Comments received from that consultation were considered in developing the document titled "Risk and Exposure Assessment to Support the Review of the Secondary National Ambient Air Quality Standards for Oxides of Nitrogen and Oxides of Sulfur: First Draft," which was released for public review and comment in August 2008. This document was the subject of a CASAC review on October 1–2, 2008. Comments received from that review have been considered in developing the document titled, "Risk and Exposure Assessment to Support the Review of the Secondary National Ambient Air Quality Standards for Oxides of Nitrogen and Oxides of Sulfur: Second Draft," which is being released at this time.

The second draft risk and exposure assessment for the secondary NO<sub>x</sub>/SO<sub>x</sub> NAAQS review released at this time conveys the approach taken to assess ecological effects due to the deposition of ambient NO<sub>x</sub> and SO<sub>x</sub>, and present the results of these analyses. This draft document will be available online at: [http://www.epa.gov/ttn/naaqs/standards/no2so2sec/cr\\_rea.html](http://www.epa.gov/ttn/naaqs/standards/no2so2sec/cr_rea.html).

The EPA is soliciting advice and recommendations from the CASAC and public comments by means of a review of the draft document at an upcoming public meeting of the CASAC scheduled for July 22–23, 2009 in Research Triangle Park, NC. A separate **Federal Register** notice will provide additional details about this meeting and the process for participation. Following the CASAC meeting, EPA will consider comments received from the CASAC and the public in preparing a final risk and exposure assessment report.
