Title: EPA Worker Protection Standards for Hazardous Waste Operation and Emergency Response (Renewal).

ICR numbers: EPA ICR No. 1426.08, OMB Control No. 2050-0105.

ICR Status: This ICR is scheduled to expire on June 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 126(f) of the Superfund Amendments and Reauthorization Act of 1986 (SARA) requires EPA to set worker protection standards for State and local employees engaged in hazardous waste operations and emergency response in the 27 States that do not have Occupational Safety and Health Administration approved State plans. The EPA coverage, required to be identical to the OSHA standards, extends to three categories of employees: those engaged in clean-ups at uncontrolled hazardous waste sites, including corrective actions at Treatment, Storage and Disposal (TSD) facilities regulated under the Resource Conservation and Recovery Act (RCRA); employees working at routine hazardous waste operations at RCRA TSD facilities, and employees involved in emergency response operations without regard to location. This ICR renews existing mandatory record keeping collection of ongoing activities including monitoring of any potential employee exposure at uncontrolled hazardous waste sites, maintaining records of employee training, refresher training, medical exams and reviewing emergency response plans.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 12 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and local governments in the 27 States and 2 territories that do not have OSHA-approved plans under section 18(b) of the OSH Act.

Estimated Number of Respondents: 25,052.

Frequency of Response: Once, Annually, On Occasion.

Estimated Total Annual Hour Burden: 311,680.

Estimated Total Annual Cost: \$4,253,976, includes no annualized capital or O&M costs.

Changes in the Estimates: There is an increase of 56,253 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This is due primarily to the estimated growth in the number of fire departments and other respondents subject to this collection.

Dated: June 9, 2009.

Director, Collection Strategies Division.

Title: State and Federal Emission Guidelines for Hospital/Medical/Infectious Waste Incineration (Renewal).

ICR Numbers: EPA ICR Number 1899.05, OMB Control Number 2060-0422.

ICR Status: This ICR is scheduled to expire on August 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of

information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Respondents subject to 40 CFR part 60, subpart Ce, and to 40 CFR part 62, subpart HHH, are owners or operators of hospital, medical, or infectious waste incinerators. Subpart Ce was promulgated on September 15, 1997, and requires states or tribes to develop plans to implement the Emission Guidelines. If approvable State or tribal plans were not developed, EPA was required to develop a Federal plan to implement the Emission Guidelines in such States or tribes. The Federal plan, subpart HHH, was promulgated on September 14, 2000.

Subparts Ce and HHH require initial notifications, performance tests, and annual and semi-annual reporting. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance.

Any owner or operator subject to the provisions of these parts shall maintain a file of these measurements, and retain the file for at least five years following the collection of such measurements, maintenance reports, and records. All reports are sent to the delegated State or tribal authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart Ce and 40 CFR part 62, subpart HHH, as authorized in sections 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA regulations listed in 40
