Through the 2008 AGP, FSA will provide grants to State governments to assist eligible aquaculture producers that suffered losses associated with high feed input costs during the 2008 calendar year. SUPPLEMENTARY INFORMATION:

Purpose of Notice

This notice announces a proposal for the availability of Recovery Act (Pub. L. 111-5) grant funding to State governments that agree to implement the 2008 AGP to assist eligible aquaculture producers for their losses associated with high feed input costs during the 2008 calendar year.

Background

This notice is issued under Section 102(d) of the Recovery Act that authorizes up to \$50 million to carry out the 2008 AGP. To provide assistance to eligible aquaculture producers, FSA is proposing to provide block grants to State governments that agree to provide assistance to eligible aquaculture producers for losses associated with high feed input costs during the 2008 calendar year.

Grant Funding Allocation

The Recovery Act requires that USDA allocate 2008 AGP funding to the States on a pro rata basis, based on the amount of aquaculture feed used in each State during the 2007 calendar year. FSA has by letter notified the States that it proposes to calculate the amount to allocate to each State based on the total aquaculture feed delivered in each State in the 2007 calendar year, as reported by the States to FSA for the 2008 AGP.

FSA has sent each State Department of Agriculture a letter that includes the instructions and specifies the information to provide to FSA before receiving any grant funding. The States

that do not meet the requirements in this notice, the letter, and the grant agreement will not receive grant funding.

Grant Agreements Under the Proposal

Under the current proposal, grant funding to a State is contingent on the execution of a Grant Agreement (Agreement) between CCC and the State. Upon execution of an Agreement, the State would agree to:

- (1) Implement the 2008 AGP according to program-specific policy and procedure provided in the Agreement;

- (2) Submit a 2008 Aquaculture Grant Work Plan to FSA providing a summary of how the State will implement 2008 AGP to provide assistance to eligible aquaculture producers;

- (3) Provide assistance to eligible aquaculture producers, not later than 60 days after the date on which the State receives grant funds;

- (4) Facilitate the accountability and transparency objectives of the Recovery Act as provided in 2 CFR part 176, subparts A and D, specifically, the award terms would require;

- (a) Recipients and sub-recipients (first-tier that are not individuals) to maintain current registrations in the Central Contractor Registration (CCR) database,

- (b) Recipients to report quarterly on project or activity status, sub-grant and subcontract information, and

- (c) Proper accounting and reporting of Recovery Act expenditures in single audits; and

- (5) Submit to FSA a 2008 AGP Recovery Act Report, no later than 30 days after the States have provided assistance to eligible producers, including the:

- (a) Manner in which the State provided assistance,

- (b) Amount of assistance provided per producer per species of aquaculture, and

- (c) Process by which the State determined the levels of assistance to eligible aquaculture producers.

Definitions Used in the Proposal

Under the current proposal, the following definitions would be applicable to the 2008 AGP:

Controlled environment. An environment in which everything that can practicably be controlled with structures, facilities, growing media (including but not limited to water or nutrients) by the producer, is in fact controlled by the producer, as determined by industry standards.

Farming operation. A business enterprise engaged in the production of
