aerospace Engineer, Mechanical Systems and Propulsion Branch, ACE-116W, Wichita Aircraft Certification Office, FAA, 1801 Airport Road, Room 100, Mid-Continent Airport, Wichita, Kansas 67209; telephone (316) 946-4120; fax (316) 946-4107.

(2) To request a different method of compliance or a different compliance time for this AD, follow the procedures in 14 CFR 39.19. Before using any approved AMOC on any airplane to which the AMOC applies, notify your principal maintenance inspector (PMI) or principal avionics inspector (PAI), as appropriate, or lacking a principal inspector, your local Flight Standards District Office. The AMOC approval letter must specifically reference this AD.

Issued in Renton, Washington, on May 18, 2009.

Ali Bahrami,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA-2009-0489; Directorate Identifier 2009-CE-025-AD]

RIN 2120-AA64

Airworthiness Directives; Air Tractor, Inc. Models AT-802 and AT-802A Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain Air Tractor, Inc. (Air Tractor) Models AT-802 and AT-802A airplanes. This proposed AD would require installing a rudder-aileron interconnect cable system shield kit and securing any items stowed in the baggage compartment using tie downs and/or a cargo net until the cable shield kit is installed. This proposed AD results from a report of the

rudder pedal cable becoming jammed in flight. We are proposing this AD to prevent jamming of the rudder-aileron interconnect cables by unsecured items in the baggage compartment, which could result in failure of the rudder-aileron interconnect cable system. This failure could lead to loss of control.

DATES: We must receive comments on this proposed AD by July 28, 2009.

ADDRESSES: Use one of the following addresses to comment on this proposed AD:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Fax:* (202) 493-2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590.
- *Hand Delivery:* U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For service information identified in this proposed AD, contact Air Tractor, Inc., P.O. Box 485, Olney, Texas 76374; telephone: (940) 564-5616; facsimile: (940) 564-5612; E-mail: parts@airtractor.com; Internet: <http://www.airtractor.com>.

FOR FURTHER INFORMATION CONTACT: Andy McAnaul, Aerospace Engineer, 10100 Reunion Pl., Ste. 650, San Antonio, Texas 78216; telephone: (210) 308-3365; fax: (210) 308-3370.

SUPPLEMENTARY INFORMATION:

Comments Invited

We invite you to send any written relevant data, views, or arguments regarding this proposed AD. Send your comments to an address listed under the **ADDRESSES** section. Include the docket number, "FAA-2009-0489; Directorate Identifier 2009-CE-025-AD" at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of the proposed AD. We will consider all comments received by the closing date and may amend the proposed AD in light of those comments.

We will post all comments we receive, without change, to <http://www.regulations.gov>, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive concerning this proposed AD.

Discussion

We received a report of an Air Tractor Model AT-802 airplane rudder pedal jamming in flight. The pilot was able to maintain control and land. After landing, a cable pulley in the rudder system was found broken. Air Tractor believes one or more unsecured items in the baggage compartment became entangled in the cables and caused them to jam, resulting in failure of the pulley.

Air Tractor has designed a modification kit that installs shielding in the baggage compartment to prevent unsecured stowed items from becoming entangled in the rudder-aileron interconnect cable system.

This condition, if not corrected, could result in jamming of the rudder-aileron interconnect cables by unsecured items in the baggage compartment, which could result in failure of the rudder-aileron interconnect cable system. This failure could lead to loss of control.

Relevant Service Information

We have reviewed Snow Engineering Co., Service Letter #274, Revision A, dated April 6, 2009.

The service information describes procedures for installing a cable shield in the baggage compartment.

FAA's Determination and Requirements of the Proposed AD

We are proposing this AD because we evaluated all information and determined the unsafe condition described previously is likely to exist or develop on other products of the same type design. This proposed AD would require installing a rudder-aileron interconnect cable system shield kit and securing any items stowed in the baggage compartment using tie downs and/or a cargo net until the cable shield kit is installed.

Normally, the FAA would use a compliance time of hours time-in-service (TIS) or a certain number of months. The proposed AD uses a calendar date for compliance instead of hours TIS or a certain number of months. We are using the calendar date of before December 31, 2009, to allow owners with airplanes used in agricultural spray operations until the end of the spray season to install the rudder-aileron interconnect cable system shields (terminating action).

Differences Between This Proposed AD and the Service Information

This proposed AD would require securing stowed items in the baggage compartment with tie-down straps or a cargo net until the rudder-aileron interconnect cable system shield required in the proposed AD is

installed. The requirements of this proposed AD, if adopted as a final rule, would take precedence over the provisions in the service information.

Costs of Compliance

We estimate that this proposed AD would affect 210 airplanes in the U.S. registry.

We estimate the following costs to do the proposed modification:

Labor cost	Parts cost	Total cost per airplane	Total cost on U.S. operators
Cable Shield Kit SL#274: 4.5 work-hours × \$80 per hour = \$360	\$860	affects 170 airplanes at \$1,220 each	\$207,400
Cable Shield Kit SL#274-2: 4.5 work-hours × \$80 per hour = \$360	540	affects 40 airplanes at \$900 each	36,000

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701, “General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

We have determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that the proposed regulation:

1. Is not a “significant regulatory action” under Executive Order 12866;
2. Is not a “significant rule” under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and
3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared a regulatory evaluation of the estimated costs to comply with this proposed AD and placed it in the AD docket.

