SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Director, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Abstract: To assist schools in attracting, retaining and motivating effective teachers and principals, in 2006 the U.S. Department of Education launched the Teacher Incentive Fund, which supports comprehensive compensation reform activities including bonus pay-for-performance

(PFP), career advancement and professional development. The purpose of this evaluation is to describe the implementation of the program and its relationship to any increases in recruitment and retention of effective teachers and principals. If feasible, this evaluation will also seek to analyze TIF's relationship to increasing student achievement.

Federal Energy Regulatory Commission

[Project No. 13498-000]

SARA, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

June 17, 2009.

On June 2, 2009, SARA, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the SWAVE Catalina Green Wave Energy Project, located in the Pacific Ocean approximately 0.75 mile off the west coast of Santa Catalina Island, on submerged lands of the State of California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or

otherwise enter upon lands or waters owned by others without the owners' express permission.

The project would consist of an array of 10-40 SWAVE buoys, mounted in a staggered array in about 225 to 300 feet of water. The project zone is a rectangle about 0.5 nautical mile wide by 1.75 nautical miles long. The exact layout of the buoy array would be determined once a oceanographic site survey has been completed. The units would be designed with a peak capacity of 150 kilowatts each, for a total peak capacity of the 1.5-6 megawatts. The buoys would be secured in place with a mooring system. The buoys themselves would be easy to disconnect from their mooring to allow easy removal in the case they are found to cause environmental damage. The buoy array would be connected to an underwater junction box and that conditions the power and transmits it to shore in the vicinity of the city of Avalon through a high-voltage power transmission cable.
