BILLING CODE 4210-67-P**DEPARTMENT OF THE INTERIOR****Bureau of Reclamation****Agency Information Collection; Activities Under OMB Review; Comment Request****AGENCY:** Bureau of Reclamation, Interior.**ACTION:** Notice of renewal of a currently approved collection (OMB No. 1006-0023).

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces the Bureau of Reclamation (we, our, or us) has forwarded the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval: Forms to Determine Compliance by Certain Landholders, 43 CFR part 426, OMB Control Number: 1006-0023.

DATES: OMB has up to 60 days to approve or disapprove this information collection, but may respond after 30 days; therefore, public comments must be received on or before July 13, 2009 to assure maximum consideration.

ADDRESSES: You may send written comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the Desk Officer for the Department of the Interior at the Office of Management and Budget, Office of Information and Regulatory Affairs, via facsimile to (202) 395-5806 or e-mail to OIRA_DOCKET@omb.eop.gov. SUPPLEMENTARY INFORMATION:

Title: Forms to Determine Compliance by Certain Landholders, 43 CFR part 426.

Abstract: Identification of limited recipients—Some entities that receive Reclamation irrigation water may believe that they are under the Reclamation Reform Act of 1982 (RRA) forms submittal threshold and, consequently, may not submit the appropriate RRA form(s). However, some of these entities may in fact have a different RRA forms submittal threshold than what they believe it to be due to the number of natural persons benefiting from each entity and the location of the land held by each entity. In addition, some entities that are exempt from the requirement to submit RRA forms due to the size of their landholdings (directly and indirectly owned and leased land) may in fact be receiving Reclamation irrigation water for which the full-cost rate must be paid because the start of Reclamation irrigation water deliveries occurred after October 1, 1981 [43 CFR 426.6(b)(2)]. The information obtained through completion of the Limited Recipient Identification Sheet (Form 7-2536) allows us to establish entities' compliance with Federal reclamation

law. The Limited Recipient Identification Sheet is disbursed at our discretion. The proposed revisions to the Limited Recipient Identification Sheet will be included starting in the 2010 water year, and are designed to facilitate ease of completion.

Trust review—We are required to review and approve all trusts [43 CFR 426.7(b)(2)] in order to ensure trusts meet the regulatory criteria specified in 43 CFR 426.7. Land held in trust generally will be attributed to the beneficiaries of the trust rather than the trustee if the criteria are met. When we become aware of trusts with a relatively small landholding (40 acres or less), we may extend to those trusts the option to complete and submit for our review the Trust Information Sheet (Form 7–2537) instead of actual trust documents. If we find nothing on the completed Trust Information Sheet that would warrant the further investigation of a particular trust, that trustee will not be burdened with submitting trust documents to us for in-depth review. The Trust Information Sheet is disbursed at our discretion. The proposed revisions to the Trust Information Sheet will be included starting in the 2010 water year, and are designed to facilitate ease of completion.

Acreage limitation provisions applicable to public entities—Land farmed by a public entity can be considered exempt from the application of the acreage limitation provisions provided the public entity meets certain criteria pertaining to the revenue generated through the entity’s farming activities (43 CFR 426.10 and the Act of July 7, 1970, Pub. L. 91–310). We are required to ascertain whether or not public entities that receive Reclamation irrigation water meet such revenue criteria regardless of how much land the public entities hold (directly or indirectly own or lease) [43 CFR 426.10(a)]. In order to minimize the burden on public entities, standard RRA forms are submitted by a public entity only when the public entity holds more than 40 acres subject to the acreage limitation provisions westwide, which

makes it difficult to apply the revenue criteria as required to those public entities that hold less than 40 acres. When we become aware of such public entities, we may extend to those public entities the option to complete and submit for our review the Public Entity Information Sheet (Form 7–2565), which allows us to establish compliance with Federal reclamation law for those public entities that hold 40 acres or less and thus do not submit a standard RRA form because they are below the RRA forms submittal threshold. In addition, for those public entities that do not meet the exemption criteria, we must determine the proper rate to charge for Reclamation irrigation water deliveries. The Public Entity Information Sheet is disbursed at our discretion. The proposed revisions to the Public Entity Information Sheet will be effective starting in the 2010 water year and are designed to facilitate ease of completion.

Acreage limitation provisions applicable to religious or charitable organizations (new form)—Some religious or charitable organizations that receive Reclamation irrigation water may believe that they are under the RRA forms submittal threshold and, consequently, may not submit the appropriate RRA form(s). However, some of these organizations may in fact have a different RRA forms submittal threshold than what they believe it to be depending on whether these organizations meet all of the required criteria for full special application of the acreage limitations provisions to religious or charitable organizations [43 CFR 426.9(b)]. In addition, some organizations that (1) do not meet the criteria to be treated as a religious or charitable organization under the acreage limitation provisions, and (2) are exempt from the requirement to submit RRA forms due to the size of their landholdings (directly and indirectly owned and leased land), may in fact be receiving Reclamation irrigation water for which the full-cost rate must be paid because the start of Reclamation irrigation water deliveries

occurred after October 1, 1981 [43 CFR 426.6(b)(2)]. The information obtained through completion of the Religious or Charitable Organization Identification Sheet (Form 7–2578) allows us to establish certain religious or charitable organizations’ compliance with Federal reclamation law. The Religious or Charitable Organization Identification Sheet is disbursed at our discretion. The proposed revisions to the Religious or Charitable Organization Identification Sheet will be included starting in the 2010 water year, and are designed to facilitate ease of completion.

Changes to the forms and the instructions to those forms—Minor editorial changes were made to the currently approved forms and the instructions to those forms prior to the 60-day comment period initiated by the notice published in the **Federal Register** (73 FR 63507, Oct. 24, 2008). Those changes were designed to assist the respondents by increasing their understanding of the forms, clarifying the instructions for use when completing the forms, and clarifying the information that is required to be submitted with the forms. We received no public comments from the 60-day public comment period. The proposed revisions to the forms will be included starting in the 2010 water year.

Frequency: Generally, these forms will be submitted once per identified entity, trust, public entity, or religious or charitable organization. Each year, we expect new responses in accordance with the following numbers.