Examining the AD Docket

You may examine the AD docket that contains the proposed AD, the regulatory evaluation, any comments received, and other information on the Internet at <http://www.regulations.gov>; or in person at the Docket Management Facility between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone (800) 647-5527) is located at the street address stated in the ADDRESSES section. Comments will be available in the AD docket shortly after receipt.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. The FAA amends § 39.13 by adding the following new AD:

Air Tractor, Inc.: Docket No. FAA-2009-0489; Directorate Identifier 2009-CE-025-AD.

Comments Due Date

(a) We must receive comments on this airworthiness directive (AD) action by July 28, 2009.

Affected ADs

(b) None.

Applicability

(c) This AD applies to Model AT-802 and AT-802A airplanes, serial numbers 802/802A-001 through 802/802A-0319, that are certificated in any category.

Unsafe Condition

(d) This AD results from a report of the rudder pedal cable becoming jammed in flight. We are proposing this AD to prevent jamming of the rudder-aileron interconnect cables by unsecured items in the baggage compartment, which could result in failure of the rudder-aileron interconnect cable system. This failure could lead to loss of control.

Compliance

(e) To address this problem, you must do the following, unless already done:

Actions	Compliance	Procedures
(1) Secure any items stowed in the baggage compartment using tie down straps and/or a cargo net.	Before further flight after the effective date of this AD until the installation of the rudder-aileron interconnect cable shield kit required in paragraph (e)(2) of this AD is done.	Not applicable.
(2) Install the following rudder-aileron interconnect cable shield kit, as applicable. (i) For all airplanes equipped for agricultural spray operations and all fire-fighting airplanes retrofitted with Gen II Fire Retardant Delivery System relay box, install cable shield kit SL#274. (ii) For all fire-fighting airplanes not equipped with Gen II Fire Retardant Delivery System relay box, install cable shield kit SL#274-2.	No later than December 31, 2009	Snow Engineering Co., Service Letter #274, Revision A, dated April 6, 2009.

Actions	Compliance	Procedures
(iii) Installation of the applicable cable shield kit SL#274 or SL#274-2 terminates the requirement of paragraph (e)(1) of this AD.		

Alternative Methods of Compliance (AMOCs)

(f) The Manager, Fort Worth Airplane Certification Office, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. Send information to ATTN: Andy McAnaul, Aerospace Engineer, 10100 Reunion Pl., Ste. 650, San Antonio, Texas 78216; telephone: (210) 308-3365; fax: (210) 308-3370. Before using any approved AMOC on any airplane to which the AMOC applies, notify your appropriate principal inspector (PI) in the FAA Flight Standards District Office (FSDO), or lacking a PI, your local FSDO.

Related Information

(g) To get copies of the service information referenced in this AD, contact Air Tractor, Inc., P.O. Box 485, Olney, Texas 76374; telephone: (940) 564-5616; facsimile: (940) 564-5612; E-mail: parts@airtractor.com; Internet: <http://www.airtractor.com>. To view the AD docket, go to U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, or on the Internet at <http://www.regulations.gov>.

Issued in Kansas City, Missouri, on May 20, 2009.

Kim Smith,

Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R04-OAR-2005-KY-0003-200616; FRL-8911-3]

Approval and Promulgation of Implementation Plans; Kentucky; NO_x SIP Call Phase II

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the State Implementation Plan (SIP) revisions submitted by the Commonwealth of Kentucky on September 12, 2005, and March 24, 2006. The first revision provides Kentucky's response to EPA's regulations entitled, "Finding of Significant Contribution and Rulemaking for Certain States in Ozone Transport Assessment Group Region for

Purposes of Reducing Regional Transport of Ozone," otherwise known as the "Nitrogen Oxides (NO_x) SIP Call Phase I." The second revision responds to EPA's regulations entitled, "Interstate Ozone Transport: Response to Court Decisions on the NO_x SIP Call, NO_x SIP Call Technical Amendments, and Section 126 Rules," otherwise known as the "NO_x SIP Call Phase II." The NO_x SIP Call Phase II revision satisfies EPA's rule that requires Kentucky to submit Phase II revisions necessary to achieve applicable, incremental reductions of NO_x. The intended effect of the Phase II SIP revision is to reduce emissions of NO_x originating in the Commonwealth of Kentucky to help attain and maintain the national ambient air quality standard for ozone. The March 24, 2006, final submittal stopped the federal implementation plan clock that started on February 8, 2006, when EPA made a finding that Kentucky failed to submit the required SIP for Phase II of the NO_x SIP Call by April 1, 2005.

DATES: Comments must be received on or before June 29, 2009.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R04-OAR-2005-KY-0003, by one of the following methods:

1. <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.

2. *E-mail:* benjamin.lynora@epa.gov.

3. *Fax:* 404-562-9019.

4. *Mail:* EPA-R04-OAR-2005-KY-0003, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960.

5. *Hand Delivery or Courier:* Lynora Benjamin, Chief, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. Such deliveries are only accepted during the Regional Office's normal hours of operation. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30, excluding federal holidays.

Instructions: Direct your comments to Docket ID No. EPA-R04-OAR-2005-KY-0003. EPA's policy is that all

comments received will be included in the public docket without change and may be made available Online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through <http://www.regulations.gov> or e-mail, information that you consider to be CBI or otherwise protected. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

Docket: All documents in the electronic docket are listed in the <http://www.regulations.gov> index.
